**Title:**

NRL-Wide Broad Agency Announcement

**Description(s):**

Added: Jun 17, 2011 3:07 pm

The Naval Research Laboratory is interested in receiving innovative proposals that offer potential for advancement and improvement in the technical topic areas listed. This notice constitutes a Broad Agency Announcement (BAA) as contemplated in FAR 6.302(d) that provides for the competitive selection of research proposals. The Government reserves the right to select for award all, some, or none of the proposals received. Awards under this BAA are expected to take the form of contracts. Grants, cooperative agreements, other transactions may also be awarded if appropriate. NRL encourages Educational Institutions, Small Businesses (SBs), Small Disadvantaged Business Concerns (SDBs) and Historically Black Colleges and Universities (HBCUs) and Minority Institutions (MIs) to submit proposals under this BAA. In order to conserve valuable offeror and Government resources, prospective offerors shall first submit a White Paper (WP), to include in a separate volume, a rough cost estimate to [nrlproposals@nrl.navy.mil](mailto:nrlproposals@nrl.navy.mil).

Prospective offerors are encouraged to submit White Papers as early in the fiscal year as possible to maximize the potential for award. The selection of proposals for award will be based on a scientific review of proposals submitted in response to each BAA topic. The major purpose of the evaluation will be to determine the relative merit of the technical approach of each proposal. Business and contractual aspects, including proposed cost and cost realism, will also be considered as part of the evaluation. Selection of proposals for award will be based on the potential benefits to the Government weighed against the cost of the proposals, in view of the availability of

funds.

The complete BAA including proposal preparation instructions, award considerations, and evaluation criteria is available at <http://heron.nrl.navy.mil/contracts/baa/index02.htm>.
