III. Eligibility Criteria

Ref: 46 U.S.C. 13103

In order to apply for a grant, an organization must be eligible for funding. Title 46 United States Code, section 13103(c) authorizes Federal financial assistance for "support of national boating safety activities of national non-profit public service organizations." The Coast Guard has developed the following test for eligibility, based on Federal law and regulations, legal rulings and interpretations, and guidance from other Federal agencies.

Organizations do not have to be boating-related. Any organization meeting the following qualifications is eligible to apply:

1. It must be a nongovernmental organization. (City, County or State governments or municipalities, for example, are not eligible).
2. It must be accorded a non-profit organization tax-exempt status by the Internal Revenue Service in accordance with 26 U.S.C. 501(c) (3). You must provide a copy of the IRS letter designating your organization as a non-profit organization (26 CFR 1.501(c) (3) -1 elaborates on the test for exemption). Contracts or subcontracts to profit-making or taxable organizations are allowed. However, these activities must be explicitly spelled out in the grant project narrative, and be limited to administrative, clerical, or technical functions.
3. It has the ability to provide public boating safety benefits that are national in scope or dimension. It must demonstrate that its benefits will be effectively extended nationwide, extending beyond a state or region. A national membership base does not suffice.
4. It must be primarily in existence to provide "public service" and serve the general public. Fraternal, lobbying or religious organizations are not eligible.

Subcontracts to profit-making businesses, colleges or universities are allowed. However, the grantee organization is required to maintain all project records, provide the point of contact, and maintain funding accountability. If a profit-making organization or college or university performs a portion of the contract, the project proposal and grant agreement shall lucidly describe its activities. Non-profit organizations that are associated with profit-making or taxable organizations are eligible for grants if they meet all the eligibility requirements above.

EXCLUSIONS

The following organizations are not eligible for funding: (1) colleges and universities; (2) hospitals; (3) governments or governmental organizations; (4) churches; (5) municipalities; (6) local units of national organizations; and (7) organizations that do not have an impact at the national level. These organizations that are excluded from applying for funding may contract with a recipient organization.

IV. Restrictions on Use of Award Funds

All expenditures under this program must be for allowable recreational boating safety costs.

V. Application Review Information and Selection Process

The applications are first reviewed for eligibility and completeness. The project cost portions of the proposals are reviewed ensuring that they meet Federal requirements. Applications are then subjected to a merit review performed by Subject Matter Experts. Subject Matter Experts review each application for technical merit, personnel qualifications, and the degree to which a proposal offers potential value and measurements to Program goals as stated and described in the Proposal Rating Criteria section below. The Subject Matter Experts typically review 60-80 applications annually. The Non-Profit Organization Grants Coordinator prepares the top-ranked grant award recommendations for review and approval to the Director of Prevention Policy that has final approving authority.

APPLICATION RATING CRITERIA

The Coast Guard has funded a wide variety of projects related to boating safety, ranging from highly technical engineering studies to the development of public service announcements. The sole requirement is that the project must have the potential to benefit recreational boating safety at the national level.

The following generic criteria are used during evaluations:

1. The extent to which work under the grant is intended to support the National Recreational Boating Safety Program mission, goals and objectives:

Mission: To ensure the public has a safe, secure, and enjoyable recreational boating experience by implementing programs that minimize the loss of life, personal injury, and property damage while cooperating with environmental and national security efforts.

RBS Performance Goals: To reduce the annual number of recreational boating casualties nationwide. The following objectives can be found in the Coast Guard Strategic Plan http://www.uscgboating.org/assets/1/workflow_staging/News/489.PDF.

The objectives to meet the Performance Goal are as follows:

- Objective 1: Safety Education Certificates and Successful Course Completions.
- Objective 2: Boating Safety Outreach.
- Objective 3: Advanced and/or On-Water, Skills-Based Boating Education.
- Objective 4: Life Jacket Wear.
- Objective 5: Operator Compliance – Navigation Rules.
- Objective 6: Boating Under the Influence.
- Objective 7: Manufacturer Compliance.
- Objective 8: Operator Compliance – USCG Required Safety Equipment.
- Objective 9: Boating Accident Reporting.
- Objective 10: Research and Development.
- Objective 11: Effectiveness of Non-Profit Organization Grants

2. Feasibility (probability of project success). An estimate of overall likelihood of achieving the stated project goals. This includes, but is not limited to the following:
 - a. The likelihood of the activity leading to the desired results;
 - b. The technical and managerial competence of the staff, the adequacy of equipment and organizational capacity to perform the proposed project as evidenced by its previous successful completion of work similar to that proposed for funding;
 - c. The reasonableness and consistency of the timetables and milestones relative to the available resources; and
 - d. The adequacy of specific delivery systems to ensure that the output is used.
3. Impact/cost (its cost effectiveness). An estimate of external consequences and projected benefits of the project's output in relation to its cost. It includes consideration of:
 - a. Whether proposed project fits criteria noted in the solicitation for projects of particular interest;
 - b. The overall merit of the proposed project or activity. (Does the project support overall the Recreational Boating Safety goals?)
 - c. The value of intended output to nationwide recreational boating safety including the likelihood of the project spurring other beneficial actions and its consistency with the direction of the National Recreational Boating Safety Program; and the project cost and proposals for cost sharing.

VI. Post-Selection and Pre-Award Guidelines

Award Notices: Award notices will be issued prior to June 30th.

Administrative and Financial Requirements: Quarterly Federal Financial Reports (SF-425) are required. They are due within 30 days after the end of each quarter with a final report due within 90 days after the end of the federal fiscal year.

Programmatic Reporting Requirements: Annual Performance Reports (narrative) are due within 30 days after the end of each quarter.

Additional Information: If funded, grant recipients will be required to attend a **mandatory** training session via webinar in Spring 2013. The training session will cover the following:

- Program and Financial Overview
- Budget Negotiations
- ASAP (Automated Standard Application for Payments)
- Indirect Costs
- Quarterly Reporting and Expenditures
- Desk Reviews
- Technical Site Visits
- Close Out Reports and Deliverables

GRANT AGREEMENT NEGOTIATIONS

After the Program Director approves the grant awards, the organizations are informed of the decision, and negotiations begin. In most cases, the procedure is simple. A grant agreement is prepared and the required parties sign it. However, there are exceptions:

- If the organization is a new grantee of the Coast Guard, or has never received Federal funds before, its accounting system must be examined and approved.
- The proposal itself may have to be revised to accommodate Grant Review Team recommendations.
- The project budget may have to be revised.

Note: Organizations awarded a grant cannot use the grant funds to pay for work performed prior to the grant start date. Payments cannot be processed until the award agreement is signed by the United States Coast Guard.

After mutual acceptance of the revised proposal, a formal grant and/or cooperative agreement is drafted and signed. Agreements must be signed and funds obligated before June 30, 2013. After the agreements are signed, each grant project is assigned a Grant Technical Manager. That individual remains as the grantee's primary point of contact during the life of the project, and should:

1. Provide technical assistance as required;
2. Review and approve grantee's progress reports and requests for payments;
3. Provide required Federal forms, explain how to fill them out; and
4. Act as liaison between the grantee and any other Coast Guard staff elements the grantee may be required to deal with (Coast Guard financial management personnel, for example).

FINANCIAL MANAGEMENT

SF-425 Form-Federal Financial Report

All SF-425s must be submitted on a quarterly basis and it must be submitted with the Final Report. The SF-425 ensures that the grantees are managing their funds properly. Failure to submit a timely SF-425 can result in funds being withheld.

Automated Standard Application for Payments

ASAP is a system through which national non-profit organizations receiving Federal funds can draw payments preauthorized by the Coast Guard through the U.S. Treasury. ASAP.gov is an Internet payment and information system developed jointly by the Financial Management Services (FMS) and the Federal Reserve Bank of Richmond.

Grantees will request all payments through ASAP. Once a payment request has been made, the Non-Profit Organization Grant Coordinator will review the request and approve it based on the following terms:

- Quarterly Financial Reports (SF-425) are submitted on a timely basis and up to date.
- There are no outstanding programmatic issues.

For additional information, refer to the following sites:

www.asap.gov

www.fms.treas.gov/asap/

www.fms.treas.gov/asap/background.html

In accordance with the above, recipients are requested to keep a record of all transactions for the project in an accounting system that is agreed upon by both parties and one that will withstand an external audit. All contracts shall be in accordance with government standards, and records of bids and proposals shall be kept for audit purposes.

PLEASE NOTE: Recipients shall maintain advances of Federal funds in interest-bearing accounts, unless the conditions listed below apply: (1) The recipient receives less than \$120,000 in Federal awards per year, (2) The best reasonably available interest-bearing account would not be expected to earn interest in excess of \$250 per year on Federal cash balances, or (3) The depository would require an average or minimum balance so high that it would not be feasible within the expected Federal and non-Federal cash resources.

For those entities where the Cash Management Improvement Act (CMIA) (Public Law 101-453) and its implementing regulations do not apply, interest earned on Federal advances deposited in interest-bearing accounts shall be remitted annually to Department of Health and Human Services, Payment Management System, P. O. Box 6021, Rockville, MD 20852 with a copy of said payment letter provided to the Coast Guard. Interest amounts up to \$250 per year may be

retained by the recipient for administrative expenses. See 49 CFR Part 19 Section 19.22 (k&l).

PLANNING AND PROGRESS REPORTING

After the grant award, and to allow for sufficient time for review of each project, recipients are to submit a work plan delineating:

1. When the various tasks are projected to be completed.
2. When reviews should be conducted. If the grant is for the design, development, production, final edit, duplication and distribution of a program or publication, a review or series of reviews is required prior to production and prior to final edit. These reviews will be conducted by the Coast Guard. A minimum of two weeks should be scheduled for each review.
3. All products should be field-tested to assure quality products.
4. When progress reports may be expected. It is suggested that a concise progress report shall be submitted each quarter outlining the tasks completed and the tasks remaining. The progress reports should convey to the Coast Guard the status of the project and any changes to the schedule outlined in the plan. (Depending on the scope of the change, an amendment to the grant and/or cooperative agreement may be initiated.)
5. When on-site inspection or review is required. In some cases it may be considered appropriate or necessary to have a Coast Guard Subject Matter Expert on scene to observe a test or filming, for example, or to meet with the project team. This should be noted in the plan submitted so the Coast Guard Grant Technical Manager may plan travel.

THE FINAL PRODUCT

The final product of the grant shall:

1. Incorporate all technical changes directed by the review process of the Coast Guard Grant Technical Manager.
2. If applicable, contain final edits of media, artwork and film that adhere to the Coast Guard Guidelines for Media (available from the Coast Guard Grant Technical Manager).
3. Have an appropriate statement indicating that the project was done under a Coast Guard Grant (see Programmatic Terms and Conditions #4 in Appendix B). Credits may include other organizations but may not be used as a recruiting or advertising mechanism.
4. Include an **executive summary** of the work done to complete the project (i.e., a summary of the literature search, review of past projects, design methodology, and development process). This executive summary should be no more than two pages in length.

5. Include an **abstract** that describes the grant product or products and intended uses that would be suitable for publication in a magazine or newsletter that could serve as an announcement of the completion of the grant project.
6. Include web site links, **master copies or originals** of any printed, film, video or other media materials in a compatible Coast Guard format. This will allow the Coast Guard to have on file materials from which copies or segments can be taken to address other audiences or a specific need.

AUDITS

Grantee organizations receiving grant funds must comply with the Federal audit requirements contained in OMB Circular A-133, "Audits of States, Local Governments, and Non-Profit Organizations."

Compliance depends on the size of the grant award.

1. Recipients receiving less than \$25,000 a year from any Federal source are exempt from any Federal audit requirements, but records must be kept for review by the Coast Guard grant project manager.
2. Recipients receiving \$25,000 to \$500,000 a year from any Federal source will be responsible for having a project review completed for each Coast Guard grant project. The Coast Guard GTM shall perform the project review.
3. Recipients **expending** \$500,000 or more a year from any Federal source will have an audit conducted of all its annual activities, with the specific grant projects identified. A prorated cost of the audit covering that part dealing with Coast Guard grant projects can be paid for with applicable grant funds, but only if the project narrative includes the cost of the audits as part of the grant application proposal.

In certain instances, a grantee can request waiver of these provisions. Waivers are rare, and will be considered only if:

1. the organization receives vendor-type grant awards;
2. less than 1% of the organization's revenues are derived from Federal sources; and;
3. the organization has adequate internal controls, including provisions for an internal annual audit by an independent commercial auditor.

The waiver request will be forwarded to the Coast Guard for review and approval. Please raise any questions regarding audit requirements prior to applying for funding.

IX. Application Instructions

An electronic notification under [Grants.gov](http://www.grants.gov) is the official public notification of availability of grant funds. The Coast Guard is not legally committed to expend all funds. However, it has been the policy to award all funds if there are sufficient applications that merit funding. To access the application package, go to <http://www.grants.gov>, select "Find Grant Opportunity," and then select "Basic Search." Enter CFDA and/or the Funding Opportunity Number located on the cover of this announcement. Select "Download Application Package," and then follow the prompts to download the application package. To download the instructions, go to "Download Application Package" and select "Instructions."

The criteria for eligibility must be met, all the required forms and certifications must be appended to the application, and the completed proposal must be signed and dated in order for an application to be considered for funding. Please note certification forms to be signed are found as mandatory documents to be submitted in the Grants.gov application package.

Applications received after the **January 25, 2013** deadline will **NOT** be considered for funding. Application packages that are not properly completed may not be accepted. Please note that one completed application must be submitted in order to be considered for funding. The checklist must be completed and attached to your grant application package (see Appendix A). The funding for each grant awarded under this application package must be expended by project end date (extensions may be granted on a case-by-case basis and may require a detailed timeline outlining justification for an extension). When submitting via Grants.gov, we recommend all attached documents be submitted in one PDF file. If you experience difficulties accessing information or have any questions please call the Grants.gov customer support hotline at (800) 518-4726.

PROJECT NARRATIVE

The project narrative should be described in sufficient detail to ensure the project can be weighed against other proposals. It should include, at a minimum, the following:

that its benefits will be effectively extended nationwide, extending beyond a state or region.

Identify results and benefits to be derived. Please also identify how the project will clearly demonstrate the linkages to reduce deaths, injuries or damage and environmental impact of recreational boating on a national basis. Also describe the methods the organization will use to monitor the progress of the program and what measures of accountability will be used to evaluate the project results. For more information please see the National RBS Strategic Plan (http://www.uscgboating.org/assets/1/workflow_staging/News/489.PDF).

6. Resumes of the principal participants in the proposed project(s) (short one-paragraph bios are not acceptable).
7. A statement that the project proposal does not contain proprietary information or a statement identifying the information that is considered proprietary. Note any special considerations that are relevant to the project, i.e. special permission requirements or clearances, and certifications. Special concerns should be identified, i.e. special treatment of proprietary or privileged information in the application, individual privacy matters, etc.
8. The name of any government agency that now audits the organization on a regular basis and date of last audit.

Organizations that have previously established indirect cost rates must submit a new indirect cost proposal to the cognizant agency within six months after the close of each fiscal year. During the Indirect Cost Rate review period, the Coast Guard may withhold the indirect cost rate portion of the grant until an agreement is finalized.
