SECTION A
DEAR APPLICANT LETTER

January 31, 2012

Dear Applicant:

The Secretary invites applications for a new award in fiscal year (FY) 2012 under the Disability Rehabilitation Research Projects, SCIMS Multi-Site Collaborative Research Projects (CFDA Number - 84.133A-15). NIDRR is seeking applications that address all elements of the priority and that propose appropriate, high-quality research methodologies. It is critical that proposals describe expected public benefits, especially benefits for individuals with disabilities, and propose projects that are designed to demonstrate outcomes that are consistent with the proposed goals.

The purpose of the DRRP program is to plan and conduct research, demonstration projects, training, and related activities to develop methods, procedures, and rehabilitation technology that maximize the full inclusion and integration into society, employment, independent living, family support, and economic and social self-sufficiency of individuals with disabilities, especially individuals with the most severe disabilities, and to improve the effectiveness of services authorized under the Rehabilitation Act of 1973, as amended.

The start date for new awards for NIDRR's FY 2012 programs will be no later than October 1, 2012.

Please note the following:

- **ELIGIBLE APPLICANTS:** All SCI Model Systems grantees awarded under the FY 2011 SCIMS Centers competition.
- **PURPOSE:** According to the Notice of Final Priority published in the Federal Register on June 9, 2011 (pages 33740-33744), each SCIMS multi-site collaborative research project must be designed to contribute to evidence-based rehabilitation interventions and clinical practice guidelines that improve the lives of individuals with spinal cord injury (SCI) through research, including the testing of approaches to treating SCI or the assessment of the outcomes of individuals with SCI.
- **MAXIMUM AWARD:** \$900,000 per year.
- **NUMBER OF AWARDS:** One
- **PROJECT PERIOD:** Should not exceed 60 months.
- **FUNDING OPPORTUNITY NUMBER:** ED-GRANTS-013112-002

SCIMS multi-site collaborative research project must be a collaboration between the lead applicant Center, and three or more of the NIDRR-funded SCIMS centers (for a minimum of four SCIMS sites). Applicants may also propose to include as part of their multi-site collaborative research project other SCI research sites that are not participating in the NIDRR-funded SCIMS program.

- **CLOSING DATE (DEADLINE FOR APPLICATIONS):** April 2, 2012

APPLICATION PROCEDURES

This application package contains information and the required forms for potential applicants to apply and be considered for a FY 2012 grant award under this competition, including the published Federal Register notice dated June 9, 2011. The background statement from the Notice of Proposed Priorities is in Section D.

Potential applicants are advised to read the materials in this application package carefully. Please pay particular attention to the information contained in the Notice Inviting Applications on the eligible applicants and the dollar amount available for this competition, Section F – the Selection Criteria; Section G – Protection of Human Subjects; and Section H – Application Format and Instructions. Applications must be responsive to the absolute priority in Section C and the statutory, regulatory, and general requirements for the DRRP program in Section E. We recommend that you write your application narrative in the order of the selection criteria in Section F. The selection criteria will be used by the reviewers to evaluate your application.

Include a one-page abstract. The abstract is a critical component of the proposal, and it should describe the purpose, target population to be served during the project period, planned goals and objectives, proposed methodological approach, and anticipated project outcomes.

Award Amounts, Required Cost Share and Indirect Cost Rate

We will reject any application that proposes a budget exceeding the amount of \$900,000 in any given year. A minimum cost sharing of up to 1% is required and can be negotiated at the time of the grant award if not included in the application. Cost share can be a reduced indirect cost rate, donated FTE, donated space, and/or donated equipment. The indirect cost rate is your institution's federally negotiated rate.

APPLICATION SUBMISSION PROCEDURES

You **must** submit your application electronically using the Grants.gov Apply site. See Section B, Notice Inviting Applications and Section J, Application Transmittal Instructions.

NOTE: You will be uploading sections of your application by heading. There is a heading for: (1) Application for Federal Assistance (SF 424); (2) Table of Contents; (3) Abstract; (4) ED Budget Information Non-Construction Programs (ED-524); (5) Budget Narrative; (6) Project Narrative; (7) General Education Provisions Act (GEPA) Requirements – Section 427; (8) GG Lobbying Form (90-0013); (9) Faith Based Survey on EEO; (10) ED Supplemental Form for SF 424; (11) SF LLL Disclosure of Lobbying; and (12) Vitae/Bibliography/Letters of Support. There is a file size limitation to each section, and you may upload only one document under each heading. Therefore, in order to make sure that all of your materials are uploaded successfully, you will need to combine multiple original documents for a heading (e.g., letters, resumes) into a single document before uploading.

Electronic copies must be fully uploaded on the Grants.gov site by 4:30:00 pm, Washington DC time on the closing date, **April 2, 2012**. This process may take several hours. Therefore, please allow several hours or a full day to submit your application. If there is a submission error, additional time will be needed to correct the error and resubmit. **We encourage you to read Section J – Grants.gov Submission Procedures and Tips for Applicants**

Full Text of Announcement

I. Funding Opportunity Description

Purpose of Programs: The competitions announced in this notice are conducted under two separate programs: the Special Projects and Demonstrations for Spinal Cord Injury Program (the SCIMS Centers program--84.133N-1 competition) and the Disability and Rehabilitation Research Projects (DRRPs) program (the SCIMS Multi-Site Collaborative Research Projects--84.133A-15 competition).

Special Projects and Demonstrations for Spinal Cord Injuries Program

The SCIMS centers program is funded through the Special Projects and Demonstrations for Spinal Cord Injuries Program. This program provides assistance for projects that provide comprehensive rehabilitation services to individuals with spinal cord injuries and conducts

spinal cord research, as specified in 34 CFR 359.10 and 359.11.

DRRP Program

The SCIMS Multi-Site Collaborative Research Projects are funded under the DRRP program. DRRPs are designed to improve the effectiveness of services authorized under the Rehabilitation Act of 1973, as amended (Rehabilitation Act) by developing methods, procedures, and rehabilitation technologies that advance a wide range of independent living and employment outcomes for individuals with disabilities, especially individuals with the most severe disabilities. DRRPs carry out one or more of the following types of activities, as specified and defined in 34 CFR 350.13 through 350.19: research, training, demonstration, development, dissemination, utilization, and technical assistance. An applicant for assistance under this program must demonstrate in its application how it will address, in whole or in part, the needs of individuals with disabilities from minority backgrounds (34 CFR 350.40(a)). The approaches an applicant may take to meet this requirement are found in 34 CFR 350.40(b). Additional information on the DRRP program can be found at: www.ed.gov/rschstat/research/pubs/res-program.html#DRRP.

Priorities: This notice includes three priorities, which correspond to the two competitions announced in this notice as follows:

Competition	Priority or Priorities
CFDA No. 84.133N-1	Spinal Cord Injury Model Systems (SCIMS) Centers
CFDA No. 84.133A-15	<u>Spinal Cord Injury Model Systems (SCIMS) Multi-Site Collaborative Research Projects</u> <u>General Disability and Rehabilitation Research Projects (DRRP) Requirements</u> priority

The SCIMS Centers and SCIMS Multi-Site Collaborative Research Projects priorities are from the notice of final priorities and selection criterion published elsewhere in this issue of the Federal Register. The General DRRP Requirements priority is from the notice of final priorities published in the Federal Register on April 28, 2006 (71 FR 25472).

Absolute Priority: For FY 2011 and any subsequent year in which we make awards from the list of unfunded applicants, these priorities are absolute priorities. Under 34 CFR 75.105(c)(3), for each competition, we consider only applications that meet the applicable priority or priorities for that competition.

These priorities are:

1. Spinal Cord Injury Model Systems (SCIMS) Centers.
2. Spinal Cord Injury Model Systems (SCIMS) Multi-Site Collaborative Research Projects.
3. General Disability and Rehabilitation Research Projects (DRRP) Requirements priority.

Note: The full text of these priorities are included in the pertinent notices of final priority or priorities published in the Federal Register and in the application package for this program.

Program Authority: 29 U.S.C. 760 and 764(a) and 764(b) (4).

Applicable Regulations: (a) The Education Department General Administrative Regulations (EDGAR) in 34 CFR parts 74, 75, 77, 80, 81, 82, 84, 85, 86, and 97. (b) The regulations for this program in 34 CFR parts 350 and 359. (c) The notice of final priorities published in the Federal Register on April 28, 2006 (71 FR 25472). (d) The notice of final priorities and selection criterion for the SCIMS program and the DRRP program, published elsewhere in this issue of the Federal Register.

Note: The regulations in 34 CFR part 86 apply to institutions of higher education only.

Deadline for Transmittal of Applications: See chart.

Applications for grants under each of the competitions announced in this notice must be submitted electronically using the Grants.gov Apply site (Grants.gov). For information (including dates and times) about how to submit your application electronically, or in paper format by mail or hand delivery if you qualify for an exception to the electronic submission requirement, please refer to section IV. 7. Other Submission Requirements of this notice.

We do not consider an application that does not comply with the deadline requirements.

Individuals with disabilities who need an accommodation or auxiliary aid in connection with the application process should contact the person listed under For Further Information Contact in section VII of this notice. If the Department provides an accommodation or auxiliary aid to an individual with a disability in connection with the application process, the individual's application remains subject to all other requirements and limitations in this notice.

4. Intergovernmental Review: These programs are not subject to Executive Order 12372 and the regulations in 34 CFR part 79.

5. Funding Restrictions: We reference regulations outlining funding restrictions in the Applicable Regulations section in this notice.

6. Data Universal Numbering System Number, Taxpayer Identification Number, and Central Contractor Registry: To do business with the Department of Education, you must--

- a. Have a Data Universal Numbering System (DUNS) number and a Taxpayer Identification Number (TIN);
- b. Register both your DUNS number and TIN with the Central Contractor Registry (CCR), the Government's primary registrant database;
- c. Provide your DUNS number and TIN on your application; and
- d. Maintain an active CCR registration with current information while your application is under review by the Department and, if you are awarded a grant, during the project period.

You can obtain a DUNS number from Dun and Bradstreet. A DUNS number can be created within one business day.

If you are a corporate entity, agency, institution, or organization, you can obtain a TIN from the Internal Revenue Service. If you are an individual, you can obtain a TIN from the Internal Revenue Service or the Social Security Administration. If you need a new TIN, please allow 2-5 weeks for your TIN to become active.

The CCR registration process may take five or more business days to complete. If you are currently registered with the CCR, you may not need to make any changes. However, please make certain that the TIN associated with your DUNS number is correct. Also note that you will need to update your CCR registration on an annual basis. This may take three or more business days to complete.

In addition, if you are submitting your application via Grants.gov, you must (1) be designated by your organization as an Authorized Organization Representative (AOR); and (2) register yourself with Grants.gov as an AOR. Details on these steps are outlined in the Grants.gov 3-Step Registration Guide (see www.grants.gov/section910/Grants.govRegistrationBrochure.pdf).

7. Other Submission Requirements. Applications for grants under these competitions must be submitted electronically unless you qualify for an exception to this requirement in accordance with the instructions in this section.

a. Electronic Submission of Applications.

Applications for grants under the Spinal Cord Injury Model Systems (SCIMS) Centers and SCIMS Multi-Site Collaborative Research Projects, CFDA number 84.133N-1 and 84.133A-15, must be submitted electronically using the Government-wide Grants.gov Apply site at www.Grants.gov. Through this site, you will be able to download a copy of the application package, complete it offline, and then upload and submit your application. You may not e-mail an electronic copy of a grant application to us.

We will reject your application if you submit it in paper format unless, as described elsewhere in this section, you qualify for one of the exceptions to the electronic submission requirement and submit, no later than two weeks before the application deadline date, a written statement to the Department that you qualify for one of these exceptions. Further information regarding calculation of the date that is two weeks before the application deadline date is provided later in this section under Exception to Electronic Submission Requirement.

You may access the electronic grant application for Spinal Cord Injury Model Systems (SCIMS) Centers and SCIMS Multi-Site Collaborative Research Projects at www.Grants.gov. You must search for the downloadable application package for these competitions by the CFDA number. Do not include the CFDA number's alpha suffix in your search (e.g., search for 84.133, not 84.133N).

Please note the following:

- When you enter the Grants.gov site, you will find information about submitting an application electronically through the site, as well as the hours of operation.

- Applications received by Grants.gov are date and time stamped. Your application must be fully uploaded and submitted and must be date and time stamped by the Grants.gov system no later than 4:30:00 p.m., Washington, DC time, on the application deadline date. Except as otherwise noted in this section, we will not accept your application if it is received--that is, date and time stamped by the Grants.gov system--after 4:30:00 p.m., Washington, DC time, on the application deadline date. We do not consider an application that does not comply with the deadline requirements. When we retrieve your application from Grants.gov, we will notify you if we are rejecting your application because it was date and time stamped by the Grants.gov system after 4:30:00 p.m., Washington, DC time, on the application deadline date.

- The amount of time it can take to upload an application will vary depending on a variety of factors, including the size of the application and the speed of your Internet connection. Therefore, we strongly recommend that you do not wait until the application deadline date to begin the submission process through Grants.gov.

- You should review and follow the Education Submission Procedures for submitting an application through Grants.gov that are included in the application package for this competition to ensure that you submit your application in a timely manner to the Grants.gov system. You can also find the Education Submission Procedures pertaining to Grants.gov under News and Events on the Department's G5 system home page at <http://www.G5.gov>.

- You will not receive additional point value because you submit your application in electronic format, nor will we penalize you if you qualify for an exception to the electronic submission requirement, as described elsewhere in this section, and submit your application in paper format.

- You must submit all documents electronically, including all information you typically provide on the following forms: the Application for Federal Assistance (SF 424), the Department of Education Supplemental Information for SF 424, Budget Information–Non-Construction Programs (ED 524), and all necessary assurances and certifications.

- You must upload any narrative sections and all other attachments to your application as files in a .PDF (Portable Document) format only. If you upload a file type other than a .PDF or submit a password-protected file, we will not review that material.

- Your electronic application must comply with any page-limit requirements described in this notice.

- After you electronically submit your application, you will receive from Grants.gov an automatic notification of receipt that contains a Grants.gov tracking number. (This notification indicates receipt by Grants.gov only, not receipt by the Department.) The Department then will retrieve your application from Grants.gov and send a second notification to you by e-mail. This second notification indicates that the Department has received your application and has assigned your application a PR/Award number (an ED-specified identifying number unique to your application).

- We may request that you provide us original signatures on forms at a later date.

Application Deadline Date Extension in Case of Technical Issues with the

Grants.gov System: If you are experiencing problems submitting your application through Grants.gov, please contact the Grants.gov Support Desk, toll free, at 1-800-518-4726. You must obtain a Grants.gov Support Desk Case Number and must keep a record of it.

If you are prevented from electronically submitting your application on the application deadline date because of technical problems with the Grants.gov system, we will grant you an extension until 4:30:00 p.m., Washington, DC time, the following business day to enable you to transmit your application electronically or by hand delivery. You also may mail your application by following the mailing instructions described elsewhere in this notice.

If you submit an application after 4:30:00 p.m., Washington, DC time, on the application deadline date, please contact the person listed under For Further Information Contact in section VII of this notice and provide an explanation of the technical problem you experienced with Grants.gov, along with the Grants.gov Support Desk Case Number. We will accept your application if we can confirm that a technical problem occurred with the Grants.gov system and that that problem affected your ability to submit your application by 4:30:00 p.m., Washington, DC time, on the application deadline date. The Department will contact you after a determination is made on whether your application will be accepted.

Note: The extensions to which we refer in this section apply only to the unavailability of, or technical problems with, the Grants.gov system. We will not grant you an extension if you failed to fully register to submit your

application to Grants.gov before the application deadline date and time or if the technical problem you experienced is unrelated to the Grants.gov system.

Exception to Electronic Submission Requirement: You qualify for an exception to the electronic submission requirement, and may submit your application in paper format, if you are unable to submit an application through the Grants.gov system because--

- You do not have access to the Internet; or
- You do not have the capacity to upload large documents to the

Grants.gov system;

and

- No later than two weeks before the application deadline date (14 calendar days or, if the fourteenth calendar day before the application deadline date falls on a Federal holiday, the next business day following the Federal holiday), you mail or fax a written statement to the Department, explaining which of the two grounds for an exception prevent you from using the Internet to submit your application.

If you mail your written statement to the Department, it must be postmarked no later than two weeks before the application deadline date. If you fax your written statement to the Department, we must receive the faxed statement no later than two weeks before the application deadline date.

Address and mail or fax your statement to: Lynn Medley, U.S. Department of Education, 400 Maryland Avenue, SW., room 5140, PCP, Washington, DC 20202-2700. FAX: (202) 245-7323.

Your paper application must be submitted in accordance with the mail or hand delivery instructions described in this notice.

b. Submission of Paper Applications by Mail.

You must mail the original and two copies of your application, on or before the application deadline date, to the Department at the following address:

V. Application Review Information

1. Selection Criteria: The selection criteria for the SCIMS Centers competition are from 34 CFR 359.31, and are listed in the application package. The selection criteria for the SCIMS Multi-Site Collaborative Research Projects are from 34 CFR 75.210 of EDGAR, 34 CFR 350.54, and the criterion

established in the NFP; these selection criteria will be listed in the application package for the SCIMS Multi-Site Collaborative Research Projects competition.

The Secretary is interested in hypothesis-driven research and development projects. To address this interest it is expected that applicants will articulate goals, objectives, and expected outcomes for the proposed research and development activities. It is critical that proposals describe expected public benefits, especially benefits for individuals with disabilities, and propose projects that are optimally designed to demonstrate outcomes that are consistent with the proposed goals. Applicants are encouraged to include information describing how they will measure outcomes, including the indicators that will represent the end-result, the mechanisms that will be used to evaluate outcomes associated with specific problems or issues, and how the proposed activities will support new intervention approaches and strategies, including a discussion of measures of effectiveness.

Submission of this information is voluntary except where required by the selection criteria listed in the application package.

2. Review and Selection Process: We remind potential applicants that in reviewing applications in any discretionary grant competition, the Secretary may consider, under 34 CFR 75.217(d)(3), the past performance of the applicant in carrying out a previous award, such as the applicant's use of funds, achievement of project objectives, and compliance with grant conditions. The Secretary may also consider whether the applicant failed to submit a timely performance report or submitted a report of unacceptable quality.

In addition, in making a competitive grant award, the Secretary also requires various assurances including those applicable to Federal civil rights

laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department of Education (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).

3. Special Conditions: Under 34 CFR 74.14 and 80.12, the Secretary may impose special conditions on a grant if the applicant or grantee is not financially stable; has a history of unsatisfactory performance; has a financial or other management system that does not meet the standards in 34 CFR parts 74 or 80, as applicable; has not fulfilled the conditions of a prior grant; or is otherwise not responsible.

VI. Award Administration Information

1. Award Notices: If your application is successful, we notify your U.S. Representative and U.S. Senators and send you a Grant Award Notification (GAN). We may notify you informally, also.

If your application is not evaluated or not selected for funding, we notify you.

2. Administrative and National Policy Requirements: We identify administrative and national policy requirements in the application package and reference these and other requirements in the Applicable Regulations section of this notice.

We reference the regulations outlining the terms and conditions of an award in the Applicable Regulations section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. Reporting: (a) If you apply for a grant under this competition, you must ensure that you have in place the necessary processes and systems to comply with the reporting requirements in 2 CFR part 170 should you receive

funding under the competition. This does not apply if you have an exception under 2 CFR 170.110(b).

(b) At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to www.ed.gov/fund/grant/apply/appforms/appforms.html.

4. Performance Measures: To evaluate the overall success of its research program, NIDRR assesses the quality of its funded projects through a review of grantee performance and products. Each year, NIDRR examines a portion of its grantees to determine:

- The number of accomplishments (e.g., new or improved tools, methods, discoveries, standards, interventions, programs, or devices) developed or tested with NIDRR funding that have been judged by expert panels to be of high quality and to advance the field.
- The average number of publications per award based on NIDRR-funded research and development activities in refereed journals.
- The percentage of new NIDRR grants that assess the effectiveness of interventions, programs, and devices using rigorous methods.

NIDRR uses information submitted by grantees as part of their Annual Performance Reports (APRs) for these reviews.

Department of Education program performance reports, which include information on NIDRR programs, are available on the Department's Web site: www.ed.gov/about/offices/list/oeped/sas/index.html.

5. Continuation Awards: In making a continuation award, the Secretary may consider, under 34 CFR 75.253, the extent to which a grantee has made "substantial progress toward meeting the objectives in its approved application." This consideration includes the review of a grantee's progress in meeting the targets and projected outcomes in its approved application, and whether the grantee has expended funds in a manner that is consistent with its approved application and budget. In making a continuation grant, the Secretary also considers whether the grantee is operating in compliance with the assurances in its approved application, including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).

NOTICE OF FINAL PRIORITY

Published: June 9, 2011

4000-01-U

DEPARTMENT OF EDUCATION

[CFDA Numbers: 84.133N-1 and 84.133A-15]

Final Priorities and Selection Criterion; National Institute on Disability and Rehabilitation Research (NIDRR)--Spinal Cord Injury Model Systems (SCIMS) Centers and SCIMS Multi-Site Collaborative Research Projects

AGENCY: Office of Special Education and Rehabilitative Services, Department of Education.

ACTION: Notice of final priorities and selection criterion.

SUMMARY: The Assistant Secretary for Special Education and Rehabilitative Services announces (1) a priority under the Special Projects and Demonstrations for Spinal Cord Injuries Program for SCIMS Centers (priority 1), and (2) a priority and selection criterion for Disability and Rehabilitation Research Projects (DRRPs) that will serve as the SCIMS Multi-Site Collaborative Research Projects (priority 2). The Assistant Secretary may use one or more of these priorities and selection criterion for competitions in fiscal year (FY) 2011 and later years. We take this action to focus attention on areas of national need.

EFFECTIVE DATE: These priorities and selection criterion are effective [INSERT DATE 30 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER].

FOR FURTHER INFORMATION CONTACT: Lynn Medley, U.S. Department of Education, 400 Maryland Avenue, SW., room 5140, Potomac Center Plaza (PCP), Washington, DC 20202-2700. Telephone: (202) 245-7338 or by e-mail: lynn.medley@ed.gov.

If you use a telecommunications device for the deaf (TDD), call the Federal Relay Service, toll free, at 1-800-877-8339.

SUPPLEMENTARY INFORMATION:

This notice of final priorities and selection criterion (NFP) is in concert with NIDRR's currently approved Long-Range Plan (Plan). The Plan, which was published in the Federal Register on February 15, 2006 (71 FR 8165), can be accessed on the Internet at the following site:
www.ed.gov/about/offices/list/osers/nidrr/policy.html.

Through the implementation of the Plan, NIDRR seeks to: (1) improve the quality and utility of disability and rehabilitation research; (2) foster an exchange of expertise, information, and training to facilitate the advancement of knowledge and understanding of the unique needs of traditionally underserved populations; (3) determine the best strategies and programs to improve rehabilitation outcomes for underserved populations; (4) identify research gaps; (5) identify mechanisms of integrating research and practice; and (6) disseminate findings.

This notice proposes priorities and a selection criterion that NIDRR intends to use for competitions in FY 2011 and possibly later years. However, nothing precludes NIDRR from publishing additional priorities if needed. Furthermore, NIDRR is under no obligation to make an award using either of the priorities or the selection criterion. The decision to make an award will be based on the quality of applications received and available funding.

Purpose of Programs: The SCIMS centers are funded through the Special Projects and Demonstrations for SCI Program and the SCIMS Multi-Site Collaborative Research Projects are funded as DRRPs.

Special Projects and Demonstrations for Spinal Cord Injuries Program

The SCIMS centers program is funded through the Special Projects and Demonstrations for Spinal Cord Injuries Program. This program provides assistance for projects that provide comprehensive rehabilitation services to

individuals with spinal cord injuries, and conducts spinal cord research, as specified in 34 CFR 359.10 and 359.11.

Disability and Rehabilitation Research Projects (DRRPs) Program

The SCIMS Multi-Site Collaborative Research Projects are funded as DRRPs. DRRPs are designed to improve the effectiveness of services authorized under the Rehabilitation Act by developing methods, procedures, and rehabilitation technologies that advance a wide range of independent living and employment outcomes for individuals with disabilities, especially individuals with the most severe disabilities. DRRPs carry out one or more of the following types of activities, as specified and defined in 34 CFR 350.13 through 350.19: research, training, demonstration, development, dissemination, utilization, and technical assistance.

Program Authority: 29 U.S.C. 760 and 764(a) and 764(b)(4).

Applicable Program Regulations: 34 CFR parts 350 and 359.

We published a notice of proposed priorities and selection criterion (NPP) for NIDRR's Disability and Rehabilitation Research Projects and Centers Program in the Federal Register on March 22, 2011 (76 FR 15961). That notice contained background information and our reasons for proposing the SCIMS Center priority and the SCIMS Multi-Site Collaborative Research Projects priority and selection criterion.

Public Comment: In response to our invitation in the NPP, nine parties submitted comments on the proposed priorities and selection criterion.

Generally, we do not address technical and other minor changes. In addition, we do not address general comments that raised concerns not directly related to the proposed priorities and selection criterion.

Analysis of Comments and Changes: An analysis of the comments and of any

changes in the priorities and selection criterion since publication of the notice NPP follows. We discuss substantive issues under the priorities or selection criterion to which they pertain.

General

Comment: One commenter noted that the proposed priorities focus on acquired spinal cord injuries, and not on developmental disabilities or other conditions that affect the spinal cord. This commenter recommended that the priorities be expanded to include any conditions that affect the spinal cord and subsequent human physical activity and movement.

Discussion: We are establishing the SCIMS Centers priority under section 204(b)(4) of the Rehabilitation Act, the statutory authority for the Special Projects and Demonstrations for Spinal Cord Injuries program. Section 204(b)(4) of the Rehabilitation Act and 34 CFR part 359, the implementing regulations for this program, clearly specify a focus on spinal cord injury, and on services provided to individuals following a spinal cord injury. We are funding the SCIMS Centers priority under this statutory authority to build upon the specialized research capacity that NIDRR has established under the SCIMS program. NIDRR developed the SCIMS Collaborative Research Projects priority to capitalize on this specialized research capacity. Therefore, both of the priorities announced in this notice focus on spinal cord injuries, and not other conditions that affect the spinal cord and subsequent physical activity and movement, as suggested by the commenter.

Changes: None.

Spinal Cord Injury Model Systems (SCIMS) Centers funded under the Special Projects and Demonstrations for Spinal Cord Injuries

Comment: Six commenters asked whether applicants under the SCIMS Centers

priority would be required to propose a module project in their proposals. Four of these commenters asked for clarification on the mechanism that will be used to develop and decide upon module projects.

Discussion: Applicants are not required to propose a specific collaborative module project that they will implement in their proposals. Collaborative research projects cannot be developed in a thoughtful manner without knowledge of the capacity, interests, and expertise of the participating collaborators. For this reason, the priority does not require the SCIMS Centers to develop a collaborative module project. Rather, each SCIMS Center is required to participate in at least one collaborative module. Accordingly, applicants must demonstrate their capacity to successfully engage in multi-site collaborative research. This capacity includes access to research participants, the ability to maintain data quality, and the ability to adhere to research protocols.

Following the announcement of new awards under this priority, SCIMS Centers that are interested in developing module projects may identify module topics, identify potential collaborators from among the other new SCIMS Centers, and develop research protocols for the potential modules. At the first SCIMS Project Directors' meeting, Project Directors will review, discuss, and decide upon specific module projects to implement. NIDRR staff will facilitate this post-award discussion and selection of module topics for implementation among new SCIMS Center grantees. Once these module projects are agreed upon by the Project Directors, each SCIMS Center will be required to participate in at least one of the module projects.

Changes: NIDRR has modified the note under paragraph (d) of this priority to clearly indicate that applicants should not propose a specific module project

in their application, and to clarify the mechanism that will be used to develop and decide upon the module projects in which the SCIMS Center grantees will participate.

Comment: Two commenters asked how NIDRR would assess applicants' capacity to participate in multi-site collaborative research.

Discussion: Because the SCIMS Centers will be funded under the Special Projects and Demonstrations for Spinal Cord Injuries program, the regulations in 34 CFR 359 apply. Under those regulations, peer reviewers will use selection criteria in 34 CFR 359.31 to evaluate the quality of applications under this program, including applicants' descriptions of their capacity to engage in collaborative research. Specifically, the peer review criteria under CFR 359.31(c) and (e) are directly applicable to the evaluation of applicants' capacity to engage in multi-site collaborative research.

Changes: None.

Comment: One commenter asked how NIDRR would assess applicants' capacity to enroll at least 30 participants per year in the database.

Discussion: Under the applicable program regulations for the Special Projects and Demonstrations for Spinal Cord Injuries program in 34 CFR 359, peer reviewers will use selection criteria under 34 CFR 359.31 to evaluate the quality of applications under this program, including proposed plans to recruit at least 30 participants per year into the SCIMS database. We expect applicants to describe their capacity to meet this minimum requirement in their applications so that peer reviews can assess this capacity under 34 CFR 359.31. In addition, we note NIDRR will continue to closely monitor the capacity of its funded SCIMS Centers to enroll the minimum number of participants into the SCIMS database each year of the project period.

Changes: None.

Comment: One commenter asked whether NIDRR intended to require applicants to budget "at least 15 percent" of its budget to participate in module projects, or if NIDRR intended to require applicants to budget "no more than 15 percent" for this activity.

Discussion: NIDRR intends paragraph (d)(2) of this priority to require that SCIMS Centers propose to spend at least 15 percent of their annual budget on module participation.

Changes: None.

Comment: One commenter asked how applicants should describe their module participation in their proposed budgets.

Discussion: In order to meet paragraph (d) of the priority, a grantee must participate as a research collaborator in at least one module project. As discussed earlier in this Analysis of Comments and Changes section, we do not expect applicants to propose or describe a module project. Rather, we require applicants to propose to spend at least 15 percent of their annual budget on participating in a module project. Accordingly, the only information regarding participation in the module project that is needed in the application is a single line item for module participation that is at least 15 percent of the overall budget. No additional information is required.

Changes: None.

Comment: One commenter noted that the requirements under paragraph (c) of the priority are overly restrictive, in that they require projects to test both innovative approaches to treating SCI and innovative approaches to assessing outcomes. This commenter stated that it would be more reasonable to require projects to test either innovative approaches to treating SCI or innovative

approaches to assessing outcomes. This commenter also suggested that NIDRR broaden the types of possible research that can be proposed under this priority to include research that uses advanced methods to collect other information of clinical and/or scientific value that is of relevance to SCI.

Discussion: NIDRR agrees that the language in proposed paragraph (c) of the priority is overly restrictive and is changing the priority to require that applicants propose research to test innovative SCI treatments, or research to test innovative approaches to assessing outcomes of spinal cord injury.

In response to the second point raised by the commenter, NIDRR would like to maintain focus on the testing of interventions or the development of new outcomes measures and assessments. Through sustained funding of its SCIMS program, NIDRR has created a mature research infrastructure that will support the testing of interventions. NIDRR's emphasis on the testing of interventions and the development of measures to support that testing is intended to build upon this infrastructure to improve the outcomes of individuals with spinal cord injury. For this reason, we decline to revise this requirement to broaden the types of research that can be supported under this priority.

Changes: NIDRR has made minor modifications to paragraph (c) of the priority to clarify that applicants can propose research to test innovative SCI treatments, or research to test innovative approaches to assessing outcomes of spinal cord injury.

Comment: None.

Discussion: Paragraph (c) of this priority states that each SCIMS Center must propose and conduct at least one, but no more than two, site-specific research projects. We intend this language to prohibit applicants from proposing and

conducting more than two site-specific research projects. To avoid any confusion on this point, we believe it would be helpful to applicants to add language clearly stating that applicants who propose more than two site-specific research projects will be disqualified.

Changes: NIDRR has revised paragraph (c) of this priority by adding a sentence stating that applicants who propose more than two site-specific research projects will be disqualified.

SCIMS Multi-Site Collaborative Research Projects

Comment: One commenter asked NIDRR to expand the eligibility criteria for serving as the lead applicant for one of the SCIMS Multi-Site Collaborative Research Projects, so that the two NIDRR-funded Rehabilitation Research and Training Centers on Secondary Conditions in Rehabilitation of Individuals with Spinal Cord Injury would be eligible to apply.

Discussion: NIDRR's SCIMS Centers program has evolved into a multi-site platform that can serve as a resource for testing promising interventions and building the evidence base for spinal cord injury rehabilitation. NIDRR has designed this priority to directly utilize this platform for collaborative research on interventions. Therefore, only SCIMS Centers are eligible to apply. These SCIMS Centers have direct access to individuals with SCI who will participate in the collaborative research. They also maintain comprehensive systems of clinical services for individuals with SCI. Applicants that are not SCIMS Centers will not have direct access to these resources, which are necessary for leading collaborative research within the SCIMS program. While only SCIMS Centers can apply as lead applicants for the SCIMS Multi-Site Collaborative Research grants, applicants may include as part of their multi-site collaborative research project other SCI research sites

that are not participating as a SCIMS Center.

Changes: None.

FINAL PRIORITIES:

Priority 1--Spinal Cord Injury Model Systems Centers.

The Assistant Secretary for Special Education and Rehabilitative Services establishes a priority for the funding of Spinal Cord Injury Model Systems (SCIMS) centers of care (SCIMS Centers). The SCIMS Centers must provide comprehensive, multidisciplinary services to individuals with spinal cord injury (SCI) as a basis for conducting research that contributes to evidence-based rehabilitation interventions and clinical and practice guidelines. The SCIMS program is designed to generate new knowledge that can be used to improve outcomes of individuals with SCI in one or more domains identified in NIDRR's currently approved Long Range Plan, published in the Federal Register on February 15, 2006 (71 FR 8165): health and function, participation and community living, technology, and employment. Each SCIMS Center must contribute to this outcome by--

(a) Providing a multidisciplinary system of rehabilitation care specifically designed to meet the needs of individuals with SCI. The system must encompass a continuum of care, including emergency medical services, acute care services, acute medical rehabilitation services, and post-acute services;

(b) Continuing the assessment of long-term outcomes of individuals with SCI by enrolling at least 30 subjects per year into the SCIMS database, following established protocols for the collection of enrollment and follow-up data on subjects;

(c) Proposing and conducting at least one, but no more than two, site-

specific research projects to test innovative approaches to treating SCI or to assessing outcomes of individuals with SCI in one or more domains identified in the Plan: health and function, participation and community living, technology, and employment.

Note: Applicants who propose more than two site-specific research projects will be disqualified.

(d) Participating as research collaborators in at least one module project. Module projects are research collaborations with one or more other SCIMS Centers on topics of mutual interest and expertise. These module projects are carried out as part of the SCIMS Centers' activities. They are not part of the SCIMS Multi-Site Collaborative Projects, which are funded under a separate priority.

Note: Applicants should not propose a specific module project in their application. While all SCIMS Center grantees are required to participate as research collaborators in at least one module project, they are not required to develop any module project on their own. Immediately following the announcement of new awards under this priority, those SCIMS Centers that are interested in developing module projects may identify module topics, identify potential collaborators from among the other new SCIMS Centers, and develop research protocols for the potential modules. At the first SCIMS Project Directors' meeting, Project Directors will review, discuss, and decide upon specific module projects to implement. NIDRR staff will facilitate this post-award discussion and negotiation among new SCIMS grantees. Once these module projects are agreed upon by the Project Directors, each SCIMS Center will be required to participate in at least one of them.

Each applicant under this priority must--

(1) Demonstrate, in its application, its capacity to successfully engage in multi-site collaborative research. This capacity includes access to research participants, the ability to maintain data quality, and the ability to adhere to research protocols; and

(2) Propose to spend at least 15 percent of its annual budget on participating in a module project, as described in paragraph (d) of this priority;

(e) Addressing the needs of persons with disabilities including individuals from traditionally underserved populations;

(f) Coordinating with the NIDRR-funded Model Systems Knowledge Translation Center (MSKTC) to provide scientific results and information for dissemination to clinical and consumer audiences; and

(g) Ensuring participation of persons with disabilities in conducting SCIMS research.

Priority 2--Spinal Cord Injury Model Systems (SCIMS) Multi-Site Collaborative Research Projects.

The Assistant Secretary for Special Education and Rehabilitative Services establishes a priority for the funding of Disability and Rehabilitation Research Projects (DRRPs) to serve as Spinal Cord Injury Model Systems (SCIMS) multi-site collaborative research projects. To be eligible under this priority, an applicant must have received a grant under the SCIMS Centers priority (Proposed Priority 1 in this notice). Following completion of a competition using the SCIMS Centers priority, the Department will invite successful applicants under that competition to apply for funding under this SCIMS Multi-Site Collaborative Research Projects priority.

Each SCIMS multi-site collaborative research project must be designed to contribute to evidence-based rehabilitation interventions and clinical practice guidelines that improve the lives of individuals with spinal cord injury (SCI) through research, including the testing of approaches to treating SCI or the assessment of the outcomes of individuals with SCI. Each SCIMS multi-site collaborative research project must contribute to this outcome by--

(a) Collaborating with three or more of the NIDRR-funded SCIMS centers (for a minimum of four SCIMS sites). Applicants may also propose to include as part of their multi-site collaborative research project other SCI research sites that are not participating in a NIDRR-funded program;

(b) Conducting multi-site research on questions of significance to SCI rehabilitation, using clearly identified research designs. The research must focus on outcomes in one or more domains identified in NIDRR's currently approved Long Range Plan, published in the Federal Register on February 15, 2006 (71 FR 8165): health and function, participation and community living,

technology, and employment;

(c) Demonstrating the capacity to carry out multi-site collaborative research projects, including administrative capabilities, experience with management of multi-site research protocols, and demonstrated ability to maintain standards for quality and confidentiality of data gathered from multiple sites;

(d) Addressing the needs of people with disabilities, including individuals from traditionally underserved populations;

(e) Coordinating with the NIDRR-funded Model Systems Knowledge Translation Center (MSKTC) to provide scientific results and information for dissemination to clinical and consumer audiences; and

(f) Ensuring participation of individuals with disabilities in conducting SCIMS research.

Types of Priorities:

When inviting applications for a competition using one or more priorities, we designate the type of each priority as absolute, competitive preference, or invitational through a notice in the Federal Register. The effect of each type of priority follows:

Absolute priority: Under an absolute priority, we consider only applications that meet the priority (34 CFR 75.105(c)(3)).

Competitive preference priority: Under a competitive preference priority, we give competitive preference to an application by (1) awarding additional points, depending on the extent to which the application meets the priority (34 CFR 75.105(c)(2)(i)); or (2) selecting an application that meets the priority over an application of comparable merit that does not meet the priority (34 CFR 75.105(c)(2)(ii)).

Invitational priority: Under an invitational priority, we are particularly interested in applications that meet the priority. However, we do not give an application that meets the priority a preference over other applications (34 CFR 75.105(c)(1)).

SELECTION CRITERION:

In accordance with the provisions of 34 CFR 350.53 and 350.54 and in addition to the selection criteria specified in those sections, the Secretary will consider the following factor in evaluating applications submitted under the SCIMS Multi-Site Collaborative Research Projects priority:

The extent to which the applicant clearly documents its capacity to carry out a multi-site research project, including demonstrated administrative capabilities, experience with managing and following multi-site research protocols, and ability to maintain and meet standards for quality and confidentiality of data gathered from multiple sites.

This notice does not preclude us from proposing additional priorities, requirements, definitions, or selection criteria, subject to meeting applicable rulemaking requirements.

Note: This notice does not solicit applications. In any year in which we choose to use these priorities, we invite applications through a notice in the Federal Register.

Executive Order 12866: This notice has been reviewed in accordance with Executive Order 12866. Under the terms of the order, we have assessed the potential costs and benefits of this final regulatory action.

The potential costs associated with this final regulatory action are those resulting from statutory requirements and those we have determined as necessary for administering this program effectively and efficiently.

In assessing the potential costs and benefits--both quantitative and qualitative--of this final regulatory action, we have determined that the benefits of the final priorities justify the costs.

Summary of potential costs and benefits:

The benefits of the Disability and Rehabilitation Research Projects and Centers and the Special Projects and Demonstrations for Spinal Cord Injuries Programs have been well established over the years in that similar projects have been completed successfully. These final priorities and selection criterion will generate new knowledge through research and development. Another benefit of these final priorities and selection criterion is that the establishment of new SCIMS Centers and the DRRPs conducting SCIMS multi-site research projects will generate new knowledge to improve the lives of individuals with disabilities. The new SCIMS Centers and the SCIMS multi-site research projects will generate, disseminate, and promote the use of new information that will improve the options for individuals with spinal cord injury to perform activities of their choice in the community.

BACKGROUND STATEMENT

Background:

The SCIMS program is designed to study the course of recovery and outcomes following the delivery of a coordinated system of care for individuals with SCI. For purposes of this program, SCI is defined as a clinically discernible degree of neurologic impairment of the spinal cord following a traumatic event. The Department currently supports 14 SCIMS centers through this program. These centers provide comprehensive rehabilitation services to individuals with SCI and conduct SCI research, including clinical research and community-based research.

There is a continued need for research to assist individuals who acquire and live with SCI. While SCI remains a low-incidence condition (estimates are that there are 12,000 newly acquired SCI in the U.S. each year), the number of people surviving SCI continues to grow, largely fueled by improved emergency and acute care (http://www.ninds.nih.gov/disorders/sci/detail_sci.htm).

SCI are complex and likely to be long-term. Significant costs are associated with SCI because of recurring medical and rehabilitation needs, including home and vehicle modifications and personal assistants (Priebe et al., 2007). Increased survival rates of individuals with SCI have raised new research questions. For instance, research is needed to develop rehabilitation interventions that address functional challenges experienced by individuals with SCI who are aging (Field and Jette, 2007; Winkler, 2008). For example, "overuse syndrome" is a consequence of living with a SCI and manifests itself in degeneration of joints and chronic pain in the shoulders and neck and is associated with using the arms to propel a wheelchair or transfer from one place to another. Chronic pain can be a debilitating

secondary condition to SCI, and effective, sustainable treatments remain elusive (Hauser and Gruen, 2009; Hosalkar, et al., 2009).

Since 1973, the SCIMS centers have collected and contributed information on common data elements for a centralized SCI database, referred to as the SCIMS database, which is maintained through a NIDRR-funded grant for a National Data and Statistical Center.

As of October 2010, the SCIMS database included initial information on 27,553 individuals, with follow-up information on 22,605 individuals, including 1,034 people who have provided information for more than 30 years. Further information about the SCIMS database, including inclusion criteria, can be found at the following Web site: <https://www.nscisc.uab.edu>.

The SCIMS program is the largest network of research centers devoted to SCI in the world. The low SCI incidence rate makes collaboration across SCIMS centers critical in order to involve investigators with the necessary expertise and to combine the number of subjects who are available for rigorous testing of interventions (Boulenguez & Vinay, 2009). The SCIMS program has evolved into a multi-site platform that can serve as a resource for testing promising interventions. NIDRR funds the SCIMS centers under the Special Projects and Demonstrations for SCI program, as well as separate DRRPs that serve as SCIMS collaborative research projects. These efforts comprise the SCIMS program. Through the priorities proposed in this notice, the Department seeks to fund research and other work carried out under this program.

In accordance with section 204(b)(4) of the Rehabilitation Act and 34 CFR part 359, Proposed Priority 1 would establish SCIMS centers that will build upon the work of the currently-funded SCIMS centers to provide rehabilitation services to individuals with SCI and conduct SCI research.

Proposed Priority 2, authorized under section 204(a) of the Rehabilitation Act and 34 CFR part 350, would provide for DRRPs to conduct multi-site research that contributes to evidence-based rehabilitation interventions and clinical practice guidelines that improve the lives of individuals with SCI. These projects are designed to serve the overall purpose of the DRRP program.

To be eligible under Priority 2, an applicant must have received a grant under Priority 1. The Department intends to announce the competition for Priority 2 awards after selecting grantees from the Priority 1 competition. Only successful applicants from the Priority 1 competition will be eligible to apply for awards under the Priority 2 competition.

SECTION E

General Requirements of DRRPs

General Disability and Rehabilitation Research Projects (DRRP) Requirements

Background:

NIDRR proposes the following General DRRP Requirements priority because it believes that the effectiveness of any DRRP (including any DBTAC) depends on, among other things, how well the DRRP coordinates its research efforts with the research of other NIDRR-funded projects, involves individuals with disabilities in its activities, and identifies specific anticipated outcomes that are linked to its objectives in applying for DRRP funding. Accordingly, NIDRR intends to use the General DRRP Requirements in conjunction with all of the other DRRP priorities NIDRR proposes.

Priority:

To meet this priority, the Disability and Rehabilitation Research Projects (DRRP) must—

- (a) Coordinate on research projects of mutual interest with relevant NIDRR-funded projects, as identified through consultation with the NIDRR project officer;
- (b) Involve individuals with disabilities in planning and implementing the DRRP's research, training, and dissemination activities, and in evaluating its work; and
- (c) Identify anticipated outcomes (i.e., advances in knowledge or changes and improvements in policy, practice, behavior, and system capacity) that are linked to the applicant's stated grant objectives.

SECTION G
PROTECTION OF HUMAN SUBJECTS

Protection of Human Subjects

Research activities involving human subjects supported by awards under these programs are subject to Department of Education Regulations for the Protection of Human Subjects. You do **not** need an assurance or IRB approval as a condition of applying for this competition.

If you marked "Yes" for Item 3 of Department of Education Supplemental Information for SF 424, you must provide a human subjects "exempt research" or "nonexempt research" narrative. Insert the narrative(s) in the space provided. If you have multiple projects and need to provide more than one narrative, please indicate which project each set of responses addresses.

A. Exempt Research Narrative. If you marked "Yes" for item 3 a. and designated exemption numbers(s), provide the "exempt research" narrative. The narrative must contain sufficient information about the involvement of human subjects in the proposed research to allow a determination by ED that the designated exemption(s) are appropriate. The narrative must be succinct. In addition, narratives are required for each participating partner if research is being conducted at other sites.

B. Nonexempt Research Narrative. If you marked "No" for item 3 a. you must provide the "nonexempt research" narrative. The narrative must address the seven points. Although no specific page limitation applies to this section of the application, be succinct.

Copies of the Department of Education regulations for the Protection of Human Subjects as well as other documents are available on the website below. For more information call (202) 260-3353 or go on-line the Protection of Human Subjects in research Web Site:

SECTION I

FREQUENTLY ASKED QUESTIONS

DUNS NUMBER INSTRUCTIONS

FREQUENTLY ASKED QUESTIONS

1. CAN I GET AN EXTENSION OF THE DUE DATE?

In the case of most competitions the answer is no. On rare occasions the Department of Education may extend a closing date for all applicants. If that occurs, a notice of the revised due date is published in the Federal Register; this extension will identify who is eligible to apply for a given competition. There are no extensions or exceptions to the due date made for individual applicants. Additionally, there are provisions for extension for Grants.gov, per the guidance included in the application package.

2. WHAT SHOULD BE INCLUDED IN THE APPLICATION?

The application should include the following: (1) Application for Federal Assistance (SF 424); (2) Table of Contents; (3) Abstract; (4) ED Budget Information Non-Construction Programs (ED-524); (5) Budget Narrative; (6) Project Narrative; (7) General Education Provisions Act (GEPA) Requirements – Section 427; (8) GG Lobbying Form (90-0013); (9) Faith Based Survey on EEO; (10) ED Supplemental Form for SF 424; (11) SF LLL Disclosure of Lobbying; and (12) Vitae/Bibliography/Letters of Support . The budgets for all years, including a detailed budget narrative, should be included. If collaboration with another organization or individual is involved in any proposed activity, the application should include assurances of participation by the other parties, including written agreements or letters of cooperation. It is not useful to include general letters of support or endorsement in the application. If the applicant proposes to use unique tests or other measurement instruments that are not widely known in the field, it would be helpful to include the instrument in the application. Many applications contain voluminous appendices that are not helpful and in many cases cannot even be mailed to the reviewers. It is generally not helpful to include such things as brochures, general capability statements of collaborating organizations, maps, copies of publications, or descriptions of other projects completed by the applicant.

3. WHAT FORMAT SHOULD BE USED FOR THE APPLICATION?

NIDRR generally advises applicants to organize the project narrative to follow the selection criteria. The specific review criteria vary according to the specific programs and are included in this application package. Additionally, applicants should provide clearly stated hypotheses or research questions, goals, objectives, expected outcomes, and public benefit of the research or development project. The application should be organized to provide a thorough description of the methods and target population(s) and supported by evidence of need for the project, as identified in the relevant literature; citations are useful and may strengthen the proposal. Specific information on the format can be found in Section H – Application Format and Instructions of this application package.

4. ARE THERE PAGE LIMITS TO MY APPLICATION?

The application narrative is where you, the applicant, address the selection criteria that reviewers use to evaluate your application. We recommend that you limit the application narrative to the equivalent of no more than 100 pages, using the following standards: (1) A “page” is 8.5" x 11", on one side only, with 1" margins at the top, bottom, and both sides; (2) Double-space (no more than three lines per vertical inch) all text in the application narrative, including titles, headings, footnotes, quotations, references, and captions, as well as all text in charts, tables, figures, and graphs; (3) Use a font that is either 12 point or larger or no smaller than 10 pitch (characters per inch); (4) Use one of the following fonts: Times New Roman, Courier, Courier New or Arial; and (5) Include all critical information in the program narrative, minimizing the need for additional appendices.

5. MAY I SUBMIT APPLICATIONS TO MORE THAN ONE OPEN NIDRR PROGRAM COMPETITION AT A TIME OR MORE THAN ONE APPLICATION TO A PARTICULAR PROGRAM COMPETITION?

Yes. You may submit more than one application in any given competition. You may submit to as many open competitions for which an application is responsive to the program requirements. However, each competition is unique and the selection criteria will vary from one competition to another. It is important that each separate application include the required materials for that particular competition.

6. DO I NEED AN ABSTRACT AND WHAT SHOULD IT INCLUDE?

Yes, you do need an abstract. The abstract is used by both the peer reviewers and the program staff in the review and processing of the application. The ONE-PAGE abstract should be a comprehensive description of the project (all years), not a description of the competency of the institution or project director. It is not an executive summary. It can be single or double-spaced. Upload to ED Abstract.

7. WHAT IS THE ALLOWABLE INDIRECT COST RATE?

For the Disability Rehabilitation Research Projects (133A) applicants must have a current indirect cost rate agreement to charge indirect costs to a grant. The maximum amount of the award includes both direct and indirect costs (ED Budget Information non-Construction programs (ED-524). The Department's Indirect Cost Group has more information on what you should know about indirect cost rates at its Web site: <http://www2.ed.gov/about/offices/list/ocfo/fipao/abouticg.html>

8. CAN PROFIT MAKING BUSINESSES APPLY FOR GRANTS?

Yes; however, for-profit organizations will not be able to collect a fee or profit on the grant. It varies by program.

9. CAN INDIVIDUALS APPLY FOR GRANTS?

Individuals are not eligible to apply for the Disability Rehabilitation Research Projects (DRRP) .

10. CAN NIDRR STAFF ADVISE ME WHETHER MY PROJECT IS OF INTEREST TO NIDRR OR LIKELY TO BE FUNDED?

No. NIDRR staff can only advise you of the requirements of the program in which you propose to submit your application. However, staff cannot advise you as to whether or not your subject area or proposed approach is likely to receive approval.

11. HOW DO I ENSURE THAT MY APPLICATION WILL BE REVIEWED UNDER THE CORRECT COMPETITION?

Applicants must clearly include the competition title and CFDA number, on the Standard Form 424, and include a project title that describes the project, based on the competition.

12. HOW SOON AFTER SUBMITTING MY APPLICATION CAN I FIND OUT IF IT WILL BE FUNDED?

The time from closing date to grant award date varies from program to program. Generally speaking, NIDRR makes awards within six to seven months after the closing date. Unsuccessful applicants generally will be notified within that time frame as well. When NIDRR is able to release information on the

status of grant applications, it will notify applicants by letter. . This information is **not** posted on the NIDRR homepage or the Grants.gov website.

13. WHAT START DATE SHOULD I USE ON MY APPLICATION?

For the purpose of estimating a project start date, the applicant should estimate approximately six to seven months from the closing date, preferably October 1. You must have a start date that allows you to complete an Annual Performance Report (APR) by May 31st with a minimum of six month of activities to report on.

14. IF MY APPLICATION IS SUCCESSFUL, CAN I ASSUME I WILL GET THE REQUESTED BUDGET AMOUNT IN SUBSEQUENT YEARS?

No. Funding in subsequent years is subject to availability of funds and project performance.

15. WILL ALL APPROVED APPLICATIONS BE FUNDED?

No. Peer review can result in more applications being determined to be worthy of consideration for funding than available resources allow. Unsuccessful applicants are encouraged to consider resubmitting applications in future competitions. Funded applications will be notified in the manner described in #12.

16. HOW DO THE REPORTING REQUIREMENTS IN SUBSEQUENT YEARS IMPACT ON MY APPLICATION?

Successful applicants with multi-year grants must submit an Annual Performance Report (APR) demonstrating and documenting their progress in meeting approved project objectives and their success in addressing the performance measures outlined in the Notice Inviting Applications. Grantees must also provide the most current financial and performance measure data for each year of the project. Grantees will also be required to submit a final performance report, 90 days after the end of the project period. The APR is submitted electronically via a web-based system. This system is maintained by a contractor. Grantees are provided an appropriate URL and personal password to access the system. The contractor will also send newly funded grantees information about when and how to submit their APR. The Department uses the applicant's performance data for program management and administration, in such areas as determining new and continuation funding and planning technical assistance. Grantees are required to participate fully in any evaluation of the NIDRR program carried out by the Department of Education.

17. DO I HAVE TO INCLUDE COST SHARE IN MY APPLICATION?

NIDRR has cost share requirements for the Disability Rehabilitation Research Projects (133A) in accordance with statutory (29 USC 762), regulatory (34 CFR Section 350.52), and administrative requirements. This information should be reflected on the SF 424 #18. (B), the ED 524 form - Section B (Budget Summary Non-Federal Funds), and in the budget narrative for each year. A minimum amount of up to 1% of the total yearly budget amount is required; however, you may include more than 1%. If the cost share amount is changed for a competition, it will be announced in the Notice Inviting Applications. For more information, see EDGAR 74.23 and 84.24.

18. WHAT DO I NEED TO DO ABOUT HUMAN SUBJECTS PROTECTION IN MY RESEARCH?

If you are planning research involving human subjects at any time during the project period, you check “Yes” in the Human Subjects section of the ED supplement to the SF 424 form. If you checked “Yes,” you need to indicate whether the research is exempt or not exempt from the protection of human subjects requirements of EDGAR part 97 and if you have an IRB number. You will need to fill out the human subjects narrative for each site where the research is being conducted. The program and the Department’s human subjects staff review the applicant’s response against the application itself to determine its accuracy. They contact you for additional information or clarification, if needed. More information can be found in the instructions for the SF 424 form and in this application package in the Human Subjects section.

19. MUST I SUBMIT MY APPLICATION VIA GRANTS.GOV?

Applications for grants for this competition must be submitted electronically using the Governmentwide Grants.gov Apply site at www.Grants.gov. Through this site, you will be able to download a copy of the application package, complete it offline, and then upload and submit your application. You may not e-mail an electronic copy of a grant application to us. **We will reject your application if you submit it in paper format unless, you qualify for one of the exceptions to the electronic submission requirement and submit, no later than two weeks before the application deadline date, a written statement to the Department that you qualify for one of these exceptions.**

20. HOW WILL I RECEIVE FUNDING FOR THE ADDITIONAL YEARS OF MY GRANT (CONTINUATION AWARD)?

In making a continuation award, the Secretary may consider under 34 CFR 75.253, the extent to which a grantee has made “substantial progress toward meeting the objectives in its approved application.” This consideration includes the review of a grantee’s progress in meeting the targets and projected outcomes in its approved application, and whether the grantee has expended funds in a manner that is consistent with its approved application and budget. In making a continuation grant, the Secretary also considers whether the grantee is operating in compliance with the assurances in its approved application, including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23)

DUNS NUMBER INSTRUCTIONS

NOTE: Check with your fiscal office to see if your institution has an assigned DUNS before contacting Dun & Bradstreet

D-U-N-S No.: Please provide the applicant's D-U-N-S Number. You can obtain your D-U-N-S Number at no charge by calling **1-800-234-3867** or by completing a D-U-N-S Number Request Form. The form can be obtained via the Internet at the following URL:

http://www.dnb.com/US/duns_update/index.html

The D-U-N-S Number is a unique nine-digit number that does not convey any information about the recipient. A built in check digit helps assure the accuracy of the D-U-N-S Number. The ninth digit of each number is the check digit, which is mathematically related to the other digits. It lets computer systems determine if a D-U-N-S Number has been entered correctly.

Dun & Bradstreet, a global information services provider, has assigned D-U-N-S numbers to over 43 million companies worldwide. **Live help Monday-Friday 8am-6pm (EST) Dial 1.800.234.3867**

Note: Electronic submission via Grants.gov must use DUNS number your organization used when it registered in the Central Contractor Registry.

GRANTS.GOV SUBMISSION PROCEDURES AND TIPS FOR APPLICANTS

APPLICATION TRANSMITTAL INSTRUCTIONS

IMPORTANT – PLEASE READ FIRST

U.S. Department of Education

Grants.gov Submission Procedures and Tips for Applicants

To facilitate your use of Grants.gov, this document includes important submission procedures you need to be aware of to ensure your application is received in a timely manner and accepted by the Department of Education.

ATTENTION – Adobe Forms and PDF Files Required

Applications submitted to Grants.gov for the Department of Education will be posted using Adobe forms. Therefore, applicants will need to download the latest version of Adobe reader (at least Adobe Reader 8.1.2). Information on computer and operating system compatibility with Adobe and links to download the latest version is available on Grants.gov. We strongly recommend that you review these details on www.Grants.gov before completing and submitting your application. In addition, applicants should submit their application a day or two in advance of the closing date as detailed below. Also, applicants are required to upload their attachments in .pdf format only. (See details below under “Attaching Files – Additional Tips.”) If you have any questions regarding this matter please email the Grants.gov Contact Center at support@grants.gov or call 1-800-518-4726.

Also, applicants should be aware that on October 11, 2010, Grants.gov implemented a new security build which requires each organization’s e-Biz POC (Point of Contact) update their Grants.gov registration. To complete this step, the e-Biz POC must have their DUNS number and CCR MPIN. We recommend this step be completed several days before application submission unless the e-Biz POC has already responded to this requirement. For more information on this topic, please visit this Grants.gov information link: <http://www.grants.gov/securitycommebiz/>.

- 1) **REGISTER EARLY** – Grants.gov registration may take five or more business days to complete. You may begin working on your application while completing the registration process, but you cannot submit an application until all of the Registration steps are complete. For detailed information on the Registration Steps, please go to: http://www.grants.gov/applicants/get_registered.jsp. [Note: Your organization will need to update its Central Contractor Registry (CCR) registration annually.]
- 2) **SUBMIT EARLY** – We strongly recommend that you do not wait until the last day to submit your application. Grants.gov will put a date/time stamp on your application and then process it after it is fully uploaded. The time it takes to upload an application will vary depending on a number of factors including the size of the application and the speed of your Internet connection, and the time it takes Grants.gov to process the application will vary as well. If Grants.gov rejects your application (see step three below), you will need to resubmit successfully to Grants.gov before 4:30:00 p.m. Washington, DC time on the deadline date.

Note: To submit successfully, you must provide the DUNS number on your application that was used when you registered as an Authorized Organization Representative (AOR) on Grants.gov. This DUNS number is typically the same number used when your organization registered with the CCR (Central Contractor Registry). If you do not enter the same DUNS number on your application as the DUNS you registered with, Grants.gov will reject your application.

- 3) **VERIFY SUBMISSION IS OK** – You will want to verify that Grants.gov received your application submission on time and that it was validated successfully. To see the date/time your application was received, login to Grants.gov and click on the Track My Application link. For a successful submission, the date/time received should be earlier than 4:30:00 p.m. Washington, DC time, on the deadline date, AND the application status should be: Validated, Received by Agency, or Agency Tracking Number Assigned. Once the Department of Education receives your application from Grants.gov, an Agency Tracking Number (PR/award number) will be assigned to your application and will be available for viewing on Grants.gov’s Track My Application link.

If the date/time received is later than 4:30:00 p.m. Washington, D.C. time, on the deadline date, your application is late. If your application has a status of “Received” it is still awaiting validation by Grants.gov. Once validation is complete, the status will either change to “Validated” or “Rejected with Errors.” If the status is “Rejected with Errors,” your application has not been received successfully. Some of the reasons Grants.gov may reject an application can be found on the Grants.gov site: http://www.grants.gov/applicants/applicant_faqs.jsp#54. For more detailed information on troubleshooting Adobe errors, you can review the Adobe Reader Error Messages document at <http://www.grants.gov/assets/AdobeReaderErrorMessages.pdf>. If you discover your application is late or has been rejected, please see the instructions below. Note: You will receive a series of confirmations both online and via e-mail about the status of your application. Please do not rely solely on e-mail to confirm whether your application has been received timely and validated successfully.

Submission Problems – What should you do?

If you have problems submitting to Grants.gov before the closing date, please contact Grants.gov Customer Support at 1-800-518-4726 or <http://www.grants.gov/contactus/contactus.jsp>, or use the customer support available on the Web site: http://www.grants.gov/applicants/applicant_help.jsp.

If electronic submission is optional and you have problems that you are unable to resolve before the deadline date and time for electronic applications, please follow the transmittal instructions for hard copy applications in the Federal Register notice and get a hard copy application postmarked by midnight on the deadline date.

If electronic submission is required, you must submit an electronic application before 4:30:00 p.m., unless you follow the procedures in the Federal Register notice and qualify for one of the exceptions to the electronic submission requirement and submit, no later than two weeks before the application deadline date, a written statement to the Department that you qualify for one of these exceptions. (See the Federal Register notice for detailed instructions.)

Helpful Hints When Working with Grants.gov

Please note, once you download an application from Grants.gov, you will be working offline and saving data on your computer. Please be sure to note where you are saving the Grants.gov file on your computer. You will need to logon to Grants.gov to upload and submit the application. **You must provide the DUNS number on your application that was used when you registered as an Authorized Organization Representative (AOR) on Grants.gov.**

Please go to http://www.grants.gov/applicants/applicant_help.jsp for help with Grants.gov. For additional tips related to submitting grant applications, please refer to the Grants.gov Submit Application FAQs found on the Grants.gov http://www.grants.gov/help/submit_application_faqs.jsp.

Dial-Up Internet Connections

When using a dial up connection to upload and submit your application, it can take significantly longer than when you are connected to the Internet with a high-speed connection, e.g. cable modem/DSL/T1. While times will vary depending upon the size of your application, it can take a few minutes to a few hours to complete your grant submission using a dial up connection. If you do not have access to a high-speed connection and electronic submission is required, you may want to consider following the instructions in the Federal Register notice to obtain an exception to the electronic submission requirement no later than two weeks before the application deadline date. **(See the Federal Register notice for detailed instructions.)**

MAC Users

For MAC compatibility information, review the Operating System Platform Compatibility Table at the following Grants.gov link: http://www.grants.gov/help/download_software.jsp. **If electronic submission is required and you are concerned about your ability to submit electronically as a non-windows user, please follow instructions in the Federal Register notice to obtain an exception to the electronic submission requirement no later than two weeks before the application deadline date.** (See the Federal Register notice for detailed instructions.)

Attaching Files – Additional Tips

Please note the following tips related to attaching files to your application, especially the requirement that applicants **only include read-only, non-modifiable .PDF files** in their application:

1. Ensure that you attach **.PDF files only** for any attachments to your application, and they must be in a **read-only, non-modifiable format**. PDF files are the only Education approved file type accepted as detailed in the Federal Register application notice. Applicants must submit individual .PDF files only when attaching files to their application. Specifically, the Department will not accept any attachments that contain files within a file, such as PDF Portfolio files, or an interactive or fillable .PDF file. Any attachments uploaded that are not .PDF files or are password protected files will not be read. If you need assistance converting your files to a .pdf format, please refer to the following Grants.gov webpage with links to conversion programs: http://www.grants.gov/help/download_software.jsp#pdf_conversion_programs
2. Grants.gov cannot process an application that includes two or more files that have the same name within a grant submission. Therefore, each file uploaded to your application package should have a unique file name.
3. When attaching files, applicants should follow the guidelines established by Grants.gov on the size and content of file names. Uploaded files must be less than 50 characters, contain no spaces, no special characters (example: -, &, *, %, /, #, \) including periods (.), blank spaces and accent marks. Applications

submitted that do not comply with the Grants.gov guidelines will be rejected at Grants.gov and not forwarded to the Department.

4. Applicants should limit the size of their file attachments. Documents submitted that contain graphics and/or scanned material often greatly increase the size of the file attachments and can result in difficulties opening the files. For reference, the average discretionary grant application package totals 1 to 2 MB. Therefore, you may want to check the total size of your package before submission.

**Instructions for U.S. Department of Education
Supplemental Information for the SF-424**

1. Project Director. Name, address, telephone and fax numbers, and e-mail address of the person to be contacted on matters involving this application. Items marked with an asterisk (*) are mandatory.

2. Novice Applicant. Check “Yes” if you meet the definition for novice applicants specified in the regulations in 34 CFR 75.225 and included on the attached page entitled “Definitions for U.S. Department of Education Supplemental Information for the SF-424”). By checking “Yes” the applicant certifies that it meets these novice applicant requirements. Check “No” if you do not meet the definition for novice applicants.

This novice applicant information will be used by ED to: 1) determine the amount and type of technical assistance that a novice might need, if funded, and 2) determine novice applicant eligibility in discretionary grant competitions that give special consideration to novice applications. Certain ED discretionary grant programs give special consideration to novice applications, either by establishing a special competition for novice applicants or by giving competitive preference to novice applicants under the procedures in 34 CFR 75.105(c)(2). If special consideration is being given to novice applications under a particular discretionary grant competition, the application notice for the competition published in the Federal Register will specify this information

3. Human Subjects Research. (See I. A. “Definitions” in attached page entitled “Definitions for U.S. Department of Education Supplemental Information for the SF-424.”)

3a. If Not Human Subjects Research. Check “No” if research activities involving human subjects are not planned at any time during the proposed project period. The remaining parts of Item 3 are then not applicable.

3a. If Human Subjects Research. Check “Yes” if research activities involving human subjects are planned at any time during the proposed project period, either at the applicant organization or at any other performance site or collaborating institution. Check “Yes” even if the research is exempt from the regulations for the protection of human subjects. (See I. B. “Exemptions” in attached page entitled “Definitions for U.S. Department of Education Supplemental Information for SF-424.”)

3b. If Human Subjects Research is Exempt from the Human Subjects Regulations. Check “Yes” if all the research activities proposed are designated to be exempt from the regulations. Check the exemption number(s) corresponding to one or more of the six exemption categories listed in I. B. “Exemptions.” In addition, follow the instructions in II. A. “Exempt Research Narrative” in the attached page entitled “Definitions for U.S. Department of Education Supplemental Information for the SF-424.”

3b. If Human Subjects Research is Not Exempt from Human Subjects Regulations. Check “No” if some or all of the planned research activities are covered (not exempt). In addition, follow the instructions in II. B. “Nonexempt Research Narrative” in the attached page entitled “Definitions for U.S. Department of Education Supplemental Information for the SF-424.”

3b. Human Subjects Assurance Number. If the applicant has an approved Federal Wide Assurance (FWA) on file with the Office for Human Research Protections (OHRP), U.S. Department of Health and Human Services, that covers the specific activity, insert the number in the space provided. **(A list of current FWAs is available at: <http://ohrp.cit.nih.gov/search/asearch.asp#ASUR>)** If the applicant does not have an approved assurance on file with OHRP, enter “None.” In this case, the applicant, by signature on the SF-424, is declaring that it will comply with 34 CFR 97 and proceed to obtain the human subjects assurance upon request by the designated ED official. If the application is recommended/selected for funding, the designated ED official will request that the applicant obtain the assurance within 30 days after the specific formal request.

3c. If applicable, please attach your “Exempt Research” or “Nonexempt Research” narrative to your submission of the U.S Department of Education Supplemental Information for the SF-424 form as instructed in item II, “Instructions for Exempt and Nonexempt Human Subjects Research Narratives” in the attached page entitled “Definitions for U.S. Department of Education Supplemental Information for the SF-424.”

Note about Institutional Review Board Approval. ED does not require certification of Institutional Review Board approval with the application. However, if an application that involves non-exempt human subjects research is recommended/selected for funding, the designated ED official will request that the applicant obtain and send the certification to ED within 30 days after the formal request.

No covered human subjects research can be conducted until the study has ED clearance for protection of human subjects in research.

***Paperwork Burden Statement.** According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless such collection displays a valid OMB control number. The valid OMB control number for this information collection is 1894-0007. The time required to complete this information collection is estimated to average between 15 and 45 minutes per response, including the time to review instructions, search existing data resources, gather the data needed and complete and review the information collection. If you have any comments concerning the accuracy of the estimate(s) or suggestions for improving this form, please write to: U.S. Department of Education, Washington, D.C. 20202-0170. If you have comments or concerns regarding the status of your individual submission of this form write directly to: (insert program office), U.S. Department of Education, 400 Maryland Avenue, S.W., Washington, D.C. 20202.*

PROTECTION OF HUMAN SUBJECTS IN RESEARCH

I. Definitions and Exemptions

A. Definitions.

A research activity involves human subjects if the activity is research, as defined in the Department's regulations, and the research activity will involve use of human subjects, as defined in the regulations.

—Research

The ED Regulations for the Protection of Human Subjects, Title 34, Code of Federal Regulations, Part 97, define research as “a systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable knowledge. Activities which meet this definition constitute research whether or not they are conducted or supported under a program that is considered research for other purposes. For example, some demonstration and service programs may include research activities.

—Human Subject

The regulations define human subject as “a living individual about whom an investigator (whether professional or student) conducting research obtains (1) data through intervention or interaction with the individual, or (2) identifiable private information.” (1) *If an activity involves obtaining information about a living person by manipulating that person or that person's environment, as might occur when a new instructional technique is tested, or by communicating or interacting with the individual, as occurs with surveys and interviews, the definition of human subject is met.* (2) *If an activity involves obtaining private information about a living person in such a way that the information can be **directly or indirectly** linked to that individual, the definition of human subject is met* [Private information includes information about behavior that occurs in a context in which an individual can reasonably expect that no observation or recording is taking place, and information which has been provided for specific purposes by an individual and which the individual can reasonably expect will not be made public (for example, a school health record).]

B. Exemptions.

Research activities in which the **only** involvement of human subjects will be in one or more of the following six categories of **exemptions** are not covered by the regulations:

(1) Research conducted in established or commonly accepted educational settings, involving normal educational practices, such as (a) research on regular and special education instructional strategies, or (b) research on the effectiveness of or the comparison among instructional techniques, curricula, or classroom management methods. ***If an educational practice is being introduced to the site and is not widely used for similar populations, it is not covered by this exemption.***

(2) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior, unless: (a) information obtained is recorded in such a manner that human subjects can be identified, directly or through identifiers linked to the subjects; and (b) any disclosure of the human subjects' responses outside the research could reasonably place the subjects at risk of criminal or civil liability or be damaging to the subjects' financial standing, employability, or reputation. ***If the subjects are children, exemption 2 applies only to research involving educational tests and observations of public behavior when the investigator(s) do not participate in the activities being observed.***

Exemption 2 does not apply if children are surveyed or interviewed or if the research involves observation of public behavior and the investigator(s) participate in the activities being observed. [Children are defined as persons who have not attained the legal age for consent to treatments or procedures involved in the research, under the applicable law or jurisdiction in which the research will be conducted.]

(3) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior that is not exempt under section (2) above, if the human subjects are elected or appointed public officials or candidates for public office; or federal statute(s) require(s) without exception that the confidentiality of the personally identifiable information will be maintained throughout the research and thereafter.

(4) Research involving the collection or study of existing data, documents, records, pathological specimens, or diagnostic specimens, if these sources are publicly available or if the information is recorded by the investigator in a manner that subjects cannot be identified, directly or through identifiers linked to the subjects. ***[This exemption applies only to retrospective studies using data collected before the initiation of the research.]***

(5) Research and demonstration projects which are conducted by or subject to the approval of department or agency heads, and which are designed to study, evaluate, or otherwise examine: (a) public benefit or service programs; (b) procedures for obtaining benefits or services under those programs; (c) possible changes in or alternatives to those programs or procedures; or (d) possible changes in methods or levels of payment for benefits or services under those programs. ***[The standards of this exemption are rarely met because it was designed to apply only to specific research conducted by HHS at the time the regulations were established. We will strictly construe this exemption because it was not intended to apply to ED research.]***

(6) Taste and food quality evaluation and consumer acceptance studies, (a) if wholesome foods without additives are consumed or (b) if a food is consumed that contains a food ingredient at or below the level and for a use found to be safe, or agricultural chemical or environmental contaminant at or below the level found to be safe, by the Food and Drug Administration or approved by the Environmental Protection Agency or the Food Safety and Inspection Service of the U.S. Department of Agriculture.

II. Instructions for Exempt and Nonexempt Human Subjects Research Narratives

If the applicant marked “Yes” for Item 3.b. of the U.S. Department of Education Supplemental Information for the SF 424, the applicant must attach a human subjects “exempt research” or “nonexempt research” narrative to the U.S. Department of Education Supplemental Information for the SF-424 form. If you have multiple projects and need to provide more than one narrative, be sure to label each set of responses as to the project they address.

A. Exempt Research Narrative.

If you marked “Yes” for item 3.b. and designated exemption numbers(s), attach the “exempt research” narrative to the U.S. Department of Education Supplemental Information for the SF-424. The narrative must contain sufficient information about the involvement of human subjects in the proposed research to allow a determination by ED that the designated exemption(s) are appropriate. The narrative must be succinct.

B. Nonexempt Research Narrative.

If you marked “No” for item 3.b. you must attach the “nonexempt research” narrative to the U.S. Department of Education Supplemental Information for the SF-424. The narrative must address the following seven points. Although no specific page limitation applies to this section of the application, be succinct.

(1) **Human Subjects Involvement and Characteristics:** Provide a detailed description of the proposed involvement of human subjects. Describe the characteristics of the subject population, including their anticipated number, age range, and health status. Identify the criteria for inclusion or exclusion of any subpopulation. Explain the rationale for the involvement of special classes of subjects, such as children, children with disabilities, adults with disabilities, persons with mental disabilities, pregnant women, prisoners, institutionalized individuals, or others who are likely to be vulnerable

(2) **Sources of Materials:** Identify the sources of research material obtained from individually identifiable living human subjects in the form of specimens, records, or data. Indicate whether the material or data will be obtained specifically for research purposes or whether use will be made of existing specimens, records, or data.

(3) **Recruitment and Informed Consent:** Describe plans for the recruitment of subjects and the consent procedures to be followed. Include the circumstances under which consent will be sought and obtained, who will seek it, the nature of the information to be provided to prospective subjects, and the method of documenting consent. State if the Institutional Review Board (IRB) has authorized a modification or waiver of the elements of consent or the requirement for documentation of consent.

(4) **Potential Risks:** Describe potential risks (physical, psychological, social, legal, or other) and assess their likelihood and seriousness. Where appropriate, describe alternative treatments and procedures that might be advantageous to the subjects.

(5) **Protection Against Risk:** Describe the procedures for protecting against or minimizing potential risks, including risks to confidentiality, and assess their likely effectiveness. Where appropriate, discuss provisions for ensuring necessary medical or professional intervention in the event of adverse effects to the subjects. Also, where appropriate, describe the provisions for monitoring the data collected to ensure the safety of the subjects.

(6) **Importance of the Knowledge to be Gained:** Discuss the importance of the knowledge gained or to be gained as a result of the proposed research. Discuss why the risks to subjects are reasonable in relation to the anticipated benefits to subjects and in relation to the importance of the knowledge that may reasonably be expected to result.

(7) **Collaborating Site(s):** If research involving human subjects will take place at collaborating site(s) or other performance site(s), name the sites and briefly describe their involvement or role in the research.

Copies of the Department of Education’s Regulations for the Protection of Human Subjects, 34 CFR Part 97 and other pertinent materials on the protection of human subjects in research are available from the Office of the Chief Financial Officer, U.S. Department of Education, Washington, D.C. 20202-4331, telephone: (202) 245-8090, and on the U.S. Department of Education’s Protection of Human Subjects in Research Web Site: <http://www.ed.gov/about/offices/list/ocfo/humansub.html>

(a) The grantee must submit an indirect cost proposal to its cognizant agency within 90 days after ED issues a grant award notification; and

(b) If after the 90-day period, the grantee has not submitted an indirect cost proposal to its cognizant agency, the grantee may not charge its grant for indirect costs until it has negotiated an indirect cost rate agreement with its cognizant agency.

(2): If you checked "yes" in (1), indicate in (2) the beginning and ending dates covered by the Indirect Cost Rate Agreement. In addition, indicate whether ED, another Federal agency (Other) or State agency issued the approved agreement. Section C - Budget Narrative [Attach separate sheet(s)] Pay attention to applicable program specific instructions, if attached.

1. Provide an itemized budget breakdown, and justification by project year, for each budget category listed in Sections A and B. For grant projects that will be divided into two or more separately budgeted major activities or sub-projects, show for each budget category of a project year the breakdown of the specific expenses attributable to each sub-project or activity.

2. For non-Federal funds or resources listed in Section B that are used to meet a cost-sharing or matching requirement or provided as a voluntary cost-sharing or matching commitment, you must include:

- a. The specific costs or contributions by budget category;
- b. The source of the costs or contributions; and
- c. In the case of third-party in-kind contributions, a description of how the value was determined for the donated or contributed goods or services.

[Please review ED's general cost sharing and matching regulations, which include specific limitations, in 34 CFR 74.23, applicable to non-governmental entities, and 80.24, applicable to governments, and the applicable Office of Management and Budget (OMB) cost principles for your entity type regarding donations, capital assets, depreciation and use allowances. OMB cost principle circulars are available on OMB's website at: <http://www.whitehouse.gov/omb/circulars/index.html>]

3. If applicable to this program, provide the rate and base on which fringe benefits are calculated.
4. If you are requesting reimbursement for indirect costs on line 10, this information is to be completed by your Business Office. Specify the estimated amount of the base to which the indirect cost rate is applied and the total indirect expense. Depending on the grant program to which you are applying and/or your approved Indirect Cost Rate Agreement, some direct cost budget categories in your grant application budget may not be included in the base and multiplied by your indirect cost rate. For example, you must multiply the indirect cost rates of "Training grants" (34 CFR 75.562) and grants under programs with "Supplement not Supplant" requirements ("Restricted Rate" programs) by a "modified total direct cost" (MTDC) base (34 CFR 75.563 or 76.563). Please indicate which costs are included and which costs are excluded from the base to which the indirect cost rate is applied.

When calculating indirect costs (line 10) for "Training grants" or grants under "Restricted Rate" programs, you must refer to the information and examples on ED's website at: <http://www.ed.gov/fund/grant/apply/appforms/appforms.html>.

You may also contact (202) 377-3838 for additional information regarding calculating indirect cost rates or general indirect cost rate information.

Standard Form 424B (Rev. 7-97) Back

NOTICE TO ALL APPLICANTS

The purpose of this enclosure is to inform you about a new provision in the Department of Education's General Education Provisions Act (GEPA) that applies to applicants for new grant awards under Department programs. This provision is Section 427 of GEPA, enacted as part of the Improving America's Schools Act of 1994 (Public Law (P.L.) 103-382).

To Whom Does This Provision Apply?

Section 427 of GEPA affects applicants for new grant awards under this program. **ALL APPLICANTS FOR NEW AWARDS MUST INCLUDE INFORMATION IN THEIR APPLICATIONS TO ADDRESS THIS NEW PROVISION IN ORDER TO RECEIVE FUNDING UNDER THIS PROGRAM.**

(If this program is a State-formula grant program, a State needs to provide this description only for projects or activities that it carries out with funds reserved for State-level uses. In addition, local school districts or other eligible applicants that apply to the State for funding need to provide this description in their applications to the State for funding. The State would be responsible for ensuring that the school district or other local entity has submitted a sufficient section 427 statement as described below.)

What Does This Provision Require?

Section 427 requires each applicant for funds (other than an individual person) to include in its application a description of the steps the applicant proposes to take to ensure equitable access to, and participation in, its Federally-assisted program for students, teachers, and other program beneficiaries with special needs. This provision allows applicants discretion in developing the required description. The statute highlights six types of barriers that

can impede equitable access or participation: gender, race, national origin, color, disability, or age. Based on local circumstances, you should determine whether these or other barriers may prevent your students, teachers, etc. from such access or participation in, the Federally-funded project or activity. The description in your application of steps to be taken to overcome these barriers need not be lengthy; you may provide a clear and succinct description of how you plan to address those barriers that are applicable to your circumstances. In addition, the information may be provided in a single narrative, or, if appropriate, may be discussed in connection with related topics in the application.

Section 427 is not intended to duplicate the requirements of civil rights statutes, but rather to ensure that, in designing their projects, applicants for Federal funds address equity concerns that may affect the ability of certain potential beneficiaries to fully participate in the project and to achieve to high standards. Consistent with program requirements and its approved application, an applicant may use the Federal funds awarded to it to eliminate barriers it identifies.

What are Examples of How an Applicant Might Satisfy the Requirement of This Provision?

The following examples may help illustrate how an applicant may comply with Section 427.

- (1) An applicant that proposes to carry out an adult literacy project serving, among others, adults with limited English proficiency, might describe in its application how it intends to distribute a brochure about the proposed project to such potential participants in their native language.

(2) An applicant that proposes to develop instructional materials for classroom use might describe how it will make the materials available on audio tape or in braille for students who are blind.

(3) An applicant that proposes to carry out a model science program for secondary students and is concerned that girls may be less likely than boys to enroll in the course, might indicate how it intends to conduct "outreach" efforts to girls, to encourage their enrollment.

We recognize that many applicants may already be implementing effective steps to ensure equity of access and participation in their grant programs, and we appreciate your cooperation in responding to the requirements of this provision.

Estimated Burden Statement for GEPA Requirements

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless such collection displays a valid OMB control number. Public reporting burden for this collection of information is estimated to average 1.5 hours per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. The obligation to respond to this collection is required to obtain or retain benefit (Public Law 103-382). Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the U.S. Department of Education, 400 Maryland Ave., SW, Washington, DC 20210-4537 or email ICDocketMgr@ed.gov and reference the OMB Control Number 1894-0005.
