JAN 29 2010

MEMORANDUM FOR: STATE DESIGNEES
REGIONAL ADMINISTRATORS

FROM: KIMBERLY A. LOCEY 
Director
Administrative Programs

STEVEN F. WITT 
Director
Cooperative and State Programs

SUBJECT: FY 2010 Final Base Award Levels

As a result of the Consolidated Appropriations Act for 2010, signed December 16, 2009, **\$104,393,000** was made available to support State Plan 23(g) grants. This represents an increase of \$11,800,000 over the FY 2009 funding. In addition, \$179,200 of unmatched funds from Hawaii and South Carolina is being permanently redistributed. Your final base award for your FY 2010 23(g) grant, based on your ability to match, is reflected in the attached spreadsheet. These new funds are being distributed in accordance with the Funding Formula based on 2008 BLS DART case experience.

It is imperative that you notify your Regional Administrator as soon as possible, but no later than February 8, 2010, of your ability to match the additional Federal funds being made available to you this year. Regional Administrators should share such information with the Division of Grants Management via e-mail to Oborski.Pavlo@dol.gov. If State-wide alternative or reduced work schedules or other budgetary actions affect the funding available for State salaries, etc., and/or the State's ability to match, this should be reflected in the Regional Administrator notification and the grant amendment.

Each State needs to execute the appropriate grant amendment in order to complete its final FY 2010 grant award by submitting the amendment electronically in Grants.gov. The grant amendment package will include the following documents:

- a) Application for Federal Financial Assistance (SF 424)
To be completed on the Grants.gov website

- b) Budget Information - Non-Construction Programs (SF 424A)
To be completed on the Grants.gov website
- c) Signed Grant Agreement Amendment (Form OSHA 113)
Website: http://intranet.osha.gov/fso/LAP/fso/osp/SP_grants.html
To be scanned and submitted as an attachment in Grants.gov
- d) Narrative describing how the increase (or decrease, if applicable) is reflected in your revised budget. Please specify which object classes have been adjusted on the SF 424A.
To be submitted as an attachment in Grants.gov
- e) Other grant documents that require modification due to the revised budget (e.g., Supportive Cost Breakout listings, Personnel Funding Breakout, Organizational Chart, etc.).
To be submitted as an attachment in Grants.gov

States that are providing more than 50 percent of program funds should show, at a minimum, the additional funds total on a separate line on the Form OSHA 113 and show activities that are supported by additional funds on the SF 424A as well as on other supporting grant documents.

Review of amendments should be coordinated with your Regional Administrator so approved amendments can be submitted electronically in Grants.gov on or before February 19, 2010. The Funding Opportunity Number is **OSHA-23G-2010-002**.

Regions must submit a memorandum to the Directors of Administrative Programs and of Cooperative and State Programs for each amendment, reflecting recommendations for approval or disapproval of the grant amendment as submitted in Grants.gov by March 1, 2010. As soon as grant amendments have been reviewed and approved, the Department of Health and Human Services - Payment Management System will be updated to reflect the revised award levels.

Please direct questions regarding amendment modifications to your Regional Administrator.
