

# ED-900C – EDA Application Supplement for Construction Programs

## A. Metropolitan Area Review

A.1. Projects involving the development of hospitals, airports, libraries, water supply and distribution facilities, sewage and waste treatment works, highways, transportation facilities, water development, or land conservation within a metropolitan statistical area (MSA) require comments from the metropolitan area clearinghouse/agency. Does the proposed project involve any of the above identified developments within an MSA?

Yes  No

A.2. If Yes, please attach either:

- Comments from the responsible metropolitan area clearinghouse/agency and a statement that such comments have been considered; or
- An explanation as to why comments are not available; or
- A statement indicating the date the application was made available to the appropriate metropolitan area clearinghouse/agency and units of general local government for review and certifying that the application has been before the metropolitan area clearinghouse/agency for a period of 60 days without comments or recommendations.

## B. District Organization Project Administration

B.1. Will the District Organization for the region in which the project will be located administer the project for the applicant?

Yes  No

B.2. If Yes, you must certify to all of the following and indicate your certification by checking each box:

- The administration of the project is beyond the capacity of the applicant's current staff and would require hiring additional staff or contracting for such services;
- No local organization/business exists that could administer the project in a more efficient or cost-effective manner than the District Organization; and
- The District Organization will administer the project without subcontracting the work.

B.3. If the project will be administered by the District Organization and you did not certify to all of the above, explain below.

## C. Preliminary Engineering Report

To be considered for assistance, all construction and design applications must include a **Preliminary Engineering Report (PER)** that at a minimum provides the following information:

- C.1. Description of project components. Provide a general description of all project components involved in the project. Indicate whether the project involves the construction of new infrastructure or facilities or the renovation or replacement of existing ones. Describe each of the project components in terms of dimensions, quantities, capacities, square footage, etc.
- C.2. A statement verifying that the project components described in the engineering report are consistent with the EDA investment project description that is provided in Section B.2 of Form ED-900. Engineering reports that describe project components that are inconsistent with the EDA investment project description in Section B.2 of Form ED-900 will not be considered valid.
- C.3. Drawings showing the general layout and location of the existing site conditions and of the project components as well as location of any project beneficiary identified in Section B.9 of Form ED-900 that provide economic justification for the project, if any. Rough dimensions and quantities for major project components should be shown and labeled on the drawings. Drawings should clearly identify the project components that are being proposed. Applicants are encouraged to clarify such drawings, for example, through color coding, labeling, and other appropriate methods.
- C.4. A feasibility analysis for the constructability of the project. Include a review of the existing conditions and note particular features, alignments, and circumstances affecting construction of project components.
- C.5. The proposed method of construction. Indicate whether construction procurement will be done through competitive bid or other method. Indicate if any portion of the project is to be done by design/build, construction management at risk, the applicant's own forces, or a third-party construction manager. If an alternate construction procurement method (other than traditional design/bid/build with sealed competitive bid process) is proposed, a construction services procurement plan must be provided to EDA for approval in accordance with EDA's regulation at 13 C.F.R. § 305.6(a).
- C.6. The number of construction contracts anticipated. If multiple contracts are proposed, describe the project components included in each contract. If separate contracts are anticipated for demolition or site work, the budget information cost classification should reflect the estimated costs for these components. If project phasing is proposed, a project phasing request must be provided to EDA for approval per EDA's regulation at 13 C.F.R. § 305.9(a).
- C.7. A current detailed construction cost estimate for each of the project components. Show quantities, unit prices, and total costs and provide a basis for the determination of construction contingencies. The total of this estimate should match the construction line item of the SF-424C.
- C.8. Real property acquisition. If the budget includes costs for acquisition of real property, include a current fair market value appraisal completed by a certified appraiser for the property to be purchased.

- C.9. A list of all permits required for the proposed project and their current status. Identify all permits required; include the timeline to obtain the permits and discuss how the permitting relates to the overall project schedule. If the project crosses a railroad right-of-way or is within a railroad right-of-way, explain any permitting or approvals that may be required from the railroad or other authority and the timeframe for obtaining these permits or approvals.
- C.10. An overall estimated project schedule. This schedule should agree with the project schedule outlined in the ED-900. Include the number of months for each of the following:
- i. design period;
  - ii. period of time to obtain required permits;
  - iii. period of time to obtain any required easements or rights-of-way;
  - iv. solicitation of bids and awarding of contracts, and
  - v. construction period.
- C.11. Overall project budget breakdown. For each “cost classifications” line item that the applicant indicates will be included in the project budget on Form SF-424C, the applicant must provide a breakdown of the proposed project costs and tasks that is consistent with the detailed construction cost estimate for the project provided in the PER.

#### D. Title Requirements

D.1. Does the applicant currently hold title to all project facilities, underlying land, necessary easements, and rights-of-way required for the project?

Yes (go to question D.2)       No (explain below)

D.1.a. If No, does the applicant plan to obtain title?

D.1.a.i. Yes

How and when will the applicant obtain title? (After answering, go to question D.2)

D.1.a.ii. No

Please explain why not

D.1.b. If you indicated that the applicant does not currently have title and does not intend to obtain title, does the applicant hold a long-term lease or hold interest in project property for a period not less than the estimated useful life of the project?

D.1.b.i. Yes. Go to question D.2

D.1.b.ii. No. Please explain below how the applicant will satisfy EDA's title regulation at 13 C.F.R. § 314.7.

D.2. EDA regulations normally require recipients to provide a security interest and/or covenant of use in the real property or significant items of tangible personal property acquired or improved with EDA investment assistance (see 13 C.F.R. §§ 314.8 & 314.9). Will you be able to provide the required security interest?

Yes       No (explain how you will satisfy the requirements of 13 C.F.R. §§ 314.8 & 314.9)

D.3. Will real property or project facilities to be acquired or improved with EDA investment assistance, including any industrial or commercial park acreage, be mortgaged or used to collateralize any type of financing, including but not limited to bonds or tax credits, or is any real property to be used for the project currently mortgaged or being used as collateral?

Yes (explain below)       No

D.4. Describe any required State permits, easements, rights-of-way or leases necessary to construct, operate, and maintain the project.

D.5. Describe any liens, mortgages, other encumbrances, reservations, reversionary interests or other restrictions on the applicant's interest in the property.

D.6. Is the project located on a military or Department of Energy installation that is closed or scheduled for closure or realignment?

Yes  No

D.7. Does the project involve construction within a railroad's right-of-way or over a railroad crossing?

Yes (explain below)  No

D.8. Does the project include construction of a highway owned by a State or local government (other than the applicant)?

Yes (explain below)  No

**E. Sale or Lease**

E.1. Does the applicant intend to sell, lease, transfer, dedicate or otherwise convey any interest in the project facilities, underlying land, or any land improved with EDA investment assistance?

Yes (explain below)  No

E.2. Is the purpose of the project to construct facilities to serve an industrial or commercial park or sites owned by the applicant for sale or lease to private parties?

No  Yes

Identify the owners of the acreage, provide an estimate of the number of acres benefiting from the proposed investment and explain how EDA's requirements will continue to be met after any sale or lease.

Note: Applicants may be asked to provide documentation that EDA's requirements will continue to be met after the sale or lease of project property.

E.3. Is the purpose of the project to construct facilities to serve a privately owned industrial or commercial party or other privately owned sites for sale or lease?

No  Yes

If Yes, identify the owners of the acreage, estimate the number of acres benefiting from the proposed investment, and explain below how EDA's requirements will continue to be met after the sale or lease. Note that EDA may require that the private owner agree to certain restrictions on the use of the property and may require that those restrictions survive any sale or transfer of the property. In addition, EDA may require evidence that the private party has title to the park or site and may require the private party to provide other assurance that EDA determines are necessary to ensure that the property is used in a manner consistent with the project purpose. See 13 C.F.R. § 314.3(c) and § 314.7.

E.4. For privately owned land improved by the proposed project, is the private owner willing to enter into an agreement to limit the sale price of the improved land to its fair market value before the improvements for a reasonable period of time?

Yes (explain below)  No/Not applicable (no private owners)

E.5. Is the purpose of the project to construct, renovate or purchase a building?

Yes (explain below)  No

E.5.a. Will the building be leased in whole or in part?

Yes (explain below)     No

E.5.b. Is the purpose of the building to provide incubator space to new companies?

Yes (explain below)     No

E.5.c. Will there be limitations on the length of the lease term?

Yes (explain below)     No

E.5.d. Is the purpose of the project to provide building space to a single user or multiple users?

Yes                       No

E.5.e. Explain below the terms of any proposed lease.

## F. State Historic Preservation Requirements

Have comments from the appropriate State Historic Preservation Officer (SHPO) already been received?

Yes (attach comments)       No

Note: If comments have not already been received, the applicant will be required to submit materials to SHPO. Regardless of whether the applicant believes historic or archaeological artifacts are present, the applicant will be required work with its SHPO. Specific requirements for states' SHPOs can generally be found on their websites. Applicants can also request additional information from EDA Regional Offices.

Please note that the SHPO clearance process can be lengthy. When submitting this material to the SHPO, the applicant must request that the SHPO submit comments on the proposed project to the EDA Regional Office processing the application.

## G. National Environmental Policy Act (NEPA) Requirements

G.1. Please attach an environmental narrative and applicant certification clause using the template found on [www.eda.gov](http://www.eda.gov).

Federal agencies are required by law to assess the expected environmental impacts associated with proposed federal actions. Depending on its analysis of information submitted by the applicant, EDA may request additional information to better understand the current environmental conditions and the project elements that will affect the environment.

Comprehensive information is required to complete an environmental review in accordance with NEPA. Information must be provided for the:

- (i) site where the proposed project facilities will be constructed and the surrounding areas affected by its operation; and
- (ii) areas to be affected by any primary beneficiaries of the project.
- (iii) The information submitted must be sufficient to evaluate all reasonable alternatives to the proposed project and the direct and indirect environmental impacts of the project, as well as the cumulative impacts on the environment as defined in the regulations for implementing the procedural provisions of NEPA. See 40 C.F.R. parts 1500-1508.

The level of detail should be commensurate with the complexity and size of the project and the magnitude of the expected impact. Previously completed environmental impact documentation (assessments, impact statements, etc.) for activities in the region in which the proposed project will be located may be used as documentation.

## H. Business Incubators and Accelerators

Does the applicant intend to construct or renovate a business incubator, accelerator, commercialization center, or similar project?

No

Yes

Please attach a feasibility study demonstrating the need for the Project and an operational plan based on industry best practices demonstrating the Eligible Applicant's plan for ongoing successful operations. See the applicable NOFO for additional information and guidance.
