MISSION

The mission of the United States (U.S.) Department of Transportation (DOT) is to serve the U.S. by ensuring a fast, safe, efficient, accessible and convenient transportation system. The Mission of the National Highway Traffic Safety Administration (NHTSA), an operating mode of DOT, is to save lives, prevent injuries and reduce economic costs due to road traffic crashes, through education, research, safety standards and enforcement activity. To accomplish this, NHTSA awards grants to state and local governments, not-for-profit organizations, and other entities in support of motor vehicles and road traffic safety initiatives.

SECTION A - PROGRAM DESCRIPTION

A.1 PURPOSE AND OBJECTIVE

The purpose of the Cooperative Agreement (CA) is to develop and measure the effectiveness of a probation program that supervises Driving While Impaired (DWI) offenders to reduce recidivism. Specifically, NHTSA will provide assistance to support training, technical assistance, information sharing, and development among community supervision professionals. This support will be used to assist the Recipient in demonstrating the effectiveness of tools such as in-person and web-based education and training, and other activities to the probation community related to the following topics:

- Best practices for State and local community supervision providers in managing DWI offenders;
- Promotion of empirically supported tools and products aimed at improving assessment, treatment, rehabilitation, integration, and the reduction of recidivism of DWI offenders;
- The collection of alcohol and drug impaired driving recidivism data;
- Significant and emerging issues related to supervision of DWI offenders; and
- The identification of future needs of the supervision community as it relates to DWI offenders.

Additionally, the Recipient will offer insight on the community supervision perspective at meetings with impaired driving stakeholders by remaining engaged with criminal justice professionals such as law enforcement, prosecutors, judges, pretrial, probation, and parole officers.

A.2 PROGRAM AUTHORITY

NHTSA may enter into an assistance agreement with a State or local agency, authority, association, institution, or person to carry out highway safety research and development activities authorized under 23 U.S.C. § 403.

A.3 BACKGROUND

In 2018, there were 36,550 motor vehicle fatalities and 29 percent of them involved an alcohol-impaired driver with a blood alcohol concentration (BAC) of .08 grams per deciliter or more.¹ Alcohol-impaired drivers involved in fatal crashes are 4.5 times more likely to have prior convictions for driving while impaired (DWI) than those with no alcohol.² It's estimated that a drunk driver will operate a vehicle 80 times under the influence of alcohol before their first arrest and, thereafter, DWI offenders have shown a recidivism prevalence of 31 percent for arrests and 31.5 percent for convictions.^{3,4} Additionally, in NHTSA's most recent National Roadside Survey conducted in 2013 and 2014, 22 percent of drivers surveyed tested positive for potentially impairing drugs.⁵

NHTSA supports law enforcement to deter, detect, and arrest DWI offenders. NHTSA has developed programs that also focus on the role that prosecutors and judges play in reducing impaired driving. Recently, NHTSA has supported demonstration projects in post-conviction programs (probation, parole, and community-based corrections) to evaluate whether they may reduce recidivism among impaired driving offenders. These programs are staffed by professionals that this NOFO will refer to as “community supervision providers.”

Community supervision providers offer a unique position in the surveillance, rehabilitation and the reintegration of DWI offenders. Specifically, community supervision entities have the capability to utilize the Impaired Driving Assessment (IDA) tool to assess DWI offenders for risk of recidivism and refer them to proper treatment when necessary. Community supervision members can also serve as a liaison to other key criminal justice entities such as state and local probation organizations and correctional facilities. This criminal justice network can be leveraged to educate the greater probation community on the intricacies and issues regarding the supervision of DWI offenders.

- 1) Recipient-owned or rented vehicles or government-owned vehicles; or
 - 2) Privately-owned vehicles when on performing under the Cooperative agreement.

NHTSA, on an annual basis, will recertify whether the Cooperative Agreement is still in the best interest of the Government. During the recertification process, NHTSA will determine: 1) If the Cooperative Agreement is stimulating the public purpose for which the agreement is intended; 2) Through market research if other organizations are capable of providing the same or higher levels of stimulation; and, 3) If NHTSA can still provide the financial resources necessary to continue the agreement.

If NHTSA makes a determination that continuing this agreement is not in the best interest of the government for any of the conditions listed above, the Cooperative Agreement will be terminated in accordance with Section H Other Information, H.8 Termination.

H.12 CONFLICT OF INTEREST

It is U.S. DOT policy to award Cooperative Agreements only to those Applicants whose objectivity is not impaired because of any related past, present, or planned interest, financial or otherwise, in organizations regulated by U.S. DOT, or in organizations whose interests may be substantially affected by Departmental activities and which is related to work specified in this Notice of Funding Opportunity (NOFO). Based on this policy, if, after award, the Recipient discovers a conflict of interest with respect to the Cooperative Agreement that could reasonably have been known prior to the award, an immediate and full disclosure shall be made in writing to the Contracting Officer. The disclosure shall include a full description of the conflict along with a description of the action the recipient has taken, or proposes to take, to avoid or mitigate such conflict.

(A) The Applicant shall provide a statement in its proposal which describes in a concise manner all past, present or planned organizational, financial, contractual or other interest(s) with an organization regulated by U.S. DOT, or with an organization whose interests may be affected substantially by Departmental activities, and which is related to the work under this Notice of Funding Opportunity (NOFO). The interest(s) described shall include those of the Applicant, its affiliates, proposed consultants, proposed subcontractors and key personnel of any of the above. Past interest shall be limited to within one year of the date of the Applicant's technical proposal. Key personnel shall include any person owning more than 20% interest in the Applicant, and the Applicant's corporate officers, its senior managers and any employee who is responsible for making a decision or taking an action under the Cooperative Agreement where the decision or action can have an economic or other impact on the interests of a regulated or affected organization.

(B) The Applicant shall describe in detail why it believes, in light of the interest(s) identified in (a) above, that performance of the proposed cooperative agreement can be accomplished in an impartial and objective manner.

(C) In the absence of any relevant interest identified in (a) above, the Applicant shall submit in its proposal a statement certifying that to its best knowledge and belief no affiliation exists relevant to possible conflicts of interest. The Applicant must obtain the same information from potential subcontractors prior to award of a subcontract under the resultant Cooperative Agreement.

(D) The NHTSA Contracting Officer will review the statement submitted and may require additional relevant information from the Applicant. All such information, and any other relevant information known to U.S. DOT, will be used to determine whether an award to the Applicant may create a conflict of interest. If any such conflict of interest is found to exist, the NHTSA Contracting Officer may (1) disqualify the Applicant, or (2) determine that it is otherwise in the best interest of the agency to contract with the Applicant and include appropriate provisions to mitigate or avoid such conflict in the Cooperative Agreement awarded.

(E) The refusal to provide the disclosure or representation, or any additional information required, may result in disqualification of the Applicant for award. If nondisclosure or misrepresentation is discovered after award, the resulting Cooperative Agreement may be terminated. If after award, the Recipient discovers a conflict of interest with respect to the Cooperative Agreement awarded as a result of the Cooperative Agreement Announcement, which could not reasonably have been known prior to award, an immediate and full disclosure shall be made in writing to the NHTSA Contracting Officer. The disclosure shall include a full description of the conflict, a description of the action the Recipient has taken, or proposes to take, to avoid, or mitigate such conflict. The NHTSA Contracting Officer may, however, terminate the Cooperative Agreement for convenience if he or she deems that termination is in the best interest of the Government.
