A. PROGRAM DESCRIPTION

Executive Summary

U.S. Consulate General Karachi is seeking proposals to encourage tolerance, peace building, and critical thinking, and strengthen cross-border linkages between Pakistan and India through an academic curriculum based on shared culture, arts, and/or history. Proposals have a funding floor of \$25,000 and a funding ceiling of \$50,000. Proposals should cover a one-year period of performance in Pakistan's Sindh province and an Indian state to be specified by the grantee. Please review below the full Notice of Funding Opportunity for the complete list of requirements.

Background

The U.S. Mission to Pakistan is committed to promoting constructive engagement on regional security and peace between Pakistan and India. The neighboring countries share deep cultural and historical ties yet there is deep and widespread mistrust between the two populations. Building off of the United States' longstanding relationship with both countries, we seek to promote peace between the two countries by promoting youth to critically think through analysis of culture, arts, and/or history from each country's perspective to form a sense of shared identity and develop understanding for a prosperous future for both countries.

Project Goal

We seek proposals that further the development of critical thinking within the youth of Pakistan and India. Over the period of 12 months, the grantee will use culture, arts, and/or history of the partition and onwards as a tool for engagement. The training or engagement will help the participating youth foster critical thinking by presenting them with culture, arts, and/or history from both of the countries perspectives, allowing them to analyze the facts, tackle biasness, and have a more holistic approach towards a shared identity. Overall, the program should develop the skill of critical analysis in the participants to promote critical thought in different facets of their lives.

To accomplish this goal, the project includes two core objectives:

1. Increase participant's understanding of Pakistan and India's shared culture, arts, and history and ability to identify areas of mutual cooperation in the future.
2. Develop two reading, activity, and/or instructional manuals – one for participants and one for group leaders or instructors on how to facilitate the process for participants.

Project Objectives

As part of the funding, the grantee should develop a culture, arts, and/or history course that is specifically tailored for youth. The course should consist of culture, arts, and/or history as it is told from the Pakistani and Indian perspective, from the time of partition and onwards. It should also showcase the role the U.S. played in the development of both countries following Independence. The training should be conducted in Sindh as well as a specific part in India, with virtual interaction between the participants from both countries. The virtual interaction would facilitate the development of the course as well as to help participants develop an understanding of each other, building tolerance.

Ultimately, the project will promote critical thinking, counter extremism, and build tolerance in both countries. Studies have shown a link between binary thinking and susceptibility to extremist ideologies, and the ability to analyze a sensitive issue with nuance and critical thought is applicable to broader issues of stability and responsible citizenship.

Participants and Audiences

For purposes of this grant, "participants" are defined as citizens of Pakistan and India. The target audience is youth both male and female, specifically school students between the ages of 14-23 from Pakistan and India. The trainings can take place in schools, local community centers, and/or any space the organization deems fit for youth to actively participate.

All proposals should:

- Address how the project will contribute to one or more of the objectives listed above;
- Enumerate specific outputs and outcomes to be achieved by the end of the grant period, using the Monitoring & Evaluation Performance Management Plan (PMP) [Attachment 3];
- Describe involvement of American participants, expert/s, organization/s, or institution/s;
- Clearly specify the audiences to be reached and the geographic locations of program activities. Programs proposed in multiple locations should explain how that will be accomplished. The grantee must demonstrate capacity to implement activities in locations and with audiences proposed;
- Describe how elements of the project will have a multiplier effect or be sustainable beyond the life of the grant;
- Include a traditional and/or social media plan for marketing or advertising program activities and outcomes;
- Demonstrate competency to manage all financial and oversight aspects of the project, including participant costs and transparent arrangements of sub-grant relationships with partner organizations, if applicable.

The Public Affairs Section will not support the following activities or expenses under this funding opportunity:

- The purchase of space or buildings in support of program activities;
- Development projects;
- Construction projects;
- Individual travel to conferences;
- Scholarships to support educational opportunities or study for individuals*;
- Completion of activities begun with other funds;
- Fundraising or fund development projects;
- Projects that are inherently political in nature or that contain the appearance of partisanship/support to an individual or single party in electoral campaigns;
- Political party or lobbying activities in support of political parties;
- Projects that support specific religious activities;
- Cash prizes for competitions.

*Individuals interested in educational exchange or study opportunities in the United States should visit the United States Educational Foundation in Pakistan website at: <http://www.usefpakistan.org/> for more information on available programs.

Monitoring & Evaluation

Proposals must include a Monitoring and Evaluation (M&E) Performance Management Plan (PMP). Attachment 3 of this funding opportunity contains a template that should be used to fulfill this requirement. The M&E PMP shows how applicants intend to measure and demonstrate progress towards the project's objectives and goals.

The selected applicant(s) will be required to submit an approved M&E PMP before an award is signed. The selected applicant will be required to work with PAS Monitoring and Evaluation Specialist to ensure the M&E PMP achieves an expected level of expertise and meets PAS objectives.

The key components to the PMP are as follows:

1. Monitoring and Evaluation Narrative: Applicants should describe how they intend to monitor and evaluate the activities of their award and collect data that tracks award performance. In addition, the applicant should describe any M&E processes, including key personnel, management structure (where M&E fits into the overall program's staff structure), technology, and as well provide a brief budget narrative explaining any line item expenditures for M&E listed in the program's budget.

2. Monitoring and Evaluation Datasheet: The applicant must include their proposed activities and their expected outputs and outcomes as well as the goals and objectives as written in the NOFO. The datasheet's purpose is to explicitly illustrate how a project's activities lead to tangible results (such as increased beneficiary skills, knowledge, or attitudes) that ultimately address a PAS objective. For more information, please see Attachment 3.1: Instructions.

Section 3—Budget

A. Budget and Budget Detail: Applicants must submit a detailed budget and budget narrative justification utilizing the template provided with the funding opportunity (Attachment 4). Line item expenditures should be listed in the greatest possible detail. Personnel salaries should include the level of effort and the rate of pay, which should cover the percentage of time each staff member will dedicate to grant-based activities. If your organization is charging an indirect cost rate, you must apply it to the modified total budget costs (MTDC), refer to 2CFR§200.68. Budgets that are not in the provided format will not be considered. **Budgets shall be submitted in U.S. dollars** and final grant agreements will be conducted in U.S. dollars.

B. Audit Requirements: Please note the audit requirements for Department of State awards in the Standard Terms and Conditions <https://www.state.gov/m/a/ope/index.htm> and 2CFR200, Subpart F – Audit Requirements. The cost of the required audits may be charged either as an allowable direct cost to the award OR included in the organization's established indirect costs in the award's detailed budget.

C. Visa Fees: Include all visa application and related fees in your budget as applicable. Please note DS-2019s for post-funded programs must be submitted directly by the award recipient. If you anticipate your program will include the DS-2019 visa processing, your organization must be a registered Designated Sponsoring Organization. If an individual for this type of position has not been identified, the applicant may submit a 1-page position description, identifying the qualifications and skills required for that position, in lieu of a résumé.

B. Project Partners: Letters of support should be included for sub-recipients or other partners. The letters must identify the type of relationship to be entered into (formal or informal), the roles and responsibilities of each partner in relation to the proposed project

Special Characters in Submissions

Grants.gov does not accept all UTF-8 special characters in file attachment names. Applicants are able to enter all special characters from the UTF-8 character set when submitting applications and information to Grants.gov. However, if the grantor's system is not yet compatible with these special characters, the grantor system may produce garbled or missing text in the application. As a result, the application may be rejected.

Review the application instructions provided by the award-making agency for their attachment restrictions. You should also review the instructions on the form you are completing.

If there are no special restrictions for file names identified by the agency or in the form, then the file name restrictions are as follows:

- Please limit file names to 50 or fewer characters
- Do not attach any documents with the same name. All attachments should have a unique name.
- Please use only the following UTF-8 characters when naming your attachments: A-Z, a-z, 0-9, underscore, hyphen, space, period, parenthesis, curly braces, square brackets, ampersand, tilde, exclamation point, comma, semi colon, apostrophe, at sign, number sign, dollar sign, percent sign, plus sign, and equal sign. Attachments that do not follow this rule may cause the entire application to be rejected or cause issues during processing.

Risk Analysis and Management

To qualify for final consideration, certain applicants must undertake the Risk Analysis and Management (RAM) vetting process by providing Risk Analysis Information (RAI) about their “key individuals” (i.e., individuals with the ability to control applicant organizations’ funds), including “key individuals” from selected sub-recipients. **Please note: these individuals could be different from the key personnel listed in the section 4 of required documents.** The purpose

of vetting potential contractors and grantees is to reduce the risk that foreign assistance funding is provided to terrorists or their supporters. **Potential grantees will be notified separately if RAI is required.** Applicants submit key individuals' RAI by completing the Risk Analysis Information Form, DS-4184, through the secure web portal at <https://ramportal.state.gov>. The DS-4184 requests the following RAI for each key individual: Full Name; Aliases; Gender; Birth Place; Birthdate; Home/Work Addresses; Phone Numbers; Employer; Professional Title; Email Addresses; Skype ID (if included, email address is also required); Numbers from All Official IDs (e.g., passports, ID cards, etc.); Nationalities; and Social Security Number (if U.S. person). Questions about the DS-4184 form may be emailed to RAM@state.gov. Failure to submit information when requested, or failure to pass vetting, may be grounds for rejecting your proposal.

Given the volume of applications, review may take up to 90 days, and we are unable to individually confirm receipt of proposals.

E. REVIEW AND SELECTION PROCESS

Each technically eligible application submitted under this announcement will be evaluated and rated based on the criteria detailed below. The criteria are designed to assess the quality of the proposed project, and to determine the likelihood of its success. The criteria are closely related and are considered as a whole in judging the overall quality of an application. Applications will be reviewed based on their fullness, coherence, clarity, and attention to detail.

Past performance on grants awarded by the U.S. Department of State, other United States government, or international donor agencies may also be considered. The proposal submitted by your organization should comply with the requirements of 2 CFR 200 relevant to your organization and the activities of your proposal.

PAS reviews all proposals for eligibility. Eligible proposals will be subject to compliance of Federal and Public Diplomacy regulations and guidelines and may also be reviewed by the Office of the Legal Adviser or by other Department elements. Final technical authority for assistance awards resides with the Department's Grants Division A/OPE.

All submissions are screened for technical eligibility. If a submission is missing any required forms/documents listed in section D, it will be considered ineligible and will not be reviewed by the grants review committee.

Proposals will be approved based on an evaluation of how the proposal meets the solicitation review criteria, U.S. foreign policy objectives, the priority needs of the Public Affairs Section, and availability of funding. A Grants Review Committee will evaluate all technically eligible proposals.

Review criteria will include:

1. Project Justification, Sustainability, and Impact on U.S. Public Diplomacy Goals (30 points) – The project is likely to provide maximum impact in furthering the broader U.S. Public Diplomacy policy goals. The proposal contains a compelling justification that demonstrates an in-depth understanding of the environment in Pakistan and cites specific factors creating/influencing the need for the proposed project. The proposal has a sound theory of change to address the stated need. Elements of the project will have a multiplier effect and be sustainable beyond the life of the grant. A good multiplier effect may include but is not limited to, plans to build lasting networks for direct and indirect beneficiaries, follow-on training and mentoring, and continued use of project deliverables. Sustainability may include demonstrating capacity-building results, a plan to generate revenue, or interest and support from the private sector.

2. Planning and Feasibility (25 points) – The project plan is well developed, with sufficient detail about how activities will be carried out. The proposal specifies target audiences, participant recruitment, and geographic areas of implementation. The proposal outlines clear, achievable objectives. The proposal includes a reasonable implementation timeline. The project scope is appropriate and clearly defined.

3. Organization’s Record and Capacity (15 points) – The organization has expertise in the subject area and demonstrates the ability to perform the proposed activities. The organization demonstrates capacity for successful planning and responsible fiscal management. Applicants who have received grant funds previously have been compliant with applicable rules and regulations. Where partners are described, the applicant details each partner’s respective role and provides curriculum vitae (CVs) for persons responsible for the project and financial administration. Proposed personnel, institutional resources, and partners are adequate and appropriate.

4. Cost-Effectiveness (20 points) – The budget and narrative justification are sufficiently detailed. Costs are reasonable in relation to the proposed activities and anticipated results. The budget is realistic, accounting for all necessary expenses to achieve proposed activities. The results and proposed outcomes justify the total cost of the project. Budget items are reasonable, allowable, and allocable.

5. Monitoring and Evaluation (10 points) – M&E points will be considered based on two subsets of criteria: (1) Technical M&E; and (2) Use of key M&E components in the narrative. Specifically, scoring will be based on the following:

Technical M&E: The grantee completed a draft of the M&E PMP (Attachments 3 & 3.1). This document is only intended to be in draft form as it will be finalized during negotiation and updated throughout the program. In addition, this document is a tool to help grantees formulate their programs in line with a theory of change.

Program Design: Does the proposed program address a problem, identify a target audience, and is there a clear theory of change on how the program will address that problem, stating in some form “*If* these activities are completed, *then* these outcomes will result in...”

Learning: If the proposal is from a prior grantee, the proposal should discuss how the grantee has adapted, improved or otherwise modified previous iterations of the program based on learning from previous experience/past performance. If this is a new grantee or new project, the proposal should demonstrate that the applicant used research, community feedback, prior experience or other evidence to direct program design.

Projects should demonstrate the capacity for engaging in performance management. Expenses directly associated with monitoring and evaluation are considered allowable.

F. FEDERAL AWARD ADMINISTRATION INFORMATION
