Project Name:
Implementer Name:
Project Goal:
Theory of Change:

	Indicator	Definition How is it evaluated?	Baseline	Q1 Target	Q2 Target	Q3 Target	Q4 Target	Q5 Target	Q6 Target	Q7 Target	Q8 Target	Total Target	Data Source	Reporting (Where will it be reported)	Frequency (How often will data be collected)
Objective 1:															
Immediate Outcome: *Immediate outcomes describe the direct results of program implementation, such as the knowledge or proficiency assistance beneficiaries gain from training.*															
[Outcome Indicator]															
[Outcome Indicator]															
[Outcome Indicator]															
Intermediate Outcome: *Intermediate outcomes describe the mid-term change expected to result from program implementation. Intermediate outcomes may describe changes in beneficiaries' behavior due to the knowledge or proficiency gains observed in the immediate outcomes.*															
[Outcome Indicator]															
[Outcome Indicator]															
[Outcome Indicator]															
End Outcome: *End outcomes describe the final result that program implementation is expected to contribute to. End outcomes are closely tied to the program objective.*
