A. Program Description

Authority:

48 U.S. Code § 1469d. General technical assistance.

Assistance Listing:

15.875

Program Background, Objectives, and Goals:

The Office of Insular Affairs (OIA) is requesting proposals for Fiscal Year 2024 for its Coral Reef & Natural Resources (CRNR) Initiative. The CRNR Initiative provides grant funding to protect the health of all natural resources including coral reef ecosystems in the U.S. insular areas for the long-term economic and social benefit to their island populations including control, prevention, rapid response, eradication, and other efforts to combat invasive species and restore native species.

These resources are experiencing a variety of stresses including poor water quality, over-harvesting, coastal development, disease, flooding, erosion, and bleaching, directly related to climate change and related extreme weather events.

The Coral Reef Initiative and Natural Resources program is expected to continue to provide financial assistance to the insular areas to protect natural resources and to combat invasive species related to focal themes and focal species identified in the Regional Biosecurity Plan. Projects that support and bolster the efforts and resilience of each of the U.S. territories and the freely associated states to set their own priorities for natural resource management are encouraged. Projects should benefit underserved or disadvantaged communities and describe how so in the proposal. In addition, priority will be given to projects that may not have alternate sources of federal funds.

Priority will be given to projects that help the insular areas address a variety of threats to natural resources including:

- Invasives projects, including aquatic and terrestrial plant, insect, and animal species that include the following actions:
 - Biosecurity
 - Eradication
 - Suppression and control
 - Rapid response
 - Public education and outreach
- Projects that replant native species, restore native vegetation, and/or restore damaged lands due to natural or human-related activities.
- Projects that protect and/or re-introduce native species that are endangered or have been impacted by invasive species.
- Projects identified as priorities and needs in local priority resolutions, plans, and documents such as the U.S. All Islands Coral Reef Committee Chair's Report (please

include a hyperlink to plans, documents, resolutions, etc or submit a copy with your application).

- Projects that promote joint action on topics that will benefit multi-jurisdictional coral reef and/or natural resource issues.
- Capacity building for natural resource management projects including planning, education and training projects (such as the Coral Fellows Program).
- Public outreach and education projects for natural resource issues.
- Projects that protect coral reefs and natural resources.
- Projects that mitigate coral diseases and bleaching (including coastal protection and emergency response planning),
- Coral reef restoration projects, including enhancement of population resilience and improving coral health and survival.
- Projects that improve water quality to support coral reef health.
- Projects to reduce land-based sources of pollution including developing, implementing and coordinating watershed management plans,

These projects will receive extra points in the scoring of the proposal:

- Projects that respond to coral reef or invasive species-related disaster-related or emergency response projects.
- Projects identified in local strategic invasive species action plans, coral reef restoration plans, and/or restoration plans, including updates to previously funded plans by OIA *(please include a hyperlink to all relevant documents or plans, or submit a copy with your application)*.
- Projects that consider indigenous knowledge and the cultural importance of island and coastal ecosystems in its project design and implementation.
- Projects that demonstrate nature-based solutions including the protection and improvement of coastal, coral and island ecosystems.

The U.S. insular areas include the United States territories of the U.S. Virgin Islands, Guam, the Commonwealth of the Northern Mariana Islands, and American Samoa, as well as the independent Freely Associated States of the Republic of the Marshall Islands, the Federated States of Micronesia, and the Republic of Palau.

D2. Content and Form of Application Submission

SF-424, Application for Federal Assistance

Applicants must submit the appropriate Standard Form (SF)-424, Application for Federal Assistance. All applicants must complete the standard SF-424, Application for Federal Assistance. The required application forms are available with this announcement on Grants.gov. The SF-424, Application for Federal Assistance must be complete, and signed and dated. Please note: Enter only the amount requested from this Federal program in the “Federal” funding box on the SF-424 Application form. Include any other Federal sources of funding in the “Other” box and provide details on those Federal source(s) and funding amount(s) in the required Budget Narrative (see the “Budget Narrative” section below).

On your SF-424, you must include the UEI for the office that the funding flows through. For example, if your office is part of a larger local government, and the funding flows through the Department of Treasury/Administration/Finance/etc., **you must use that office's UEI, not your office's.** The same applies for the reverse, if your past grant funding had flowed through your office, but a different office submits your application, **be sure they use your office's UEI.** This may mean you have to submit your proposal from your own office moving forward.

All applicants must submit the signed and dated SF-424B, Assurances for Non-Construction Programs form. The SF-424B, Assurances for Non-Construction Programs are available at <https://www.grants.gov/web/grants/forms/sf-424-family.html>

Project Summary

Signed and Dated Cover Letter: The cover letter should briefly summarize the application and be signed by an Authorized Representative of the applicant organization. Hard copies do not need to be mailed. Cover letters should be addressed to:

Carmen G. Cantor
Assistant Secretary Insular and International Affairs
U.S. Department of the Interior 1849 C Street, N.W.
Mailstop 3119
Washington, D.C. 20240

Project Narrative

Application Preparation: Applications should be prepared and submitted by the entity who would receive the grant award. Applications submitted and prepared by a third party, such as an existing contractor or a potential contractor who may benefit from the grant, are not considered allowable. Please note that grant recipients must follow the applicable procurement procedures contained in 2 CFR 200 when procuring services and goods under OIA grants.

Application Format: OIA does not require a standard narrative format; however, your proposal should include all the following elements to receive full consideration:

1. Detailed Project Description(s): Describe the project(s) being proposed in detail.

2. Detailed Project Timeline(s): Provide a detailed project timeline for completion of each proposed project.

3. Statement of Need: Describe why this project is necessary and include supporting information. Summarize previous or ongoing efforts (of your organization as well as outside organizations) relevant to the proposed work.

Performance Goals

All applications must include at least one performance measure (output & outcome) that corresponds to the proposed project objective. If the grant is chosen for award, the applicant will need to report on the performance measure in narrative project reports that are submitted. The narrative portion of the application must:

- Describe the expected outputs and the potential outcomes to communities, the economy, and the environment.
- Describe how the project supports the Agency's priorities described in Section A2.
- Describe how progress toward achieving the expected outputs and social, economic, and environmental outcomes will be tracked and measured.

Please note that the performance measures need to be reported on in every Performance Progress Report submitted. If performance goals are not being met, a detailed explanation of why they are not being met should be included in the report.

Examples:

If no such overlap or duplication exists, state, “There are no overlaps or duplication between this application and any of our other Federal applications or funded projects, including in regards to activities, costs, or time commitment of key personnel”. If any such overlap exists, provide a complete description of overlaps or duplications between this proposal and any other federally funded project or application in regards to activities, costs, and time commitment of key personnel, as applicable. Provide a copy of any overlapping or duplicative proposal submitted to any other potential funding entity and identify when that proposal was submitted, to whom (entity name and program), and when you anticipate being notified of their funding decision. When overlap exists, your statement must end with “We understand that if at any time we receive funding from another source that is duplicative of the funding we are requesting from the Office of Insular Affairs in this application, we will immediately notify the Office of Insular Affairs point of contact identified in this Funding Opportunity in writing.

D3. Unique Entity Identifier and System for Award Management (SAM)

Identifier and System for Award Management (SAM.gov) Registration: (DOI Standard Template Language)

This requirement does not apply to individuals applying for funds as an individual (i.e., unrelated to any business or nonprofit organization you may own, operate, or work within), or any entity with an exception to bypass SAM.gov registration with prior approval from the funding bureau or office in accordance with bureau or office policy. All other applicants are required to register in SAM.gov prior to submitting a Federal award application and obtain a [Unique Entity Identifier \(UEI\)](#) which replaced the Data Universal Numbering System (DUNS) number from Dun & Bradstreet in April 2022. A Federal award may not be made to an applicant that has not completed the SAM.gov registration. If an applicant selected for funding has not completed their SAM.gov registration by the time the program is ready to make an award, the program may determine the applicant is not qualified to receive an award. Federal award recipients must also continue to maintain an active SAM.gov registration with current information through the life of their Federal award(s). See the “Submission Requirements” section of this document below for more information on SAM.gov registration. There is no cost to register with SAM.gov. There are third-party vendors who will charge a fee in exchange for registering entities with SAM.gov; please be aware you can register and request help for free.

Register with the System for Award Management (SAM)

Applicants can register on the [SAM.gov](#) website. The “Help” tab on the website contains User Guides and other information to assist you with registration. The Grants.gov “[Register with SAM](#)” page also provides detailed instructions. Applicants can contact the supporting Federal Service Desk for help registering in SAM. Once registered in SAM, entities must renew and revalidate their SAM registration at least once every 12 months from the date previously

registered. Entities are strongly encouraged to revalidate their registration as often as needed to ensure their information is up to date and reflects changes that may have been made to the entity's IRS information. If applicable, foreign entities who want to receive payment directly to a U.S. bank account must enter and maintain valid, current banking information in SAM.

D4. Submission Dates and Times

Due Date for Applications

03/15/2024

Application Due Date Explanation

Electronically submitted applications must be submitted no later than 5:00 p.m., ET, on the listed application due date.

D5. Intergovernmental Review

An intergovernmental review may be required for applications submissions from a U.S. state or local government prior to submission. Applicants must contact their State's Single Point of Contact (SPOC) to comply with the state's process under [Executive Order 12372](#).

D6. Funding Restrictions

The Federal awarding agency that provides the largest amount of direct funding to your organization is your cognizant agency for indirect costs, unless otherwise assigned by the White House Office of Management and Budget (OMB). If the Department of the Interior is your organization's cognizant agency, the Interior Business Center will negotiate your indirect cost rate. Contact the Interior Business Center by phone 916-930-3803 or using the [IBC Email Submission Form](#). See the [IBC Website](https://www.doi.gov/ibc/services/finance/indirect-cost-services) <https://www.doi.gov/ibc/services/finance/indirect-cost-services> for more information.

Organizations must have an active Federal award before they can submit an indirect cost rate proposal to their cognizant agency. Failure to establish an approved rate during the award period renders all costs otherwise allocable as indirect costs unallowable under the award. Recipients must have prior written approval from the OIA to use amounts budgeted for direct costs to satisfy cost-share or match requirements or to cover unallowable indirect costs. Recipients shall not shift unallowable indirect costs to another Federal award unless specifically authorized to do so by legislation.

Required Indirect Cost Statement to be submitted with Application

All organizations must include the applicable statement from the following list in their application, and attach to their application any documentation identified in the applicable statement:

We are:

- A U.S. state, territorial or local government entity receiving more than \$35 million in direct Federal funding each year with an indirect cost rate of [insert rate]. We submit our

indirect cost rate proposals to our cognizant agency. Attached is a copy of our most recently approved rate agreement/certification.

- A U.S. state, territorial or local government entity receiving less than \$35 million in direct Federal funding with an indirect cost rate of [insert rate]. We have prepared and will retain for audit an indirect cost rate proposal and related documentation.
- A [insert your organization type; U.S. states, territories and local governments, do not use this statement] that has previously negotiated or currently has an approved indirect cost rate with our cognizant agency. Our indirect cost rate is [insert rate]. [Insert either: “Attached is a copy of our most recently approved but expired rate agreement. In the event an award is made, we will submit an indirect cost rate proposal to our cognizant agency within 90 calendar days after the award is made.” or “Attached is a copy of our current negotiated indirect cost rate agreement.”]
- A [insert your organization type] that has never submitted an indirect cost rate proposal to our cognizant agency. Our indirect cost rate is [insert rate]. If we receive an award, we will submit an indirect cost rate proposal to our cognizant agency within 90 calendar days after the award date.
- A [insert your organization type] that has never submitted an indirect cost rate proposal to our cognizant agency and has an indirect cost rate that is lower than 10%. Our indirect cost rate is [insert rate; must be lower than 10%]. However, if we receive an award we will not be able to meet the requirement to submit an indirect cost rate proposal to our cognizant agency within 90 calendar days after award. We request as a condition of award to charge a flat indirect cost rate of [insert rate; must be lower than 10%] against [insert a clear description of the direct cost base against which your rate is charged (e.g., salaries; salaries and fringe benefits; or modified total direct costs). However, please note that your organization cannot charge indirect costs in excess of the indirect costs that would be recovered if applied against modified total direct costs as defined in [§2 CFR 200.68](#)]. We understand that we must notify the OIA in writing if we establish an approved rate with our cognizant agency at any point during the award period.
- A [insert your organization type] that has never submitted an indirect cost rate proposal to our cognizant agency and has an indirect cost rate that is 10% or higher. Our indirect cost rate is [insert your organization’s indirect rate; must be 10% or higher]. However, if we receive an award we will not be able to meet the requirement to submit an indirect cost rate proposal to our cognizant agency within 90 calendar days after award. We request as a condition of award to charge a flat *de minimis* indirect cost rate of 10% to be charged against modified total direct project costs as defined in [2 CFR §200.68](#). We understand that we must notify the OIA in writing if we establish a negotiated rate with our cognizant agency at any point during the award period. We understand that additional Federal funds may not be available to support an unexpected increase in indirect costs during the project period and that such changes are subject to review, negotiation, and prior approval by OIA
- A [insert your organization type] that will charge all costs directly.

Application Restrictions

Applications should not include requests to fund force accounts:

Force Accounts: A force account refers to a grantee’s own (existing) personnel being charged to the grant. In general, OIA is opposed to funding force accounts with its grants, however, outside

expertise and consultant services will be considered if detailed in the project narrative and budget.

OIA Technical Assistance Program personnel cannot review proposals before they are submitted for any reason. We can provide technical assistance with grants.gov, or other help desk issues but cannot provide any other assistance with writing or reviewing your proposal before submission due to the competitive nature of the process and prohibitions on providing unfair advantage to one applicant over another.

Financial Capabilities

All applicants must answer the following questions:

1. Does your organization have a FAPIIS record, or any adverse performance information (yes/no)?
2. Does your organization undergo an annual single audit or independent financial audit (Yes/No)? Was the audit uploaded on the single audit clearinghouse? If so, please provide the EIN number for the audit. If it was not uploaded, please provide a copy. Please specify the last audit year that was completed and include a copy of this audit. Did your organization receive an unqualified opinion on this audit (Yes/No)? If no, did your organization receive a qualified, adverse, or disclaimer of opinion on the audit (yes/no)?
If you do not have a recent audit, please answer the remaining questions.
3. Does your organization have independent financial capabilities that can comply with the financial management and accounting requirements detailed in 2 CFR 200, including, but not limited to, policies and procedures in place that meet the financial management standards in 2 CFR §200.302 (yes/no)?
4. Does your organization have a financial unit? If so, please describe the staffing and structure (such as the number of CPAs, utilization of accounting software etc.)

E2. Review and Selection Process

Prior to award, the program will review any applicant statement regarding potential overlap or duplication between the project to be funded and any other funded or proposed project in terms of activities, funding, or time commitment of key personnel. Depending on the circumstances, the program may request modification to the application, other pending applications, or an active award, as needed to eliminate any duplication of effort, or the Bureau may choose not to fund the selected project.

The program may not make a Federal award to an applicant that has not completed the SAM.gov registration. If an applicant selected for funding has not completed their SAM.gov registration by the time the Bureau is ready to make an award, the program may determine that the applicant is not qualified to receive an award. The program can use that determination as a basis for making an award to another applicant.

Prior to award, the program will evaluate the risk posed by applicants as required in 2 CFR 200.205. Programs document applicant risk evaluations using the Bureau's "Financial Assistance Recipient Risk Assessment" form. Prior to approving awards for Federal funding in excess of the simplified acquisition threshold (currently \$250,000), the Bureau is required to review and consider any information about or from the applicant found in the Federal Awardee Performance and Integrity Information System. The Bureau will consider this information when completing the risk review. The Bureau uses the results of the risk evaluation to establish monitoring plans, recipient reporting frequency requirements, and to determine if one or more of the specific award conditions in 2 CFR 200.207 should be applied the award.

The CRNR Review Committee will review, score and evaluate all eligible applications. The Review Committee will provide recommendations to the Assistant Secretary for Insular and International Affairs for final project selection. The Assistant Secretary will select the successful proposals. The Assistant Secretary and/or designated official will consider the merit review, as well as the amount of funds available and the following program policy factors when making recommendations for funding:

1. Geographic distribution of funding
2. Emergency Situations

All applications for funding will be considered using the criteria outlined above. In order to comply with financial assistance regulations, 2 CFR 200 "Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards," past performance information will be recognized during the selection process. Scores will be provided to the applicant if requested.

E3. CFR – Regulatory Information

See the Office of Insular Affairs's Award Terms and Conditions for the general administrative and national policy requirements applicable to Service awards. OIA will communicate any other program- or project-specific special terms and conditions to recipients in their notices of award.

Under 2 CFR §200.319(b)(1) it is reasonable for a recipient or subrecipient, acting in accordance with its own sound business judgment, to include uninterrupted service delivery requirements in its contracts under Federal financial assistance awards, as necessary, and when otherwise consistent with Federal law. This is a case-by-case determination made by the recipient or subrecipient based on the particular project or services in question.

F3. Reporting

Financial Reports

All recipients must use the [SF-425, Federal Financial Report](#) form for financial reporting. At a minimum, all recipients must submit a **final** financial report. Final reports are due no later than 120 calendar days after the award period of performance end date or termination date. For awards with periods of performance longer than 12 months, recipients are required to submit **interim** financial reports on the frequency established in the Notice of Award. The only exception to the interim financial reporting requirement is if the recipient is required to use the SF 270/271 to request payment and requests payment at least once annually through the entire award period of performance. We will describe all financial reporting requirements in the Notice of Award.

The standard grant reporting requirements are listed below:

- An SF-425 Federal Financial Report will be due semi-annually for the periods beginning January 1 and ending June 30 and beginning July 1 and ending December 31.
- Reports are due within 30 days of the end of the period (i.e. January 31 and July 31). Final reports are due 120 days after the expiration or termination of the award.

These standard reporting requirements will apply to all awards unless otherwise indicated in the Terms and Conditions section of the award. Additional requirements are assigned on a case-by-case basis and may also be found in the Terms and Conditions section of the award.

Performance Reports

Performance reports must contain a comparison of actual accomplishments with the established goals and objectives of the award; a description of reasons why established goals were not met, if appropriate; and any other pertinent information relevant to the project results. Final reports are due no later than 120 calendar days after the award period of performance end date or termination date. For awards with periods of performance longer than 12 months, recipients are required to submit **interim** financial reports on the frequency established in the Notice of Award.

The standard grant reporting requirements are listed below:

- A narrative project status report will be due semi-annually for the periods beginning January 1 and ending June 30 and beginning July 1 and ending December 31.
- Reports are due within 30 days of the end of the period (i.e. January 31 and July 31). Final reports are due 120 days after the expiration or termination of the award.
- Please note that the performance measures need to be reported on in every Performance Progress Report submitted. If performance goals are not being met, a detailed explanation of why they are not being met should be included in the report.

These standard reporting requirements will apply to all awards unless otherwise indicated in the Terms and Conditions section of the award. Additional requirements are assigned on a case-by-case basis and may also be found in the Terms and Conditions section of the award.

Significant Development Reports

Events may occur between the scheduled performance reporting dates which have significant impact upon the supported activity. In such cases, recipients are required to notify the Bureau in

writing as soon as the recipient becomes aware of any problems, delays, or adverse conditions that will materially impair the ability to meet the objective of the Federal award. This disclosure must include a statement of any corrective action(s) taken or contemplated, and any assistance needed to resolve the situation. The recipient should also notify OIA in writing of any favorable developments that enable meeting time schedules and objectives sooner or at less cost than anticipated or producing more or different beneficial results than originally planned.

Real Property Reports

Recipients and subrecipients are required to submit status reports on the status of real property acquired under the award in which the Federal government retains an interest. The required frequency of these reports will depend on the anticipated length of the Federal interest period. The Bureau will include recipient-specific real property reporting requirements, including the required data elements, reporting frequency, and report due dates, in the Notice of Award when applicable.

Conflict of Interest Disclosures

Recipients must notify the program immediately in writing of any conflict of interest that arise during the life of their Federal award, including those reported to them by any subrecipient under the award. Recipients must notify the program in writing if any employees, including subrecipient and contractor personnel, are related to, married to, or have a close personal relationship with any Federal employee in the Federal funding program or who otherwise may have been involved in the review and selection of the award. The term employee means any individual engaged in the performance of work pursuant to the Federal award.

Recipients may not have a former Federal employee as a key project official, or in any other substantial role related to their award, whose participation put them out of compliance with the legal authorities addressing post-Government employment restrictions. See the [U.S. Office of Government Ethics website](#) for more information on these restrictions. The Service will examine each conflict of interest disclosure based on its particular facts and the nature of the project and will determine if a significant potential conflict exists. If it does, the Service will work with the recipient to determine an appropriate resolution. Failure to disclose and resolve conflicts of interest in a manner that satisfies the Service may result in any of the remedies described in [2 CFR 200.339](#) Remedies for Noncompliance, including termination of the award.

Other Mandatory Disclosures

The Non-Federal entity or applicant for a Federal award must disclose, in a timely manner, in writing to the Federal awarding agency or pass-through entity all violations of Federal criminal law involving fraud, bribery, or gratuity violations potentially affecting the Federal award. Non-Federal entities that receive a Federal award including the terms and conditions outlined in 2 CFR 200, Appendix XII—Award Term and Condition for Recipient Integrity and Performance Matters are required to report certain civil, criminal, or administrative proceedings to SAM. Failure to make required disclosures can result in any of the remedies described in 2 CFR 200.338 Remedies for Noncompliance, including suspension or debarment.

Reporting Matters Related to Recipient Integrity and Performance

If the total value of your currently active grants, cooperative agreements, and procurement contracts from all Federal awarding agencies exceeds \$10,000,000 for any period of time during the period of performance of this Federal award, then you as the recipient during that period of time must maintain the currency of information reported to the System for Award Management

(SAM) that is made available in the designated integrity and performance system (currently the Federal Awardee Performance and Integrity Information System (FAPIIS)) about civil, criminal, or administrative proceedings in accordance with Appendix XII to 2 CFR 200.
