

US Environmental Protection Agency Office of Pollution Prevention and Toxics

Funding Opportunity Announcement:

National Tribal Toxics Council (NTTC) Technical Support

EPA-OCSPP-OPS-2024-10

FEDERAL AGENCY: U.S. Environmental Protection Agency (EPA), Office of Chemical Safety and Pollution Prevention (OCSPP), Office of Pollution Prevention and Toxics (OPPT)

FUNDING OPPORTUNITY TITLE: National Tribal Toxics Council (NTTC) Technical Support

ANNOUNCEMENT TYPE: Request for Applications (RFA) - Initial Announcement

FUNDING OPPORTUNITY NUMBER: EPA-OCSPP-OPS-2024-10

ASSISTANCE LISTING NUMBER: 66.716- Surveys, Studies, Investigations, Training, Demonstration & Education Outreach

DATES: Applications must be submitted electronically through Grants.gov on or before 11:59 pm Eastern Time (ET) on **November 19, 2024**. Applications received after the closing date and time will NOT be considered for funding. The project period for the award resulting from this solicitation is estimated to begin in October 2025. The proposed project period is up to five (5) years.

To allow for efficient management of the competitive process, EPA requests submittal of an informal notice of an Intent to Apply by [approximately 3-4 weeks after posting] to OPPGA@epa.gov. Please include the number of this announcement (EPA-OCSPP-OPS-2024-10) on the subject line of the email notice. Submission of Intent to apply is optional; it is a process management tool that will allow EPA to better anticipate the total staff time required for efficient review, evaluation, and selection of submitted applications. Please note that in order to be considered for funding, complete application packages must be submitted electronically to EPA through Grants.gov (www.grants.gov) by the closing date and time specified in this RFA.

SUMMARY: In accordance with Assistance Listing 66.716, EPA is soliciting applications from the following eligible entities to submit applications under this announcement: any

state of the United States, the District of Columbia, Native American Organizations, the Commonwealth of Puerto Rico, U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and any agency or instrumentally thereof exclusive of local governments (includes public institutions of higher education and hospitals). Native American Organizations include Indian groups, cooperatives, corporations, partnerships, associations. This solicitation is for the performance period of October 1, 2025, through September 30, 2030.

FUNDING AWARD: The total estimated funding for this competitive opportunity is approximately \$1,000,000 over a five-year period. Up to \$160,000 is expected to be available in FY 2026. Incremental funding up to \$200,000 will be made available for subsequent years depending on funding availability, satisfactory performance and other applicable considerations allowing the project to continue for up to a total of five years.

I. FUNDING OPPORTUNITY DESCRIPTION

A. Background

In 2010, EPA's Office of Pollution Prevention and Toxics (OPPT) established the National Tribal Toxics Council (NTTC) to raise and assess Tribal chemical risk management and pollution prevention program development and implementation issues with OPPT. Key elements of the NTTC include: 1) assessing national chemical risk management policy and pollution prevention initiatives that affect Tribes and Alaska Native Villages; 2) providing a network for Tribal chemical risk management officials to share information and represent Tribal interests on chemical risk assessment, risk management policy and pollution prevention initiatives that impact Tribes; and 3) promoting and enhancing Tribal chemical risk management and pollution prevention program development in Indian country.

The NTTC is comprised of approximately 12 members from federally recognized Tribes, or those employed by the Tribe who are focused on providing Tribes with an opportunity for greater input on toxic chemicals and pollution prevention. The NTTC is led by an elected Chairperson and Co-Chairperson.

B. Scope of Work

1. Purpose and Scope

In accordance with Assistance Listing 66.716, the cooperative agreement awarded under this program is intended to provide financial and administrative assistance to support the NTTC. The NTTC will advance chemicals management and pollution prevention policies and programs consistent with the needs, interests and unique legal status of American Indian Tribes, Alaska Native Villages and intertribal organizations through 1) raising and assessing Tribal chemical risk management and pollution prevention program development and implementation issues with OPPT; 2) assessing national chemical risk management policy and pollution prevention initiatives that affect Tribes and Alaska Native Villages; 3) offering a network for Tribal chemical risk management officials to share information between Tribes, federal parties and other organizations and represent Tribal interests on chemical risk assessment, risk management policy and pollution prevention initiatives that impact Tribes; and, 4) promoting and enhancing Tribal chemical risk management and pollution prevention program development.

The recipient will provide administrative and technical support to the NTTC that includes a variety of activities including but not limited to: facilitating multi-day in-person meetings, holding monthly calls, managing a website, identifying high priority toxics and pollution prevention areas of Tribal interest, developing effective outreach, and working cooperatively with both the Tribes and EPA on programmatic issues.

2. Objectives

Applicants must demonstrate in their application how their project will address all of the following objectives:

- Strengthen Tribal chemical risk management and pollution prevention programs where they already exist;
- Assist Tribes and Alaska Native Villages that do not have chemical risk management and pollution prevention programs in assessing whether they need such programs and, if so, in developing and implementing such programs;
- Facilitate communications between Tribes, Alaska Villages, intertribal organizations, and other interested partners and EPA on chemical risk management and pollution prevention issues;
- Increase Tribal capacity to understand, assess and manage chemical risks and pollution prevention opportunities;
- Enhance Tribal consultation and coordination on national chemical risk assessment, risk management policy and pollution prevention initiatives;
- Raise any chemical risk management and pollution prevention concerns, interests, inquiries and information communicated to the NTTC by Tribes, Alaska Native Villages, and intertribal organizations to EPA; and,

- Promote chemical risk management education and pollution prevention awareness and assist in the establishment, development, and implementation of comprehensive chemical risk assessment, risk management and pollution prevention programs in Indian country.

3. Activities to be Funded

Activities to be funded under this cooperative agreement support the purpose and objectives listed above. Applications must demonstrate, at a minimum, how the applicant will address the following activities:

- a. Serve as the administrative contact for the NTTC with EPA and manage all aspects of the NTTC cooperative agreement and all associated requirements.
- b. Maintain NTTC membership of approximately 12 geographically and technically diverse members, filling vacancies and holding elections pursuant to the charter with members capable of representing the interests of Tribes, Alaska Native Villages and intertribal organizations on chemical risk management and pollution prevention issues. The recipient will carry out the selection process of new members in consultation with EPA's project officer and existing NTTC members.
- c. Revise the NTTC Charter as needed, to ensure its effectiveness in achieving NTTC goals and objectives while ensuring compliance with federal regulations.
- d. Organize and facilitate two meetings annually, with at least one in-person meeting, to discuss Tribal-related chemical risk management and pollution prevention issues. The second meeting may be virtual if the associated costs limit hosting more than one in-person meeting annually. Costs associated with in-person meetings include all travel logistics and funding for NTTC members, meeting location logistics, agenda development, note taking and any associated meeting follow-up such as action items and meeting summary, etc. The recipient must have the capability to hold effective hybrid and virtual meetings.
- e. Conduct additional meetings and webinars, as needed, to facilitate full and effective participation of NTTC members and other meeting attendees.
- f. Administer monthly teleconference calls for the NTTC. Collaboratively develop agendas with input from the NTTC chair, NTTC members and EPA and provide conference call summaries including next steps and action item follow-up.
- g. Develop and maintain a website where members and the public can access information about the NTTC, including research reports, studies, training course announcements and the results of NTTC meetings.
- h. Maintain NTTC databases, mailing lists and files, including current chemical risk management and pollution prevention contacts with all Tribes, Alaska Native Villages and

intertribal organizations.

- i. Serve as a clearinghouse for Tribal chemical risk assessment, risk management and pollution prevention codes, laws, regulations, programs and policies, as well as identifying related education, technical assistance and training materials needs for all Tribes, Alaska Native Villages and intertribal organizations.
- j. Convey publicly available information about funding opportunities for chemical risk management and pollution prevention programs to all Tribes, Alaska Native Villages and intertribal organizations.
- k. As needed, develop written comments, letters and issue papers on behalf of the NTTC regarding OPPT regulations, guidance, policies and programs that affect all Tribes, Alaska Native Villages and intertribal organizations.
- l. Conduct consultation and coordination on chemical risk assessment, risk management policy and pollution prevention initiatives for Tribes, Alaska Native Villages and intertribal organizations

C. EPA's Strategic Plan Linkage and Expected Outcomes and Outputs and Performance Measures

Pursuant to Section 6a of EPA Order 5700.7A1, "Environmental Results under EPA Assistance Agreements," EPA must link proposed assistance agreements to the Agency's Strategic Plan. EPA also requires that applications and recipients of grants and cooperative agreements adequately describe environmental outputs and outcomes to be achieved under assistance agreements (see Linking Assistance Agreements to Environmental Results <https://www.epa.gov/grants/linking-assistance-agreements-environmental-results>)

The activities to be funded under this solicitation support the [FY 2022-2026 EPA Strategic Plan](#). Awards made under this solicitation will support Goal 7: Ensure Safety of Chemicals for People and the Environment, Objective 7.1: Ensure Chemical and Pesticide Safety and Objective 7.2: Promote Pollution Prevention of the [Strategic Plan](#),.

EPA also requires that grant applicants adequately describe environmental outputs and outcomes to be achieved under assistance agreements (see EPA Order 5700.7A1, Environmental Results under Assistance Agreements, <https://www.epa.gov/grants/epa-order-57007a1-epas-policy-environmental-results-under-epa-assistance-agreements>). Applicants must include specific statements describing the environmental results of the proposed project in terms of well-defined outputs and, to the maximum extent practicable, well-defined outcomes that will demonstrate how the project will contribute to the goals and objectives described above.

EPA's Office of Pollution Prevention and Toxics (OPPT) works to address the safe use of chemicals and Tribal concerns and needs by identifying high-priority, toxics-related issues

important to the NTTC membership. This includes learning from Tribal members about chemical issues and exposures unique to Indian country, and working collaboratively towards solutions that are effective and respectful of Tribal sovereignty.

1. Outputs

The term “output” means an environmental activity, effort, and/or associated work products related to an environmental goal and objective, that will be produced or provided over a period of time or by a specified date. Outputs may be quantitative or qualitative but must be measurable during an assistance agreement funding period.

The anticipated outputs of this cooperative agreement are to successfully accomplish the activities listed in Section 1.B.3 as well as any additional activities proposed by the applicant.

Examples of anticipated outputs include, but are not limited to:

- a. Administer two meetings annually, with at least one in-person for 10-12 attendees, developing agendas and document outcomes with meeting notes;
- b. Administer approximately 10 teleconferences annually; developing agendas and document outcomes with meeting notes;
- c. Develop written comments on behalf of the NTTC members regarding EPA rules, guidance, policies, and OPPT programs that affect Tribes and issue papers as needed and demonstration projects as requested by the NTTC;
- d. Maintain a NTTC website that is relevant to the NTTC membership and contains material requested by the group; and,
- e. Submit three quarterly reports and one annual end of year report per year and a final report at the end of the project that documents the activities, achievements, and budget status of the NTTC cooperative agreement.

2. Outcomes

The term “outcome” means the result, effect, or consequence that will occur from carrying out an environmental program or activity that is related to an environmental or programmatic goal or objective. Outcomes may be environmental, behavioral, health-related, or programmatic in nature, but must be quantitative and correlate with the objectives of the NTTC. They may not necessarily be achievable within an assistance agreement funding period.

Examples of anticipated outcomes include, but are not limited to:

- a. Increased communication and cooperation between EPA, Tribes and Alaska Native Villages involved in various aspects of chemical risk assessment, risk management and pollution prevention programs;
- b. Improved Tribal understanding of chemical risk assessment, risk management and pollution prevention concerns to more effectively protect human health and the environment in Indian country; and,
- c. Enhanced capabilities of Tribal participants to implement quality chemical risk assessment, regulatory risk management and pollution prevention.

3. Performance Measures

The applicant should develop and describe performance measures they expect to achieve through the proposed activities. Performance measures help gather insights and track progress on the project and will serve as the basis for lessons to inform future projects.

The description of performance measures should include:

- a. Overall five-year and annual goals, objectives, outputs (including projects, programs, and resources), and outcomes.
- b. Regular reports that document all activities and efforts on project implementation, and track and measure progress achieved toward the outputs, outcomes, and milestones met in the overall five-year plan and each annual plan including customer satisfaction measures. A final report that demonstrates the success of the program provides lessons learned, suggests how to carry the program forward and build on its success, and feedback from stakeholders on needed tools and resources.

D. Statutory Authority

The statutory authority for this action is the Toxic Substances Control Act (TSCA), Section 10, which allows the Agency to fund studies, research, demonstration projects and training which address chemical risk assessment, risk management and prevention of pollution. This solicitation will allow for collaborative work with the selected grantee to address Tribal concerns regarding chemical risk assessment, risk management and pollution prevention to more effectively protect human health and the environment in Indian country.

E. Additional Provisions for Applicants Incorporated into the Solicitation

Additional provisions that apply to sections III, IV, V, and VI of this solicitation and/or awards made under this solicitation, can be found at [EPA Solicitation Clauses](#). These provisions are important for applying to this solicitation and applicants must review them when preparing applications for this solicitation. If you are unable to access these provisions electronically at the website above, please contact the EPA point of contact listed in this solicitation (in Section VII) to obtain the provisions.

EPA recognizes that it is important to engage all available minds to address the

environmental challenges the nation faces. At the same time, EPA seeks to expand the environmental conversation by including members of communities which may have not previously participated in such dialogues to participate in EPA programs. For this reason, EPA strongly encourages all eligible applicants identified in Section III, including minority serving institutions (MSIs), to apply under this opportunity.

For purposes of this solicitation, the following are considered MSIs:

1. Historically Black Colleges and Universities (HBCUs), as defined by the Higher Education Act (20 U.S.C. § 1061(2)). A list of these schools can be found at [Historically Black Colleges and Universities](#)
2. Tribal Colleges and Universities (TCUs), as defined by the Higher Education Act (20 U.S.C. § 1059c(b)(3) and (d)(1)). A list of these schools can be found at [Tribal College or University](#)
3. Hispanic-Serving Institutions (HSIs), as defined by the Higher Education Act (20 U.S.C. § 1101a(a)(5)). A list of these schools can be found at [Hispanic-Serving Institutions](#)
4. Asian American and Native American Pacific Islander-Serving Institutions; (AANAPISIs), as defined by the Higher Education Act (20 U.S.C. § 1059g(b)(2)). A list of these schools can be found at [Asian American and Native American Pacific Islander-Serving Institutions](#); and
5. Predominately Black Institutions (PBIs), as defined by the Higher Education Act of 2008, 20 U.S.C. § 1059e(b)(6). A list of these schools can be found at [Predominately Black Institutions](#).

II. AWARD INFORMATION

A. What is the amount of funding available?

The total estimated funding expected to be available for award under this announcement is approximately \$1,000,000, depending on availability of funds. EPA expects that approximately \$160,000 will be available in FY 2025. At the conclusion of the first one-year period of performance, incremental funding of approximately \$200,000 may be made available for each additional year allowing the project to continue for up to a total of five (5) years depending on the Agency's priorities, available funding and the satisfactory performance of the recipient. EPA reserves the right to reject all applications and make no awards under this solicitation.

B. How many agreements will EPA award in this competition?

EPA anticipates awarding one cooperative agreement subject to the availability of funds and quality of evaluated applications, and other applicable considerations. In addition, EPA reserves the right to make additional awards under this announcement, consistent with Agency policy and guidance, if additional funding becomes available after the original selection is made. Any additional selections for awards will be made no later than six months from the date of the original selection decision.

C. Partial Funding

In appropriate circumstances, EPA reserves the right to partially fund applications by funding discrete portions or phases of proposed projects. If EPA decides to partially fund an application, it will do so in a manner that does not prejudice any applicant or affect the basis upon which the application, or portion thereof, was evaluated and selected for award, and therefore maintains the integrity of the competition and selection process.

D. What is the project period for awards resulting from this solicitation?

The estimated project period for the award resulting from this solicitation will begin in October 2025. The proposed project period is up to five (5) years.

E. What type of award(s) will EPA make resulting from this solicitation?

EPA intends to award cooperative agreements under this solicitation. Cooperative agreements provide for substantial involvement between the EPA Project Officer and the selected applicant(s) in the performance of the work supported. Although EPA will negotiate precise terms and conditions relating to substantial involvement as part of the award process, the anticipated substantial Federal involvement for these projects may include:

1. Close monitoring of the successful applicant's performance to verify the results proposed by the applicant;
2. Collaborating during performance of the scope of work;
3. In accordance with 2 CFR 200.317 and 2 CFR 200.318, reviewing of proposed procurement(s);
4. Approving qualifications of key personnel (EPA will not select employees or contractors employed by the award recipient); and
5. Reviewing and commenting on reports prepared under the cooperative agreement (the final decision on the content of reports rests with the recipient).

EPA does not have the authority to select employees or contractors employed by the recipient. The final decision on the content of reports rests with the recipient.

III. ELIGIBILITY INFORMATION

Note: Additional provisions that apply to this section can be found at [EPA Solicitation Clauses](#).

A. Eligible Applicants

In accordance with Assistance Listing 66.716, EPA is soliciting applications from the following eligible entities to submit applications under this announcement: any state of the United States, the District of Columbia, Native American Organizations, the Commonwealth of Puerto Rico, U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and any agency or instrumentally thereof exclusive of local governments (includes public institutions of higher education and hospitals). Native

American Organizations include Indian groups, cooperatives, corporations, partnerships, and associations.

B. Cost Sharing/Matching

Cost sharing or matching funds are not required as a condition of eligibility.

C. Threshold Eligibility Requirements

Applications will be eliminated from the competition if the threshold eligibility criteria listed below are not met at the time of application submission. Only applications from eligible entities (see above) that meet all of these criteria will be evaluated against the ranking factors in Section V of this announcement. Applicants deemed ineligible for funding consideration as a result of the threshold eligibility review will be notified within 15 calendar days of the ineligibility determination.

1. *a.* Applications must substantially comply with the application submission instructions and requirements set forth in Section IV of this solicitation or else they will be rejected. However, where a page limit is expressed in Section IV with respect to the application, or parts thereof, pages in excess of the page limitation will not be reviewed. Applicants are advised that readability is of paramount importance and should take precedence in application format, including selecting a legible font type and size for use in the application.

b. In addition, initial applications must be submitted through Grants.gov as stated in Section IV of this announcement (except in the limited circumstances where another mode of submission is specifically allowed for as explained in Section IV) on or before the application submission deadline published in Section IV of this solicitation. Applicants are responsible for following the submission instructions in Section IV of this solicitation to ensure that their application is timely submitted. Please note that applicants experiencing technical issues with submitting through Grants.gov should follow the instructions provided in Section IV, which include both the requirement to contact Grants.gov and email a full application to EPA prior to the deadline.

c. Applications submitted outside of Grants.gov will be deemed ineligible without further consideration unless the applicant can clearly demonstrate that it was due to EPA mishandling or technical problems associated with Grants.gov or SAM.gov. An applicant's failure to timely submit their application through Grants.gov because they did not timely or properly register in SAM.gov or Grants.gov will not be considered an acceptable reason to consider a late submission outside of Grants.gov.
2. EPA will consider only one application from each eligible applicant, including units of government and institutions of higher education (IHE). If EPA receives more than one application from an eligible applicant (e.g., different agencies of a governmental unit or different departments of the same IHE) EPA will contact the applicant to determine which application the applicant wants EPA to consider.

3. Applicants must be eligible to receive funding under this announcement. (See Section III.A. Eligible Applicants above.)
4. The proposed project period of performance must not exceed five years.
5. The maximum funding level requested for the first year of the project must not exceed \$160,000, and \$1,000,000 for five years. Applications requesting more than the maximum funding for the first year and overall for 5 years will be rejected.
6. Applications must support EPA Strategic Plan Goal 7, Objective 7.1: Ensure Chemical and Pesticide Safety and Objective 7.2: Promote Pollution Prevention.
7. The application must address all the objectives listed in Section I.B.2 and activities listed in Section I.B.3.
8. Ineligible activities: If an application is submitted that includes any ineligible tasks or activities (e.g. trainee stipends), that portion of the application will be ineligible for funding and may, depending on the extent to which it affects the application, render the entire application ineligible for funding.

IV. APPLICATION AND SUBMISSION INSTRUCTIONS

Note: Additional provisions that apply to this section can be found at [EPA Solicitation Clauses](#).

A. Requirement to Submit Through Grant.gov and Limited Exception Procedures

Applicants must apply electronically through Grants.gov for this funding opportunity based on the Grants.gov instructions in this announcement. If your organization has no access to the internet or access is very limited, you may request an exception for the remainder of this calendar year by following the procedures outlined [here](#). Please note that your request must be received at least 15 calendar days before the application due date to allow enough time to negotiate alternative submission methods. Issues with submissions with respect to this opportunity only are addressed in the Technical Issues with Submission section below.

B. Grants.gov Submission Instructions

SAM.gov Registration Instructions

Organizations applying for this funding opportunity must have an active SAM.gov registration. If you have never done business with the Federal Government, you will need to register your organization in SAM.gov. If you do not have a SAM.gov account, then you will create an account using [login.gov](#) to complete your SAM.gov registration. SAM.gov registration is FREE. The process for entity registrations includes obtaining Unique Entity ID (UEI), a 12-character

alphanumeric ID assigned an entity by SAM.gov, and requires assertions, representations and certifications, and other information about your organization. Please review the [Entity Registration Checklist](#) for details on this process.

If you have done business with the Federal Government previously, you can check your entity status using your government issued UEI to determine if your registration is active. SAM.gov requires you renew your registration every 365 days to keep it active.

Please note that SAM.gov registration is different than obtaining a UEI only. Obtaining an UEI only validates your organization's legal business name and address. Please review the [Frequently Asked Question](#) on the difference for additional details.

Organizations should ensure that their SAM.gov registration includes a current e-Business (EBiz) point of contact name and email address. The EBiz point of contact is critical for Grants.gov Registration and system functionality.

Contact the [Federal Service Desk](#) for help with your SAM.gov account, to resolve technical issues or chat with a help desk agent: (866) 606-8220. The Federal Service desk hours of operation are Monday - Friday 8am - 8pm ET.

Grants.gov Registration Instructions

Once your SAM.gov account is active, you must register in Grants.gov. Grants.gov will electronically receive your organization information, such as e-Business (EBiz) point of contact email address and UEI. Organizations applying to this funding opportunity must have an active Grants.gov registration. Grants.gov registration is FREE. If you have never applied for a federal grant before, please review the [Grants.gov Applicant Registration](#) instructions. As part of the Grants.gov registration process, the EBiz point of contact is the only person that can affiliate and assign applicant roles to members of an organization. In addition, at least one person must be assigned as an Authorized Organization Representative (AOR). Only person(s) with the AOR role can submit applications in Grants.gov. Please review the [Intro to Grants.gov-Understanding User Roles](#) and [Learning Workspace - User Roles and Workspace Actions](#) for details on this important process.

Please note that this process can take a month or more for new registrants. Applicants must ensure that all registration requirements are met in order to apply for this opportunity through Grants.gov and should ensure that all such requirements have been met well in advance of the application submission deadline.

Contact [Grants.gov](#) for assistance at 1-800-518-4726 or support@grants.gov to resolve technical issues with Grants.gov. Applicants who are outside the U.S. at the time of submittal and are not able to access the toll-free number may reach a Grants.gov representative by calling 606-545-5035. The Grants.gov Support Center is available 24 hours a day 7 days a week, excluding federal holidays.

Application Submission Process

To begin the application process under this grant announcement, go to [Grants.gov](https://www.grants.gov) and click the red "Apply" button at the top of the view grant opportunity page associated with this opportunity.

The electronic submission of your application to this funding opportunity must be made by an official representative of your organization who is registered with Grants.gov and is authorized to sign applications for Federal financial assistance. If the submit button is grayed out, it may be because you do not have the appropriate role to submit in your organization. Contact your organization's EBiz point of contact or contact [Grants.gov](https://www.grants.gov) for assistance at 1-800-518-4726 or support@grants.gov

Applicants need to ensure that the AOR who submits the application through Grants.gov and whose UEI is listed on the application is an AOR for the applicant listed on the application. Additionally, the UEI listed on the application must be registered to the applicant organization's SAM.gov account. If not, the application may be deemed ineligible.

1. Application Submission Deadline:

Your organization's AOR must submit your complete application package electronically to EPA through Grants.gov no later than **November 19, 2024 at 11:59 PM Eastern Time**. Please allow for enough time to successfully submit your application process and allow for unexpected errors that may require you to resubmit.

Please submit *all* the application materials described below using the Grants.gov application package accessed using the instructions above.

2. Application Materials

The following forms and documents **are required** under this announcement:

Mandatory Documents:

1. Application for Federal Assistance (SF-424)
2. Budget Information for Non-Construction Programs (SF-424A)
3. EPA Key Contacts Form 5700-54
4. EPA Form 4700-4 – Preaward Compliance Review Report
5. Project Narrative Attachment Form – Use this to submit your Project Narrative, prepared as described in Section IV subsection D of this announcement.

Optional Documents:

6. Other Attachments Form: Use this to submit other attachments, if applicable.

C. Technical Issues with Submission

If applicants experience technical issues during the submission of an application that they are unable to resolve, follow these procedures **before** the application deadline date:

1. Contact Grants.gov Support Center **before** the application deadline date.
2. Document the Grants.gov ticket/case number.
3. Send an email with the Funding Opportunity Number: EPA-OCSPP-OPS-2024-10 in the subject line to myers.irina@epa.gov **before** the application deadline time and date and **must** include the following:
 - a. Grants.gov ticket/case number(s)
 - b. Description of the issue
 - c. The entire application package in PDF format.

Without this information, EPA may not be able to consider applications submitted outside of Grants.gov. Any application submitted after the application deadline time and date deadline will be deemed ineligible and **not** be considered.

Please note that successful submission through Grants.gov or email does not necessarily mean your application is eligible for award.

EPA will make decisions concerning acceptance of each application submitted outside of Grants.gov on a case-by-case basis. EPA will only consider accepting applications that were unable to submit through Grants.gov due to [Grants.gov](https://www.grants.gov) or relevant [SAM.gov](https://www.sam.gov) system issues or for unforeseen exigent circumstances, such as extreme weather interfering with internet access. Failure of an applicant to submit prior to the application submission deadline date because they did not properly or timely register in SAM.gov or Grants.gov is **not** an acceptable reason to justify acceptance of an application outside of Grants.gov.

D. Content of Application Package Submission

All applications must contain all of the following forms and documents, completed and signed, in the sequential order shown. Additional guidance on completing the documents is available through [EPA's Office of Grants and Debarment](https://www.epa.gov/grants) website.

1. Standard Form (SF) 424, Application for Federal Assistance
2. SF-424A, Budget Information for Non-Construction Programs
3. SF 424B, Non-Construction Programs
4. EPA Form 4700-4, Pre-Award Compliance Review Report for All Applicants Requesting Federal Financial Assistance
5. EPA Form 5700-54, Key Contacts Form
6. Narrative Proposal (attach narrative proposal document as described below called

Project Narrative Attachment form in grants.gov)

Narrative Proposal

The Narrative Proposal must contain all parts (I-VII) described below, in sequential order as shown. Each page must be numbered, formatted for 8.5 x 11 inch paper, and be single-spaced. Electronic files must be legible and in Adobe Acrobat PDF or MS Word for Windows. The contents of the narrative proposal for sections I-IV cannot exceed the page limits identified below for each section. Pages past the page limit for each section will not be considered. Federal forms, resumes and letters will not count toward any page limit.

- I. Cover Page (1 page limit)
- II. Table of Contents (2 page limit)
- III. Executive Summary (3 page limit)
- IV. Workplan (20 page limit)
- V. Appendix A: Timetable (not part of page limit)
- VI. Appendix B: Letters of Support (not part of page limit)
- VII. Appendix C: Resumes (not part of page limit)

I. Cover Page [1 (one) page limit]: The cover page must list the following information with the letterhead for your organization:

- EPA funding opportunity number: EPA-OCSP-OPPT-2025-1
- Project Title:
- Project Coordinator:
- Organization Name and Address:
- Telephone No.: Fax No.: Email Address:
- Project Duration (anticipated start date and end no later than date):
- First Year Funding Request:
- Total Funding Request (for the entire project):
- DUNS number:

II. Table of Contents [2 (two) page limit]: A table listing the different parts of the application and the page number on which each part begins.

III. Executive Summary [3 (three) page limit]: A stand-alone, concise description of the project with objectives, outputs, and outcomes; and an assurance that your organization meets the eligibility factors, as listed in Section III (Eligibility Information).

IV. Workplan [20 (twenty) page limit]: The narrative proposal workplan must directly and explicitly describe how the proposed project meets the guidelines in Sections I – III of this announcement (including the requirements in Section I and the applicable threshold eligibility criteria in Section III) and all evaluation criteria described in Section V.

The narrative proposal workplan must contain all parts in sequential order as shown below:

Project title

Part I. Project Scope and Approach

- a. Project Scope, Goal, and Objectives (*See Section I*)
Explain how the overall approach and plan will meet program objectives. Describe a plan that includes the following:
 - Purpose Statement - A one sentence description of what will be accomplished as a result of the project that benefits the public and potential audience(s) served.
 - Stated goal and a numbered list of concisely written objectives linked to the purpose of the program that are specific, realistic, and measurable.
 - o How the goal and objectives are linked to EPA Strategic Plan Goal 7, Objective 7.1; Ensure Chemical and Pesticide Safety and Objective 7.2; Promote Pollution Prevention
 - o How the objectives listed in Section I.B.2 and associated activities listed in B.3 will be addressed.

- b. Project Design/Detailed Workplan
Describe in detail the approach and plan for meeting all the administrative and substantive needs of the NTTC while also maintaining a collaborative relationship and communicating effectively with EPA:
 - A well-conceived approach that demonstrates an understanding of Indian country and a respect for Tribal sovereignty.
 - A list of outputs linked to expected outcomes, and the changes or benefits to human health and the environment that are anticipated.
 - o Describe in detail the project activities to be funded (See Section I.B.2 and I.B.3 for activities to be included at a minimum.)
 - How lessons learned from previous or existing efforts will be used or considered for this project.
 - o How the workplan builds upon or considers lessons learned from previous or existing efforts and how they will be used or considered to benefit this project.
 - A clear and practical approach to evaluate performance.
 - o Clearly describe the expected project outputs and outcomes

and how progress towards achieving them will be tracked and measured, and how the project will be evaluated.

- A well-conceived approach for tracking and reporting progress towards achieving the expected outputs and outcomes to EPA.
 - Include a plan to submit regular reports that document all activities and efforts on project implementation, and track and measure progress achieved toward the outputs, outcomes, and milestones met in the overall five-year plan and each annual plan including customer satisfaction measures.
- c. Project Milestone Schedule
Provide a milestone schedule that:
 - Cover each of the five years of the cooperative agreement, with a breakout of the project activities into phases with associated tasks and a timeframe for completion of tasks, and
 - Includes an approach, procedures, and controls for ensuring awarded grant funds will be expended in a timely and efficient manner.

Part II. Outreach, Transferability, and Sustainability

- a. Describe the applicant's history of working with a broad range of local, state, and national stakeholders.
- b. Explain how the project design promotes meaningful involvement of partner organizations. Provide evidence of stakeholder participation and partnership in the project. Describe the potential collaborators, partnerships, coalitions, and/or existing networks you offer to increase possibility of project success. State the roles the people or organizations will play in the project.
- c. Outline how the project will be disseminated and promoted to ensure project information and outcomes are clearly presented and reach the intended audience and potential audiences.
- d. Describe how the project will ensure that information and outcomes will be of use to other organizations and stakeholders so that the project may continue after EPA funding ends.

Part III. Programmatic Capability and Environmental Results Past Performance

Submit a list of federally and/or non-federally funded assistance agreements

(assistance agreements include Federal grants and cooperative agreements but not Federal contracts) that your organization managed within the last three years (no more than 5 agreements, and preferably EPA agreements) and describe (1) whether and how you were able to successfully complete and manage those agreements, (2) your history of meeting the reporting requirements under the agreements including whether you submitted adequately and timely reports on your progress towards achieving the expected outputs and outcomes of those agreements (and if not, explain why not) and whether you submitted acceptable final technical reports under the agreements; and (3) your organizational experience and plan for timely and successfully achieving the objectives of the proposed project, and your staff expertise/qualifications, staff knowledge, and resources or the ability to obtain them, to successfully achieve the goals of the proposed project. Include the Project Officer's name, email address, and phone number of these past projects.

In evaluating applicants under these factors in Section V, EPA will consider the information provided by the applicant and may also consider relevant information from other sources, including information from EPA files and from current/prior grantors (e.g., to verify and/or supplement the information provided by the applicant). If you do not have any relevant or available past performance or past reporting information, please indicate this in the application and you will receive a neutral score for these factors (a neutral score is half of the total points available in a subset of possible points). If you do not provide any response for these items, you may receive a score of 0 for these factors.

In addition, provide information on your organizational experience and plan for timely and successfully achieving the objectives of the proposed project, and your staff expertise/qualifications, staff knowledge, and resources or the ability to obtain them, to successfully achieve the goals of the proposed project.

Part IV. Budget Narrative

In addition to the SF-424A form, prepare an overall budget table of \$1,000,000 spread over five years. Also, prepare a detailed budget and narrative describing the first allotment of incremental funding estimated to be \$160,000. Explain the need for this funding under each of the appropriate budget categories as listed below. Include activities that could be executed if additional funds become available. Link each task or activity from the project workplan to the associated resources needed to accomplish the activity. Include sufficient detail for EPA to determine if the costs are eligible, allocable, reasonable, and allowable.

- a. **Personnel** - Include only direct costs for salaries of those individuals who will perform work directly for the project. Identify the personnel type by full or part-time employee. Consultants, contractors, or employees of other partner organizations are not "personnel".

- b. **Travel** - Include the travel location(s), estimated number of trips, estimated total mileage, applicable reimbursement rate, and number of nights lodging required throughout the entire project period for your personnel only. (Travel for consultants, contractors, sub awardees, or partner organizations goes in “Other Direct Costs”.)
- c. **Equipment** - Include only equipment proposed purchased as a direct cost. This does not include equipment to be leased/rented and service/maintenance contracts. Include costs for each item.
- d. **Supplies** - Include tangible personal property other than equipment. Include a brief description of the supplies required to perform the work and categorized by major supply category. Example: office supplies, computer supplies, etc.
- e. **Contractual (including consultant) Services** - List services and associated costs that are to be carried out by an individual or organization other than the applicant in the form of a procurement relationship. Consultants are contractors. Include a brief description of the scope of work or services to be provided.

NOTE:

Applicants must compete contracts for services and products, including consultant contracts, and conduct cost and price analyses, to the extent required by the procurement provisions of the regulations at 2 CFR Part 200. Applicants are not required to identify subrecipients and/or contractors (including consultants) in their application. However, if they do, the fact that an applicant selected for award has named a specific subrecipient, contractor or consultant in the application EPA selects for funding does not relieve the applicant of its obligations to comply with subaward and/or competitive procurement requirements as appropriate. Please note that applicants may not award sole source contracts to consulting, engineering, or other firms assisting applicants with the application solely based on the firm’s role in preparing the application.

[Refer to Section IV.d. of EPA’s Solicitation Clauses for more information on this important topic.](#)

- f. **Other Direct Costs**- Include only those types of direct costs that do not fit in any of the other budget categories. Examples include: occasional photocopying at commercial locations (printing and binding services are contractual), rental of meeting space or instructional facilities, and sub-award costs.
- g. **Subawards** - Any award of financial assistance by any legal agreement made by the recipient to an eligible sub-recipient. Funding may be used to provide subawards of financial assistance, which includes using subawards to fund partnerships, provided the recipient complies with applicable requirements for subawards including those contained in 2 CFR Part 200. Applicants must

provide a line item amount for subawards in the Budget Narrative for the “Other Direct Costs” category.

EPA funds may only be used for purposes set forth in the assistance agreement and must be consistent with the statutory authority for the award. Assistance agreement funds may not be used to match funds for other federal grants, lobbying, or intervention in federal regulatory or adjudicatory proceedings. In addition, federal funds may not be used to sue the Federal government or any other governmental entity. All costs identified in the budget must conform to applicable Federal Cost Principles contained in 2 CFR Part 200, Subpart E.

If recommended for funding, you will be required to submit a copy of your organization’s Indirect Cost Rate Agreement if your proposed budget includes indirect costs. (see [RAIN-2018- G02](#) for more information about indirect costs).

Part V. Appendix A: Timetable

Provide a timetable for each project objective.

Part VI. Appendix B: Letters of Support

If the project narrative describes partnerships, funding, or in-kind services, a letter of support may be included in the application. Letters of support are not required. If submitted, letters of support should clearly state the intent of the partner and their contribution, cash or in-kind services to the project. Letters of recommendation will not be considered.

Part VII. Appendix C: Resumes

Provide brief resumes for the project coordinator and key staff.

Part VIII. Submission Dates and Times

The closing date and time for submission of applications is **November 19, 2024**, at 11:59 pm Eastern Time (ET). Applications submitted after the closing date and time will not be considered for funding.

SECTION V. APPLICATION REVIEW INFORMATION

Only eligible entities whose application(s) meet the threshold criteria in Section III of this announcement will be evaluated according to the evaluation criterion set forth below. Applicants should explicitly address these criteria as part of their application package submittal in the narrative proposal. Each application will be rated using a points system. Applications will be evaluated based on a total of 100 points possible.

A. Evaluation Criteria

Criteria	Points
Total Possible Points	100
<p>1. Project Goals and Objectives</p> <p>Under this criterion, applicants will be evaluated based on their ability to describe the goals and objectives of the NOFO clearly and concisely and how they will address the Goals and Objectives stated in Section I.B.2. and associated activities in Section I.B.3. (10 points)</p>	10
<p>2. Project Approach/Design/Methods</p> <p>Under this criterion applicants will be evaluated on the quality and extent to which the workplan demonstrates a successful/acceptable approach to supporting the NTTC:</p> <ul style="list-style-type: none"> a. Demonstrates ability to support Tribes, Tribal associations, Councils and or other Tribal collaborative organizations (7 points) b. Demonstrates the ability to conduct research, studies and training/demonstration projects relevant to Tribes, Tribal organizations and their peoples, and awareness of cultural differences among Tribal populations (7 points) c. Demonstrates knowledge of Pollution Prevention and Toxics issues relevant to states, Tribes and U.S. territories (7 points) d. Demonstrates the ability to build and maintain effective partnerships through networking to advance Tribal issues and target solutions to specific situations (7points) e. Demonstrates an ability to communicate Tribal issues effectively to a variety of audience to foster communication and understanding (7 points) 	35
<p>3. Project Performance Measures & Expected Outputs and Outcomes</p> <p>Under this criterion, the Agency will evaluate the effectiveness of the applicant’s plan for tracking and measuring its progress toward achieving the expected project outputs and outcomes, including those identified in Section I.C. of this announcement. In addition, the Agency will evaluate the performance measures proposed by the applicant and how they will be used to help track, measure and report the applicant’s progress towards achieving the expected outputs and outcomes. (5 points)</p>	5
<p>4. Programmatic Capability and Past Performance</p> <p>Under this criterion, applicants will be evaluated based on their ability to successfully complete and manage the proposed project taking into account:</p> <ul style="list-style-type: none"> a. Organizational experience that demonstrates understanding of Indian country and plan for timely and successfully achieving the objectives of the proposed project (10 points) 	35

<ul style="list-style-type: none"> b. Staff technical expertise and qualifications, staff knowledge including knowledge of Indian country, and resources or the ability to obtain them, to successfully achieve the goals of the proposed project (10 points) c. Past performance in successfully completing and managing the assistance agreements identified in the narrative proposal as described in Section IV.C of the announcement (10 points) d. History of meeting the reporting requirements under the assistance agreements identified in the narrative proposal as described in Section IV.C of the announcement including whether the applicant submitted acceptable final technical reports under those agreements and the extent to which the applicant adequately and timely reported on their progress towards achieving the expected outputs and outcomes under those agreements and if such progress was not being made whether the applicant adequately reported why not. (5 points) <p>Note: In evaluating applicants under items c and d of this Criterion, the Agency will consider the information provided by the applicant and may also consider relevant information from other sources including agency files and prior/current grantors (e.g., to verify and/or supplement the information supplied by the applicant). If you do not have any relevant or available past performance or reporting information, please indicate this in the proposal and you will receive a neutral score for these sub-factors (items c and d above—a neutral score is half of the total points available in a subset of possible points). If you do not provide any response for these items, you may receive a score of 0 for these factors.</p>	
<p>5. Budget/Resources</p> <p>Under this criterion, the Agency will evaluate the following factors as discussed under Section IV D, Part IV:</p> <ul style="list-style-type: none"> a. Whether the proposed project budget is appropriate (e.g. realistic, reasonable) to accomplish the proposed goals, objectives, and measurable environmental outcomes (3 points); b. Whether the budget narrative provides details of the budget designated for each major activity and justifies the proposed costs (3 points); c. Whether the proposed approach, procedures, and controls for ensuring that awarded grant funds will be expended in a timely manner is reasonable (3 points); d. Determine whether the proposed budget provides a detailed breakout of the approximate funding used for each major activity and justifies the proposed costs (3 points); and 	15

- | | |
|---|--|
| e. Determine whether their approach, procedures, and controls for ensuring that awarded grant funds will be expended in a timely and efficient manner. (3 points) | |
|---|--|

B. Review and Selection Process

Applications will first be evaluated against the threshold eligibility criteria listed in Section III. Only those applications which meet all the threshold eligibility criteria will be evaluated using the evaluation criteria listed above by an EPA evaluation team. Each application will be given a numerical score and will be rank ordered according to the numerical score. Preliminary funding recommendations will be provided to the Selection Official based on the ranking.

Final funding decisions will be made by the Selection Official based on the rankings and preliminary recommendations of the EPA evaluation team. In making the final funding decisions, the Selection Official may also consider programmatic priorities and geographic diversity of funds. Once final decisions have been made, a funding recommendation will be developed and forwarded to the EPA Award Official.

SECTION VI. AWARD ADMINISTRATION INFORMATION

A. Award Notification

Following evaluation of applications, all applicants will be notified regarding their status.

1. Successful Applicants.

EPA anticipates notification to the successful applicant will be made via telephone, email or postal mail by January 15, 2025. The notification will be sent to the original signer of the application or the project contact listed in the application. This notification, which informs the applicant that its application has been selected and is being recommended for award is not an authorization to begin work.

The official notification of an award will be made by the Grants and Interagency Management Division (GIAMD). Applicants are cautioned that only a grants officer is authorized to bind the Government to the expenditure of funds; selection does not guarantee an award will be made. For example, statutory authorization, funding, or other issues discovered during the award process may affect the ability of EPA to make an award to an applicant. The award notice, signed by the EPA grants officer, is the authorizing document and will be provided through electronic or postal mail. The successful applicant may need to prepare and submit additional documents and forms (e.g., work plan), which must be approved by EPA, before the grant can officially be awarded. The time between notification of selection and award of a grant can take up to 90 days or longer.

EPA may require applicants to submit missing or updated documents to complete the funding package of an application selected for award.

The grant recipient information of the successful application will be posted on EPA's Office of Pollution Prevention and Toxics website at the conclusion of the competition.

B. Pre-award Costs

In accordance with 2 CFR 1500.8, EPA award recipients may incur allowable project costs 90 calendar days before the federal awarding agency makes the federal award. Expenses more than 90 calendar days pre-award require prior approval of EPA. All costs incurred before EPA makes the award are at the recipient's risk. EPA is under no obligation to reimburse such costs if for any reason the recipient does not receive a federal award or if the federal award is less than anticipated and inadequate to cover such costs.

C. Administrative and National Policy Requirements

A listing and description of general EPA regulations applicable to the award of assistance agreements may be viewed at: [EPA Grants Overview for Applicants and Recipients](#).

If a conference or workshop is an element of the project, the applicant will be required to answer the following questions: Who is initiating the conference/workshop/meeting? How will it be advertised? Whose logo will be on the agenda and materials? What is the percentage of participants, i.e. federal, state, local, or public? Will the grant recipient prepare the proceedings and disseminate the information back to the targeted community? Will program income (e.g., registration fees) be generated from this event?

D. Reporting Requirements

The successful applicant will be required to submit project activity reports throughout the duration of the project, as frequently as quarterly, as directed by the EPA Project Officer. Project activity reports must address the status of all objectives and activities outlined in the project (including measures), any changes in key personnel, and incurred project expenses. A final project report is also required 90 days following the end of the project period. All reports should be submitted electronically.

E. Disputes

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005) which can be found at [Grant Competition Dispute Resolution Procedures](#). Copies of these procedures may also be requested by contacting the person listed in Section VII of the announcement. Note, the FR notice references regulations at 40 CFR Parts 30 and 31 that have been superseded by regulations in 2 CFR parts 200 and 1500. Notwithstanding the regulatory changes, the procedures for competition-related disputes remains unchanged from the procedures described at 70 FR 3629, 3630, as indicated in 2 CFR Part 1500, Subpart E.

VII. AGENCY CONTACT

If you have questions or need additional information regarding this announcement, please contact Irina Myers via email at myers.irina@epa.gov or by postal mail at: U.S. EPA

Office of Program Support, Mail code: 7506M, 1200 Pennsylvania Ave. NW,
Washington, DC 20460
