A. Program Description

On behalf of Office of the Assistant Secretary of Defense, Readiness and Environmental Protection Integration (REPI) Program, the Washington Headquarters Service, Acquisition Directorate, (WHS/AD) seeks an application from National Association of Counties Research Foundation (NACoRF) for a sole-source award. No other applicants are eligible.

The Readiness and Environmental Protection Integration (REPI) Program funds innovative partnerships between the Military Services and conservation partners to leverage public and private funds to protect critical landscapes that preserve and enhance DoD's capability to train and test in support of current and future mission requirements. REPI supports cost-sharing partnerships that protect compatible land uses, support ecological integrity, and promote military resilience on private and non-DoD lands around installations and ranges to ensure that lands are not converted to other uses that would inhibit or restrict the military's ability to use existing facilities for testing and training. To further DoD efforts to conserve compatible land uses that preserve and enhance military test, training, and operational readiness, DoD founded the Sentinel Landscapes Partnership in 2013. This Partnership is a coalition of federal agencies, state and local governments, and non-profits that works to advance common land use objectives in high priority areas known as sentinel landscapes.

This agreement will support DoD's ability to identify and build local capacity for working lands partnerships that maximize leveraging of public and private resources and enhance the efficiency of protecting and managing land and water resources on public and private lands. The following objectives are for the base period and all follow-on option periods of the agreement:

- Develop and maintain a long-term directory of county leaders responsible for coordination with nearby military installations. This will be achieved through individual contact with each of the 502 counties to both identify the appropriate elected and staff county leaders as well as a strategy for maintaining and updating the directory. NACoRF will be able to filter this directory by installation, county, region, elected/non-elected or other DoD-designated segmentation. This updated and maintained directory will be available to generate targeted invitation lists and outreach for project

activities and content distribution.

- Host virtual discussion groups and coordinate virtual conversation with selected county officials on topics or in geographies mutually agreed upon by NACoRF and DoD. NACoRF will have sole responsibility for coordinating all details and logistics relating to the meeting, introduce DoD facilitators and produce a participant contact list and summary memo of the discussion. These virtual sessions enable DoD to maintain communication with key county leaders between in-person activities, build substantive relationships through live discussions and encourage two-directional sharing of information on timely topics of mutual interest.
- Encourage information sharing among counties and DoD personnel to enhance opportunities for working land protection and conservation projects supported by DoD, such as by hosting a supporting or promoting webpage, establishing a quarterly Military Communities Network Bulletin, publishing articles in NACoRF's bi-weekly County News publication other products to encourage best practices and information sharing.
- Facilitate educational sessions, site visits and joint convenings for DoD-focused networking and educational opportunities to facilitate introductions, engagement and potential collaboration between county leaders and DoD agencies.

DELIVERABLES: Through this award, a wide range of specific deliverables will be produced and iteratively improved upon. The following deliverables are for the base period AND all follow-on option periods of the agreement:

- Develop (during the base period) and update/maintain (during the option periods) the NACoRF Military Communities Network to build a partnership between the U.S. Department of Defense (DOD) and the National Association of Counties Research Foundation (NACoRF) that supports military readiness through increased coordination with county leaders.
- Develop (during the base period) and update/maintain (during the option periods) a directory of Military Communities Network (MCN). NACoRF will build a directory of county leaders responsible for coordination with nearby military installations. This will be achieved through individual contact with each of the 502 counties to both identify the appropriate elected and staff county leaders as well as a strategy for maintaining and updating the directory.
- Produce, design, and maintain county news, MCM bulletin and webpage as a communication resource related to the issues relevant to the counties adjacent to military installations, guidance related to the REPI Program, foreign ownership, and case examples of counties engaging with DOD through the REPI Program (during all option periods).
- Host virtual discussion groups: NACoRF will coordinate and host up to one (1) 60–90-minute invitation-only virtual conversation with selected county officials on topics or in geographies mutually agreed upon by NACoRF and DOD (during all option periods).
- Host up to ten (10) educational sessions and joint convenings to encourage information sharing among counties and DoD (during all option periods).

All of the services and deliverables listed above will contribute to the success of the partnership between counties and the military and its core purpose of protecting the military mission.

b. Review and Selection Process:

The application will be reviewed based on the selection criteria above.

The applicant is advised that employees of commercial firms under contract to the Government may be used to administratively process applications. By submitting an application, an applicant consents to allowing access to its application(s) by support contractors. These support contracts include nondisclosure agreements prohibiting their contractor employees from disclosing any information submitted by applicants.

In addition to the technical/program review, the DoD conducts budget and risk reviews as directed by 2 CFR 200.206, including a review of the Federal Awardee Performance and Integrity Information System (FAPIIS). Applicants may review information in FAPIIS and comment on any information entered into that system. Comments made by applicants will be taken into account in addition to other information in considering applicants' integrity, business ethics, and record of performance.

At the time of application, there is no additional material to be submitted for this review. However, there may be additional requests for clarification as these reviews progress.

c. Award Decision

The Government reserves the right to request additional information once award has been determined. The Government reserves the right to remove the applicant from award consideration should the parties fail to reach agreement on award terms within a reasonable time or the Applicant fails to provide requested additional information in a timely manner.

The recipient that has been deemed successful will receive a pre-award notice via e-mail from the WHS/AD Grants Officer. The Government may initiate Cooperative Agreement negotiations when deemed appropriate to do so. Unsuccessful applicants will also be notified via e-mail at that time.

Once a recipient of award is announced, the recipient of award only shall submit the

required information for electronic submission. The recipient of award shall use the Grants.gov website (<https://www.grants.gov>). Recipient shall complete the mandatory forms in the application package template associated with this NFO.

G. Federal Award Administration Information

a. FEDERAL AWARD NOTICES

Decisions are expected to be announced via email. Evaluations and awards will be made on a rolling basis. After selection, the Program Office and the Grants Office may negotiate a Cooperative Agreement with the selected Recipient(s). Applicants who do not receive an award are not entitled to a debrief.

The notification email regarding a selection is not authorization to commit or expend DoD funds. A DoD grants officer is the only person authorized to obligate and approve the use of Federal funds; this authorization is conveyed in the form of a signed Notice of Award. If recommended, offerors will be contacted by a DoD grants officer to discuss any additional information required for award. This may include representations and certifications, revised budgets or budget explanations, or other information as applicable to the proposed award. The award start date will be determined and documented at that time.

Federal regulations, to include but not limited to 32 CFR 32 and DoD 3210.6-R¹, take precedence over all terms and conditions of Agreement awards.
